behind the green mask cast: Andy Serkis - The Man Behind the Mask Justin Lewis, 2012-11-05 Andy Serkis is best known for his remarkable interpretation of the vengeful and obsessive Gollum in the groundbreaking Lord of the Rings screen trilogy (2001-03). Landing the role presented him with a formidable challenge: helping to bring to life a computer-generated character that was not just technically dazzling but emotionally credible. To play Gollum needed a performer with immense stamina and creativity, requirements which - for audiences and critics alike - Andy Serkis exceeded. But there is far more to Serkis than The Lord of the Rings. When he began work on the trilogy in 1999, he already had 15 years of experience in theatre, television and cinema, portraying characters who were eccentric, complex, and even monstrous. He was always determined to inject humanity and empathy into every part he played, no matter how flawed they may have seemed. It is this level of intensity and commitment that has enriched so many of his roles, from Bill Sykes to King Kong and from Albert Einstein to Ian Dury. Andy Serkis returned to the big screen in 2011 as Captain Haddock in the long-awaited The Adventures of Tintin: Secret of the Unicorn and is now preparing to revisit the persona of Gollum for the cinematic remake of The Hobbit. Author Justin Lewis examines the life and career to date of this most highly principled, hard-working and versatile of actors.

behind the green mask cast: The Emptiness of the Image Parveen Adams, 2013-04-15 There has long been a politics around the way in which women are represented, with objection not so much to specific images as to a regime of looking which places the represented woman in a particular relationship to the spectator's gaze. Artists have sometimes avoided the representation of women altogether, but they are now producing images which challenge the regime. How do these images succeed in their challenge ? The Emptiness of the Image offers a psychoanalytic answer. Parveen Adams argues that, despite flaws in some of the details of its arguments, psychoanalytic theory retains an overwhelming explanatory strength in relation to questions of sexual difference and representation. She goes on to show how the issue of desire changes the way we can think of images and their effects. Throughout she discusses the work of theorists, artists and filmmakers such as Helene Deutsch, Catherine MacKinnon, Mary Kelly, Francis Bacon, Michael Powell and Della Grace. The Emptiness of the Image shows how the very space of representation can change to provide a new way of thinking the relation between the text and the spectator. It shows how psychoanalytic theory is supple enough to slide into and transform the most unexpected situations.

behind the green mask cast: Pitch Matthew Krause, 2012-09-10 In the late 1980s, Travis Lembeau, a freshman catcher trying to make his college baseball team, meets Nicholas Pooch Shepherd, a brilliant, ambidextrous pitching prodigy. The two become fast friends and decide to work out together to earn a spot on the rotation. But Pooch has a love of the drink and a talent for sabotage, and one cool February night in 1989, he embarks on a night of drunken violence that leaves Travis in the hospital. Almost a decade has passed, and the two have gotten on with their lives. Travis has married his college sweetheart and works for a small-town newspaper, and Nick Shepherd, no longer calling himself Pooch, is a recovering alcoholic, ten years sober, who cares for his ailing mother and teaches baseball to the local kids. It would seem that the terrible days of Pooch are long gone but sometimes the past is never where you think you left it. Through a quantum anomaly, the demon that Nick used to be--the vicious Pooch circa 1989--claws its way across the portals of time to stalk Travis and harass his family. After Travis suffers another beating at Pooch's hands, he fears the worst--that Nick has fallen off the wagon and returned to his violent ways. But Nick is still very much sober and has an even greater reason for concern. For if this thing really is Pooch, if Pooch has somehow come out of the past to torment the present, then every atrocity committed by Pooch will leave a trail leading back to Nick. Working together and apart, and enlisting the aid of a mysterious time-traveling transient, Travis and Nick set out to stop Pooch and send him back to where he came from before Pooch's madness destroys everything they love.

behind the green mask cast: Melancholy and the Landscape Jacky Bowring, 2016-07-07 Written as an advocacy of melancholy's value as part of landscape experience, this book situates the concept within landscape's aesthetic traditions, and reveals how it is a critical part of ethics and empathy. With a history that extends back to ancient times, melancholy has hovered at the edges of the appreciation of landscape, including the aesthetic exertions of the eighteenth-century. Implicated in the more formal categories of the Sublime and the Picturesque, melancholy captures the subtle condition of beautiful sadness. The book proposes a range of conditions which are conducive to melancholy, and presents examples from each, including: The Void, The Uncanny, Silence, Shadows and Darkness, Aura, Liminality, Fragments, Leavings, Submersion, Weathering and Patina.
