

wa business entity search

wa business entity search is a crucial process for anyone looking to start a business, conduct due diligence, or verify the legitimacy of a company in Washington State. This search allows individuals and organizations to access vital information about business entities registered in the state, including their status, ownership, and filings. Whether you are an entrepreneur, investor, or legal professional, understanding how to perform a WA business entity search can save you time and resources. This article will explore the importance of business entity searches, guide you through the process of conducting one, discuss the types of information you can find, and highlight the benefits of using official resources for your search.

- Introduction to WA Business Entity Search
- Importance of Business Entity Searches
- How to Conduct a WA Business Entity Search
- Information Available Through the Search
- Benefits of Using Official Resources
- Conclusion

Importance of Business Entity Searches

Conducting a business entity search is essential for several reasons. First and foremost, it provides information about the legal status of a business. Knowing whether a company is active, inactive, or dissolved can influence your decisions, especially if you are considering a partnership or investment. Furthermore, a business entity search helps verify the legitimacy of a company, ensuring that you engage with a reputable organization.

Additionally, the search can reveal critical details about a business's history, including its formation date, registered agent, and any filed documents. This information is vital for legal compliance, as it aids in understanding the obligations and responsibilities tied to the entity. For legal professionals, due diligence is crucial in avoiding potential liabilities, making a business entity search an indispensable tool.

How to Conduct a WA Business Entity Search

Conducting a WA business entity search is a straightforward process that can be completed online through the Washington Secretary of State's website. The search can be performed using various criteria, which allows you to find specific information efficiently.

Step-by-Step Process

To conduct a WA business entity search, follow these steps:

1. **Visit the Washington Secretary of State's website:** Navigate to the business entity search page.
2. **Select your search criteria:** You can search by business name, UBI number, or the name of an officer or agent.
3. **Input your search terms:** Enter the relevant information in the search box and click "Search."
4. **Review the search results:** Browse through the list of entities that match your criteria.
5. **Select a business entity:** Click on the entity name to view detailed information, including status and filings.

This user-friendly interface ensures that anyone can access the information they need without extensive knowledge of legal jargon or processes.

Information Available Through the Search

When you perform a WA business entity search, you can access a wealth of information about each registered business. This information is crucial for making informed decisions and understanding a business's background.

Types of Information

The following types of information are typically available through a WA business entity search:

- **Business Name:** The official name under which the business operates.
- **UBI Number:** A unique identifier assigned to the business by the state.
- **Status:** Indicates whether the business is active, inactive, or dissolved.
- **Formation Date:** The date the business was registered in Washington State.
- **Registered Agent:** The individual or business designated to receive legal documents on behalf of the company.
- **Filing History:** A record of all documents filed with the state, including annual reports and amendments.

This comprehensive data allows users to evaluate a business's legitimacy, financial health, and compliance with state regulations.

Benefits of Using Official Resources

Utilizing official resources for your WA business entity search is highly beneficial. The Washington Secretary of State's website provides accurate and up-to-date information directly from the state, ensuring that you receive reliable data. This is particularly important for legal and financial decisions where accuracy is paramount.

Key Advantages

Some key advantages of using official resources include:

- **Accuracy:** Data obtained from official sources is verified and reliable.
- **Comprehensiveness:** Access to complete business records, including status and historical data.
- **Time-saving:** The online platform allows for quick searches without the need for physical visits to government offices.
- **Cost-effective:** Most searches are free or come with nominal fees, making it accessible to everyone.

By leveraging these official resources, individuals and organizations can ensure they are making informed decisions based on accurate information.

Conclusion

In summary, a WA business entity search is an essential tool for anyone involved in business activities in Washington State. By understanding how to perform this search and what information is available, you can safeguard your interests and ensure compliance with state regulations. Whether you are an entrepreneur, investor, or legal professional, taking the time to conduct thorough business entity searches will provide you with the insights needed to make informed decisions. The benefits of using the Washington Secretary of State's official resources cannot be overstated, as they offer reliable information that is critical in today's business environment.

Q: What is a WA business entity search?

A: A WA business entity search is a process used to find information about businesses registered in Washington State, including their legal status, ownership details, and filing history.

Q: How do I perform a WA business entity search?

A: You can perform a WA business entity search through the Washington Secretary of State's website by entering search criteria such as business name or UBI number.

Q: What information can I find in a WA business entity search?

A: A WA business entity search can provide information such as the business name, UBI number, status, formation date, registered agent, and filing history.

Q: Why should I use official resources for a business entity search?

A: Using official resources ensures that you receive accurate, up-to-date, and comprehensive information directly from the state, which is crucial for making informed business decisions.

Q: Is there a fee to conduct a WA business entity search?

A: Most searches conducted through the Washington Secretary of State's website are free or have minimal fees for accessing certain detailed documents.

Q: Can I search for non-profit organizations using the WA business entity search?

A: Yes, the WA business entity search includes non-profit organizations registered in Washington State, allowing you to verify their status and details.

Q: How often is the business entity information updated?

A: The information on the Washington Secretary of State's website is updated regularly to reflect the most current data regarding business registrations and filings.

Q: What should I do if I find a business is inactive or dissolved?

A: If a business is inactive or dissolved, it is advisable to proceed with caution. You should assess the reasons for its status and consider consulting a legal professional before engaging with it.

Q: Can I access historical data about a business?

A: Yes, the WA business entity search provides access to a business's filing history, which includes historical data on registrations and status changes.

Q: Is the information from the WA business entity search legally binding?

A: While the information obtained from the WA business entity search is reliable, it is advisable to verify important details through additional legal channels if necessary.

wa business entity search: Investigating Identity Theft Judith M. Collins, 2006-02-17 What will you do when you encounter identity theft within your business? Chances are, you have already lost money to identity theft and business fraud. Look no further than the latest newspaper headlines to know that it is an epidemic problem and an alarming reality from which no business-whether small or large-is immune. Although you can't completely stop identity theft from happening, you can be prepared when it takes place. *Investigating Identity Theft: A Guide for Businesses, Law Enforcement, and Victims* is your practical guide for fully understanding and investigating identity theft. The training that I received from Judy Collins at MSU has been instrumental to my helping victims of identity theft and locating the person(s) who caused their nightmare. I have even used the training methods she outlines in this book on a homicide investigation and it paid off: the perpetrator is now in jail for the rest of his life. I can't say enough about Dr. Collins and her knowledge of tracking criminals on the Internet; she is a great asset to law enforcement. -Anthony Abdallah, Police Detective, Inkster Police Department (CID), Inkster, Michigan This valuable book is an essential, pragmatic guide for the full understanding and investigation of identity theft crimes. It also establishes Dr. Judith Collins as a foremost national expert on this growing crime problem that threatens our future. -Dr. Bruce L. Benson, Police Chief Emeritus, Associate Professor, Criminal Justice, Michigan State University Whether the investigator is working in the private or public sector, Dr. Collins presents valuable information on the methodology required to successfully resolve identity theft cases. The use of real-life investigations, with lessons learned, provides an intriguing and entertaining format while at the same time sharpening the investigator's skills. If you think investigating identity theft is not worthwhile because the crime is committed by individuals on randomly selected victims without specific objectives, goals, or purpose, you need to read this book. -Rod Kinghorn, Director of Investigations, General Motors Global Security An excellent book. Judith Collins has spent many years investigating identity theft. Her willingness to share her knowledge with law enforcement, businesses, and victims is truly a benefit that cannot be found elsewhere. -Juli Liebler, Captain, East Lansing Police Department, East Lansing, Michigan Well done. Smart idea. . . . This is an excellent, professionally written book . . . and much needed. -Salman Anwar, Computer Forensic Engineer, Western Michigan University Police Department As a retired special agent with the Federal Bureau of Investigation, and having worked the past six years in the private sector, I found Dr. Collins's book to be an invaluable tool for both the private sector and the law enforcement community. Dr. Collins provides genuine insight into the complex issues surrounding identity theft. I am confident her book will assist in both the prevention of identity theft and the detection of those who prey on other's identities. -Frank Laudan, Investigator, Securitas Security Services USA, Inc. Excellent guide! A must-read for anyone involved in investigating identity theft! Dr. Collins has become one of the most respected and knowledgeable authorities in this relatively new field. -Detective Gary A. Guiles (Retired), Fraud Investigator, Lansing Police Department, Lansing, Michigan

wa business entity search: *Autonomous Weapons Systems and the Responsibility of States* Lutiana Valadares Fernandes Barbosa, 2024-10-18 This book reviews whether the existing framework in place can effectively address breaches in the context of Autonomous Weapons Systems (AWS). The work endeavors to map out the main gaps and some possible approaches to address them. Part I sets the ground. First, it provides a concept of AWS. Next, it discusses the accountability gap AWS generate and shows how the international community has put far more emphasis on individual responsibility rather than state responsibility. Part II analyzes the challenges AWS pose to the regime governing state responsibility under international law, as codified in the Draft Articles on State Responsibility (ARSIWA). In this regard, it discusses attribution, breach of an international obligation, *tempus comissi delicti*, multiple states involved in a breach, *force majeure*, assurance of non-repetition, issues related to damage, the human-machine interaction and its impacts on state's responsibility, responsibility for not using AWS, weapons review and the duty of due diligence. Part III summarizes the challenges discussed in part II in thirteen issues of concern and presents possible paths *de lege ferenda* to address each of those issues, mainly a paradigm shift in attribution and strict liability, among seven other more specific proposals. The conclusion reached is that the current regime on the international responsibility of states is insufficient to deal with the new challenges AWS pose. *De lege ferenda*, the book argues for following the paths suggested in part III. It also reflects on parts II and III's findings and how many of AWS's challenges to state's responsibility apply to other autonomous devices. Therefore, through the case study of AWS, this work also opens the broader discussion of the gaps in the international responsibility of states regarding autonomous device misdoings.

wa business entity search: *The Law and Practice of Trademark Transactions* Irene Calboli, Jacques de Werra, 2016-02-26 The Law and Practice of Trademark Transactions is a comprehensive analysis of the law governing trademark transactions in a variety of legal and business contexts, and from a range of jurisdictional and cross-border perspectives. After mapping out the international legal framework applicable to trademark transactions, the book provides an analysis of important strategic considerations, including: tax strategies; valuation; portfolio splitting; registration of security interests; choice-of-law clauses; trademark coexistence agreements, and dispute resolution mechanisms. Key features include: • A comprehensive overview of legal and policy-related issues • A blend of approaches underpinning strategic considerations with analytical rigour • Regional coverage of the key characteristics of trademark transactions in a range of jurisdictions • Authorship from renowned trademark experts Practitioners advising trademark owners, including trademark attorneys, will find this book to be an invaluable resource for their practice, particularly where cross-border issues arise. It will also be a key reference point for scholars working in the field.

wa business entity search: **The Quest for a Science of Accounting** Thomas A. Lee, Peter W. Wolnizer, 2021-03-22 Originally published in 1997, the principal object of the editors in compiling this collection of Robert R. Sterling's work was to make more of his publications accessible in a convenient form to the academic and professional accounting communities, and to current and future generations of accounting students. While it is not a complete portfolio of his published work to date, this anthology contains all of Sterling's major articles. Through his long-term quest for a science of accounting, Sterling sought to bring together accounting educators, practitioners, regulators, and researchers in order to identify credible advancements in accounting knowledge, authoritative changes to accounting practice, and transforming improvements to accounting education.

wa business entity search: *Philanthropy: Multidisciplinary Perspectives* Giulia Neri-Castracane, Giuseppe Ugazio, 2025-05-13 *Philanthropy Multidisciplinary Perspectives* is a reference for academics and professionals engaged in philanthropy. It brings together scholars from fields such as economics, finance, law, philosophy, and sociology, showcasing the power of a multidisciplinary approach in providing a comprehensive view of this complex subject. The book addresses foundational questions in philanthropy and is divided into four parts. The first part asks the crucial question of why philanthropy matters, exploring the motivations behind giving and how beneficiaries are selected. The second part looks at the interaction between business and philanthropy. It examines the rise of social enterprises, the shift toward purpose-driven businesses, and the evolution of corporate social responsibility into sustainable enterprises. This part also addresses tax considerations that impact philanthropy's ability to scale. The book explores the synergies between finance and philanthropy to foster sustainable development and how philanthropy is addressing or could address specific SDGs. It concludes with key ingredients for good governance in philanthropy. The book tackles major challenges, such as diversity, compensation, and data management, while tracing the evolution of best practices in foundation governance. It identifies areas for improvement and discusses the relationships between governance in philanthropic organizations and important issues such as trust, equality, and democracy. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC BY-NC-ND) 4.0 license.
