abroad in japan book online: Language Learning, Digital Communications and Study Abroad Levi Durbidge, 2024-07-16 This book argues for a view of study abroad as emergent of, and negotiated through, tensions between localised and globalised imaginaries of language, identity and place. By examining the experiences of a group of Japanese high school students during, and after, a year embedded in families and schools abroad in countries across Europe, Asia and North and South America, it provides the first in-depth exploration of the role of mobile communications technology in study abroad. This includes its facilitation of strategic language learning, host community participation and the construction of multilingual identities. The student accounts covered in this book explore a number of other critical issues in contemporary study abroad, including translanguaging practices, racialised identities, the role of the host family and the status of English as a lingua franca in multilingual environments. The results demonstrate the importance of understanding study abroad and related language learning as intersecting with global flows of people and information.

abroad in japan book online: Youth-Serving Libraries in Japan, Russia, and the United States Lesley S.J. Farmer, N. I. Gendina, Yuriko Nakamura, 2012 In recent years, interest in International Librarianship has grown rapidly and will continue to grow as globalization influences education and librarianship. In countries around the world, public and school libraries have unique roles and their staffs collaborate across types of libraries to varying degrees. Library staff preparation, training, and ongoing learning and organization of youth-serving librarians mirror each country's values and priorities. The essays in *Youth-Serving Libraries in Japan, Russia, and the United States* address the universal and culture-specific aspects of library services to children and teens in these three countries. This collection shows how libraries have developed in light of each country's political, educational, and social history. They examine how government and citizen roles in youth-serving libraries also reflect culturally defined social structures. The chapters highlight unique collections and services within each country and also show how librarians deal with the challenges they encounter, both from within their culture as well as from outside—including natural disasters. Each country's authors discuss contemporary issues that face youth-serving libraries, such as information literacy, reading in a multimedia world, and the overarching influence of technology. This book will be of interest to youth-serving librarians around the world, library educators, and for those studying international and young adult librarianship.

abroad in japan book online: Mobile Japanese Migrants to the Pacific West and East

Etsuko Kato, 2023-12-01 This book explores "self-searching migrants," a new group of indefinitely globally mobile people whose purpose of overseas stay is the search of true self and the work they really want to do, using Japanese trans-Pacific sojourners as the case study. Utilizing testimonies collected from interviews with Japanese migrants in their twenties to forties who had entered the job market between the early 1990s and 2010 and left for the English-speaking countries of Canada, Australia, and Singapore, the book argues that their practices are both ubiquitous and unique, the products of global and local contexts of a specific time. As semiskilled migrants from an extra-Western, postindustrial country, their struggles show a different picture of the West-centric world power system from those experienced by migrant workers from the Global South. Including extensive qualitative research and interview material collected over a 20-year period, this book will be of huge interest to students and scholars of Japanese culture and society, cultural anthropology, and migration.

abroad in japan book online: Mapping Changing Identities

Claire Alexander, Raminder Kaur, Brett St Louis, 2020-05-21 Issues of identity, culture and difference remain central to the politics, policies and encounters of global societies in the 21st century. Changes in the speed, scale, scope and form of international and internal migration, new and resurgent religious and ethnic solidarities, the emergence of 'new' multicultural societies, and the fusions and fissures of 'old' multicultural societies, have challenged and redrawn our understandings of nation and community, citizenship and belonging, exclusion and equality. This landmark collection, which marks the relaunch of the ground-breaking journal *Identities: Global Studies in Culture and Power*, brings together some of the leading international scholars in the field of race, ethnicity, migration and transnationalism to reflect on the changing landscape of research, theorisation and politics in this challenging contemporary context. The collection includes a powerful and typically provocative article by renowned race scholar Paul Gilroy, along with short 'state of the field' articles, critical interventions and think-pieces, each of which explores different geographical regions, emerging areas of research and new ways of 'thinking' identity in 'uncertain times'. This book was originally published as a special issue of *Identities: Global Studies in Culture and Power*.

She examines the potential of the Japan Foundation as a central public diplomacy actor in Europe, facilitating a Public-Private Partnership Platform. Focusing on France and Bulgaria, Gadjeva observes the Japan Foundation's role, contributions, and activities implemented between the 1970s and 2018, both autonomously and in collaboration with Japanese and local public and private actors. She compares the Foundation's initiatives in the two countries, highlighting both the strong points and the space for improvement. In addition, Gadjeva points out essential Japanese, French, and Bulgarian actors with potential for future cooperation with the Japan Foundation through public-private partnerships. Drawing on her interviews with Bulgarian and French representatives, she examines the image of Japan and the future expectations from Japan. Revealing certain cultural aspects and less-explored areas of Japanese soft power, she proposes specific project proposals for integrated public diplomacy initiatives implemented through a Public-Private Partnership Platform facilitated by the Japan Foundation. Providing valuable insights into the strong and insufficient points of Japan's public diplomacy in Europe and policy recommendations, this book will be of great interest to scholars and professionals in the spheres of Japanese public diplomacy, foreign cultural policy, and Japanese-European international relations.
