adulthood books for young adults: #Adulthood Natalie Funk, 2017-04-10 Imagine a 25 year old not knowing what credit is. That's a little terrifying. It seems essential for a young adult to know

things like how to drive, how to cook, or changing a tire. But these rites of passages are man-made and different across cultures. So, what makes us an adult then? The age or the actions of the person? I aimed to explore and debunk the idea of adulting through an illustrated comic guide book. I myself am a self-proclaimed adult-in-training, engaging in the self-deprecating #adulting humor. I wanted to make a book on how lacking I felt as an adult that could be relatable for my other confused young adults out there. Emerging adults should know that certain actions are not definitive of your worth as an adult. The content for the comics and infographics were collected from my own experiences, interviewed accounts, and crowdsourced material which were organized into categories reminiscent of anthropological research.

Let's face it, adulting is hard. While this might sound like a cliché, it does ring with truth. The moment your childhood years come to an end, you face a transitional period of life - the teenage years - when you have to figure out where you fit. And in all this, you also need to struggle with the idea of living independently, preparing yourself for the life ahead. Figuring out your career, managing your finances, and making sense of your whole life - very likely on your own - this period of your life easily becomes a headache. Think for a moment, how would you rate your skills in managing time, money, and your emotions - all on your own? Or how about navigating through everyday problems and achieving a balanced life without family support? According to a survey by the Bank of America, many teens and young adults agree that adulthood truly begins when you can live independently, find a job, pay for your expenses, and stop relying on your family for financial support. Unfortunately, throughout your school life, you are never handed a map that can help you navigate the challenges of adult life with ease. Without it, no matter what the future might hold, you are under-equipped for life.

adulting books for young adults: *No Kids Allowed* Michelle Ann Abate, 2020-10-13 Children's literature isn't just for children anymore. This original study explores the varied forms and roles of children's literature—when it's written for adults. What do Adam Mansbach's *Go the F**k to Sleep* and Barbara Park's *MA! There's Nothing to Do Here!* have in common? These large-format picture books are decidedly intended for parents rather than children. In *No Kids Allowed*, Michelle Ann Abate examines a constellation of books that form a paradoxical new genre: children's literature for adults. Distinguishing these books from YA and middle-grade fiction that appeals to adult readers, Abate argues that there is something unique about this phenomenon. Principally defined by its form and audience, children's literature, Abate demonstrates, engages with more than mere nostalgia when recast for grown-up readers. Abate examines how board books, coloring books, bedtime stories, and series detective fiction written and published specifically for adults question the boundaries of genre and challenge the assumption that adulthood and childhood are mutually exclusive.
