bad bobby plot summary: Some Wore Bobby Sox K. Schrum, 2019-06-12 Images of teenage girls in poodle skirts dominated American popular culture on the 1950's. But as Kelly Schrum shows, teenage girls were swooning over pop idols and using their allowances to buy the latest fashions well beforehand. After World War I, a teenage identity arose in the US, as well as a consumer culture geared toward it. From fashion and beauty to music and movies, high school girls both consumed and influenced what manufacturers, marketers, and retailers offered to them. Examining both national trends and individual lives, Schrum looks at the relationship between the power of consumer culture and the ability of girls to selectively accept, reject, and appropriate consumer goods. Lavishly illustrated with images from advertisements, catalogs, and high school year books, *Some Wore Bobby Sox* is a unique and fascinating cultural history of teenage girl culture in the middle of the century.

bad bobby plot summary: Ring Around the Maple Cynthia R. Comacchio, Neil Sutherland, 2024-10-29 Ring Around the Maple is about the condition of children in Canada from roughly 1850 to 2000, a time during which “the modern” increasingly disrupted traditional ways. Authors Cynthia R. Comacchio and Neil Sutherland trace the lives of children over this “long century” with a view to synthesizing the rich interdisciplinary, often multi-disciplinary, literature that has emerged since the 1970s. Integrated into this synthesis is the authors’ new research into many, often seemingly disparate, archival and published primary sources. Emphasizing how “the child” and childhood are sociohistoric constructs, and employing age analytically and relationally, they discuss the constants and the variants in their historic dimensions. While childhood tangibly modernized during these years, it remained a far from universal experience due to identifiers of race, gender, culture, region, and intergenerational adaptations that characterize the process of growing up. This work highlights children’s perspectives through close, critical, “against the grain” readings of diaries, correspondence, memoirs, interviews, oral histories and autobiographies, many buried in obscure archives. It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations, Métis, and Inuit children with those of children from a number of settler groups. Ring Around the Maple makes use of photographs, catalogues, advertisements, government publications, musical recordings, radio shows, television shows, material goods, documentary and feature films, and other such visual and aural testimony. Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children. This book is generously illustrated with photographs and ephemera carefully selected to reflect children’s lives, conditions, interests, and obligations. It will be of special interest to historians and social scientists interested in children and the culture of childhood, but will also appeal to readers who enjoy the little stories that together make up our collective history, especially when those are told by the children who lived them.
