anne boleyn book of hours: The Book of Hours and the Body Sherry C. M. Lindquist, 2024-02-29 This book explores our corporeal connections to the past by considering what three theoretical approaches - somaesthetics, posthumanism, and the uncanny - may reveal about both premodern and postmodern terms of embodiment. It takes as its point of departure a selection of fifteenth-century northern European Books of Hours - evocative objects designed at once to inscribe social status, to strengthen religious commitment, to entertain, to stimulate emotions, and to encourage discomfiting self-scrutiny. Studying their kaleidoscopically strange, moving, humorous, disturbing, and imaginative pages not only enables a window into relationships among bodies, images, and things in the past but also in our own internet era, where surprisingly popular memes drawn from such manuscripts constitute a part of our own visual culture. In negotiating theoretical, post-theoretical, and historical concerns, this book aims to contribute to an emerging and much-needed intersectional social history of art. It will be of interest to scholars working in art history, medieval studies, Renaissance/early modern studies, gender studies, the history of the book, posthumanism, aesthetics, and the body.

anne boleyn book of hours: Girl Culture in the Middle Ages and Renaissance Deanne Williams, 2023-06-01 Deanne Williams offers the very first study of the medieval and early modern girl actor. Whereas previous histories of the actress begin with the Restoration, this book demonstrates that the girl is actually a well-documented category of performer and a key participant in the drama of the Middle Ages and Renaissance. It explores evidence of the girl actor in archival records of payment, eyewitness accounts, stage directions, paintings, and in the plays and masques that were explicitly composed for girls, and, in some cases, by them. Contradicting previous scholarly assumptions about the early modern stage as male-dominated, this evidence reveals girls' participation in medieval religious drama, Tudor civic pageants and royal entries, Elizabethan country house entertainments, and Stuart court and household masques. This book situates its

historical study of the girl actor within the wider contexts of 'girl culture', including girls as singers, translators and authors. By examining the impact of the girl actor on constructions of girlhood in the work of Shakespeare – whose girl characters register and evoke the power of the performing girl – *Girl Culture in the Middle Ages and Renaissance* argues that girls' dramatic, musical and literary performances actively shaped medieval and early modern culture. It shows how the active presence and participation of girls shaped medieval and Renaissance culture, and it reveals how some of its best-known literary and dramatic texts address, represent, and reflect upon girl children, not as an imagined ideal, but as a lived reality.

anne boley book of hours: *"The Feminine Dynamic in English Art, 1485-1603"* Susan E. James, 2017-07-05 A significant contribution to the understanding of sixteenth-century English art in an historical context, this study by Susan James represents an intensive rethinking and restructuring of the Tudor art world based on a broad, detailed survey of women's diverse creative roles within that world. Through an extensive analysis of original documents, James examines and clarifies many of the misperceptions upon which modern discussions of Tudor art are based. The new evidence she lays out allows for a fresh investigation of the economics of art production, particularly in the images of Elizabeth I; of strategies for influencing political situations by carefully planned programs of portraiture; of the seminal importance of extended clans of immigrant Flemish artists and of careers of artists Susanna Horenbout and Lievine Teerlinc and their impact on the development of the portrait miniature. Drawn principally from primary sources, this book presents important new research which examines the contributions of Tudor women in the formation, distribution and popularization of the visual arts, particularly portraiture and the portrait miniature. James highlights the involvement of women as patrons, consumers and creators of art in sixteenth-century England and their use of the painted image as a statement of cultural worth. She explores and analyzes the amount of time, money, effort and ingenuity which women across all social classes invested in the development of art, in the uses they found for it, and the surprising and unexpected ways in which they exploited it.

Katarzyna Kosior cuts through persistent stereotypes of an East-West dichotomy and a culturally isolated early modern Poland to offer a groundbreaking comparative study of royal ceremony in Poland and France. The ceremonies of becoming a Jagiellonian or Valois queen, analysed in their larger European context, illuminate the connections that bound together monarchical Europe. These ceremonies are a gateway to a fuller understanding of European royal culture, demonstrating that it is impossible to make claims about European queenship without considering eastern Europe.

anne boley book of hours: Being and Dwelling through Tourism Catherine Palmer, 2017-11-06 Much of the existing literature seeks to make sense of tourism based on singular approaches such as visuality, identity, mobility, performance and globalised consumption. What is missing, however, is an overarching framework within which these valuable approaches can be located. This book offers one such framework using the concept of dwelling taken from Heidegger

and Ingold as the starting point from which to consider the interrelatedness of being, dwelling and tourism. The anthropological focus at the core of the book is infused with multidisciplinary perspectives that draw on a variety of subjects including philosophy, material cultural studies and cultural geography. The main themes include sensuous, material, architectural and earthly dwelling and each chapter features a discussion of the unifying theoretical framework for each theme, followed by an illustrative focus on specific aspects of tourism. This theoretically substantive book will be of interest to anyone involved with tourism research from a wide range of disciplines including anthropology, sociology, geography, cultural studies, leisure studies and tourist studies.

Cultural artifacts of lay devotion within the birthing chamber, the birth girdles offered the solace and promise of faith to the parturient woman and her attendants amid religious dissent, political upheaval, recurring epidemics, and the onset of print.

anne boley book of hours: English Women, Religion, and Textual Production, 1500-1625 Micheline White, 2016-05-13 Contributing to the growing interest in early modern women and religion, this essay collection advances scholarship by introducing readers to recently recovered or little-studied texts and by offering new paradigms for the analysis of women's religious literary activities. Contributors underscore the fact that women had complex, multi-dimensional relationships to the religio-political order, acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra-as well as extra-confessional conflict. The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate the importance of women's engagement with Catholicism throughout the period. The collection also highlights the vitality of neglected intertextual genres such as prayers, meditations, and translations, and it focuses attention on diverse forms of textual production such as literary writing, patronage, epistolary exchanges, public reading, and epitaphs. Collectively, English Women, Religion, and Textual Production, 1500-1625 offers a comprehensive treatment of the historical, literary, and methodological issues preoccupying scholars of women and religious writing.

anne boley book of hours: The Waiting Game Nicola Clark, 2025-01-07 A colorful and authoritative narrative history of the often-overlooked—yet hugely influential—figures of the Tudor court: the ladies-in-waiting. Every Tudor Queen had ladies-in-waiting. They were her confidantes and her chaperones. Only the Queen's ladies had the right to enter her most private chambers, spending hours helping her to get dressed and undressed, caring for her clothes and jewels, listening to her secrets. But they also held a unique power. A quiet word behind the scenes, an appropriately timed gift, a well-negotiated marriage alliance were all forms of political agency wielded expertly by women. The *Waiting Game* explores the daily lives of ladies-in-waiting, revealing the secrets of recruitment, costume, what they ate, where (and with whom) they slept. We meet María de Salinas, who traveled to England with Catherine of Aragon when just a teenager and spied for her during the divorce from Henry VIII. Anne Boleyn's lady-in-waiting Jane Parker was instrumental in the execution of not one, but two queens. And maid-of-honor Anne Basset kept her place through the last four consorts, negotiating the conflicting loyalties of her birth family, her mistress the Queen, and even the desires of the King himself. As Henry changed wives—and changed the very fabric of the country's structure besides—these women had to make choices about loyalty that simply didn't exist before. The *Waiting Game* is the first time their vital story has been told.

anne boley book of hours: Regenerating the Feminine April C. Heaslip, 2025-08-15 Mythologists work as cultural animateurs, tracking patterns and trends, identifying archetypal and

symbolic wounds and remedies. Reading cultural and environmental events via texts and patterns from such a perspective enables dynamic dialogue and action. *Regenerating the Feminine: Psyche, Culture, and Nature* examines the history of the lost and degraded archetypal feminine of Western cultures, whose resurgence in scholarship, the arts, and social justice practices is now on the rise. Drawing on various methodologies to deepen our understanding of this regenerative phenomenon, author April C. Heaslip charts the significance of interconnected expressions dramatically impacting our sense of self, community, history, health, culture, and creativity. This study examines the feminine's resurgence via emerging imaginal archetypal paradigms in literary fiction, memoir, and cinematic expression. Utilizing literary and film studies, depth psychology, archaeomythology, history, and religious studies to examine the cultural and personal phenomenon of feminine renewal, this book explores how remythologizing regeneration—as well as remapping complex and neglected personal and collective wasteland landscapes—revitalizes the relationship between psyche, culture, and nature. Tending to the return of the feminine and the complex cultural and eco wastelands, this post-Jungian inquiry remythologizes notions of wholeness, amplifies feminist revisions of Joseph Campbell's "hero's" journey, and provides transdisciplinary best practices in support of personal individuation, cultural revitalization, and ecological healing.
