Does a person's faith affect what they buy and don't buy? What about where they make their purchases? Are consumers shopping differently today versus three to five years ago? These and other key questions were posed to women of all age groups in a national behavioral study executed by America's Research Group between December 2020 and January 2021. In Brad Benbow and Phil Daniels' groundbreaking book, *Spiritugraphics: The Influence of Faith on Consumption and Why It Matters to Your Brand*, you will discover keen insights into topics important to marketers like: How much does "Made in America" affect shoppers of faith? In spite of current culture change, political correctness and consequences of expressing diverse thought, 42.4% of female Christians in the US say that "American-made" is very important. Does "holiday" vs. "Christmas" really matter to people of faith? According to the research, 60% stated that any retailer promoting "Christmas" rather than "Holiday" (or other references) had a significant advantage with them compared to their competitors. Marketers and brand managers have long operated under the framework of demographics, psychographics, and sociographics. Authors Benbow and Daniels present a new set of data points to be considered: *Spiritugraphics*.
