bears in the night book: *I Can Read It All by Myself* Paul V. Allen, 2021-05-28 In the late 1950s, Ted Geisel took on the challenge of creating a book using only 250 unique first-grade words, something that aspiring readers would have both the ability and the desire to read. The result was an unlikely children's classic, *The Cat in the Hat*. But Geisel didn't stop there. Using *The Cat in the Hat* as a template, he teamed with Helen Geisel and Phyllis Cerf to create *Beginner Books*, a whole new category of readers that combined research-based literacy practices with the logical insanity of Dr. Seuss. The books were an enormous success, giving the world such authors and illustrators as P. D. Eastman, Roy McKie, and Stan and Jan Berenstain, and beloved bestsellers such as *Are You My Mother?*; *Go, Dog. Go!*; *Put Me in the Zoo*; and *Green Eggs and Ham*. The story of *Beginner Books*—and Ted Geisel's role as “president, policymaker, and editor” of the line for thirty years—has been told briefly in various biographies of Dr. Seuss, but *I Can Read It All by Myself: The Beginner Books Story* presents it in full detail for the first time. Drawn from archival research and dozens of brand-new interviews, *I Can Read It All by Myself* explores the origins, philosophies, and operations of *Beginner Books* from *The Cat in the Hat* in 1957 to 2019's *A Skunk in My Bunk*, and reveals the often-fascinating lives of the writers and illustrators who created them.

Mindell, 2010-10-05 Right after *Is it a boy or a girl?* and *What's his/her name?*, the next question people invariably ask new parents is *Are you getting any sleep?* Unfortunately, the answer is usually *Not much*. In fact, studies show that approximately 25% of young children experience some type of sleep problem and, as any bleary-eyed parent will attest, it is one of the most difficult challenges of parenting. Drawing on her ten years of experience in the assessment and treatment of common sleep problems in children, Dr. Jodi A. Mindell now provides tips and techniques, the answers to commonly asked questions, and case studies and quotes from parents who have successfully solved their children's sleep problems. Unlike other books on the subject, Dr. Mindell also offers practical tips on bedtime, rather than middle-of-the-night-sleep training, and shows how all members of the family can cope with the stresses associated with teaching a child to sleep.
