westview business park: Taiwanese Business or Chinese Security Asset Chun-Yi Lee, 2011-10-20 This book investigates how China has used Taiwanese investment and treated Taiwanese investors to pursue political reunification. The book's main supposition is that both Chinese central and local governments have strategic considerations with respect to Taiwanese businesses. Consequently, through detailed case studies of three cities: Tianjin, Kunshan and Dongguan, the author explores the changing interaction between Taiwanese businesses and the Chinese government, and seeks to provide an explanation of this changing pattern of interaction in the cross-strait political economy. Through her unique empirical research, Lee shows how Chinese local governments, although being driven by short-term goals, also contribute to the goal of achieving political reunification, and argues that central and local governments complement each other as a consequence. By stressing the importance of long-term political goals and the state's policy interests and preferences, this research intends to address the various political implications attached to Taiwanese investment in China. This timely and important study presents some of the first systematic empirical research published in English (or any other Western language) focusing on

Taiwan's entrepreneurs (taishang) on the Chinese mainland. The book will be of interest to students and scholars of Taiwan Studies, Chinese Politics, Political Economy, Chinese Business and economics.

westview business park: Toward Entrepreneurial Community Development Michael Fortunato, Morgan Clevenger, 2017-03-31 Toward Entrepreneurial Community Development is about developing entrepreneurial communities, and goes beyond theories of the firm to demonstrate how local and regional society contributes in important ways to the vitality of entrepreneurs. The literature is rich with insights about leadership and culture within SMEs, and the behaviours and attitudes of their founders, founding teams, and managers. Since most of the attention in the entrepreneurship literature is focused on firms, we wish to explore everyone else: The social environment surrounding the entrepreneur, and how leadership and culture outside the firm can have pervasive effects on the business. This book reaches across disciplinary boundaries, integrating and advancing knowledge on entrepreneurial community development. The book identifies actionable leadership strategies that can be used by literally anyone to help make a community or region a more culturally-supportive, interactive home for entrepreneurial minds. We draw from original research to compare high and low entrepreneurship communities, and present an emergent picture of how community-level actors can (or fail to) work together to support entrepreneurship in places that are culturally distant from the Silicon Valley (i.e., most places). Toward Entrepreneurial Community Development then offers techniques for entrepreneurial community leadership, including how to build lasting alliances, create an image, and harness the local culture for entrepreneurial advantage. The result is a book that provides the reader with the latest advancements and techniques in entrepreneurship development in a straight-forward, readable format. No matter the reader, Toward Entrepreneurial Community Development demonstrates how anyone, in any position, can lead a local entrepreneurship movement starting anywhere, anytime.

westview business park: Industrial Strategy And Planning In Mexico And The United States Sidney Weintraub, 2019-04-09 The role of industrial planning in trade is one of the most important areas of dispute between Mexico and the United States. The official U.S. stance stresses the dominance of the marketplace, while official Mexican industrial policy demands a large and active government role. Although the United States espouses free trade in theory, in practice it

westview business park: The Themed Space Scott A. Lukas, 2007-10-07 The Themed Space: Locating Culture, Nation, and Self is the first edited collection focused on the significance of the theme space. The first section of the text discusses the ways in which theming acts as a form of authenticity. Included are articles on the theme park Dollywood, the historic Coney Island, the uses of theming in Flagstaff, Arizona, and the Las Vegas Strip. Section two considers theming as a reflection of nation, and its authors focus on Chinese theme parks and shopping malls, the Lost City theme park in South Africa, and the Ain Diab resort district in Casablanca. The third section of the book illustrates how theming often targets the person-whether famous or everyday. The authors look at spaces ranging from the Liverpool John Lennon Airport, love hotels in Japan, and the Houston, Texas theme park AstroWorld. The final section emphasizes theming as a projection of the mind and psychology. The authors focus on behind-the-scenes tourism at Universal Studios and the Ford Rouge Factory Tour, the use of theming in unexpected spaces like Florida themed clinics, theming in virtual reality spaces of video games, and the social controversies related to theming in various parts of the world. The book includes a comprehensive bibliography on theming and a list of key terms. The Themed Space is of great interest to students of all levels and scholars of anthropology, urban studies and sociology.

westview business park: MIRA MESA, CALIFORNIA Pam Stevens, 2011 Mira Mesa is a community in the northern part of the San Diego city limits. Its largest suburb, with over 75,000 residents, it began its rapid growth in the early 1970s, blossoming into a happily multi-ethnic
