beginner juba arabic resources: Juba Arabic for Beginners Richard L. Watson, 2018-02-19 Juba Arabic is an Arabic creole closely related to Kinubi. It began developing in the Equatoria Region of what is now South Sudan over 100 years ago, and spread widely, now being the spoken lingua franca of the region. It has become so well established that expatriates working in Equatoria often find themselves in situations in which neither English nor Khartoum colloquial Arabic is adequate for communication. Juba Arabic for Beginners was originally prepared by SIL as a language course for the communication needs of its own personnel, but other people needing to communicate in Juba have found it invaluable. The present course was adapted from the excellent Sudanese Colloquial Arabic for Beginners (Andrew and Janet Persson, with Ahmad Hussein) in general format with its 30 dialogues. However, due to important linguistic and cultural differences, five additional lessons relevant to southern culture are included. This course is written in a Romanized orthography and represents a widespread dialect of Juba Arabic. Over the past 30 years, the course has served, and continues to serve, personnel of a number of expatriate organizations.

beginner juba arabic resources: *Race-ing Fargo* Jennifer Erickson, 2020-10-15 Tracing the history of refugee settlement in Fargo, North Dakota, from the 1980s to the present day, *Race-ing Fargo* focuses on the role that gender, religion, and sociality play in everyday interactions between refugees from South Sudan and Bosnia-Herzegovina and the dominant white Euro-American population of the city. Jennifer Erickson outlines the ways in which refugees have impacted this small city over the last thirty years, showing how culture, political economy, and institutional transformations collectively contribute to the racialization of white cities like Fargo in ways that complicate their demographics. *Race-ing Fargo* shows that race, religion, and decorum prove to be powerful forces determining worthiness and belonging in the city and draws attention to the different roles that state and private sectors played in shaping ideas about race and citizenship on a local level. Through the comparative study of white secular Muslim Bosnians and Black Christian Southern Sudanese, *Race-ing Fargo* demonstrates how cross-cultural and transnational understandings of race, ethnicity, class, and religion shape daily citizenship practices and belonging.

beginner juba arabic resources: *Integration and Fragmentation of the Sudan* Mawut Achieque Mach Guarak, 2011 The most comprehensive, profound, and accurate book ever written in the history of modern Sudan, *Integration and Fragmentation of the Sudan: An African Renaissance*, is an encyclopedia of ancient and modern history as well as the politics of Sudan. It is a library of data that discusses Sudan from its economic, political, and social standpoint since the Arab discovery and use of the term Bilad es Sudan up through the modern republic of the Sudan after which South and North Sudan collided in 1947. Although written to correct fabrications, this book is a foundation on which future Sudans shall live on. It is full of useful information that discusses and provides feasible solutions to the fundamental problem of the Sudan that ruptured the country from the Berlin Conference to the post-independence era. For centuries, Sudanese and the international community have been fed with idealistic information as if Sudan started with the coming of the Arabs in the fourteenth century. This persisted due to the lack of resources and formal education among African natives. Khartoum's unreasonable diversion of genuine history is one among the many causes of mistrust and division in Sudan. The indigenous Africans found themselves peripheral to Khartoum where economic and political power is concentrated. *Integration and fragmentation of Sudan: An African Renaissance* is a great source of knowledge for the public and students of Sudanese politics. With the referendum and popular consultation approaching, this book is a head-start for the marginalized Black Africans to make an informed decision between oppression and liberty. Examples and testimonies provided in the text are reasons for the affected regions to permanently determine their future. For freedom diehards this book lays the foundation on which to celebrate the birth of Africa's newest sovereign nation along the Nile River.

beginner juba arabic resources: *Conflict Management and Resolution in South Sudan* Nelson Alusala, Emmaculate Asige Liaga, Martin Revai Rupiya, 2023-08-08 This book analyses the main events and turning points in the building of pre- and post-independent South Sudan. It covers the historical perspectives of the country, its key political, mediation and negotiation processes, peace and security, socio-economic development, and gender, as well as conflict and reconstruction. Many African states are products of compromised peace settlements and power sharing agreements, following violent and protracted conflicts between colonial/occupying powers, armed groups and nation states. This is the same route that Africa's youngest nation, South Sudan traversed before attaining independence in July 2011. This edited volume is an innovative collection that serves as a complete reading on South Sudan, from the pre-independent to post-independent realities of the political, military and inter-ethnic conflicts and the negotiations to resolve them. It is a step-by-step account of the major events that mark the history as well as the contemporary occurrences in South Sudan. The book offers guidance on how to sustainably end armed conflict in Africa by tackling four

broad themes that include the historical analysis of the conflict, political issues, peace and security, and gender, justice and contemporary dynamics. The book presents a gendered approach to arguments, while also reflecting gender equity in terms of the book authorship. Academics, researchers and specialists in the field of conflict management and resolution as well as security studies will find this book useful.
