Exam Format and Components

The structure of the AP Calculus AB exam is as follows:

- **Multiple-Choice Section:** This section includes 45 questions, which students must complete in 1 hour and 45 minutes. Each question is designed to test various calculus concepts.
- **Free Response Section:** This section consists of 6 questions, which students have 1 hour and 30 minutes to complete. The questions require students to show their work and reasoning, emphasizing not just the final answer but also the process used to arrive at it.

The combination of these components allows for a comprehensive assessment of a student's calculus knowledge and skills.
