bien dit french 2 textbook: Diversity and Decolonization in French Studies Siham Bouamer, Loïc Bourdeau, 2022-04-04 This edited volume presents new and original approaches to teaching the French foreign-language curriculum, reconceptualizing the French classroom through a more inclusive lens. The volume engages with a broad range of scholars to facilitate an understanding of the process of French (de)colonization as well as its reverberations into the postcolonial era, and a deeper engagement with the global interconnectedness of these processes. Chapters in Part I revisit the concept of the francophonie, decenter the field from “metropolitan” or “hexagonal” and white France and underline how current teaching materials reproduce epistemic and colonial violence. Part II adopts an intersectional approach to address topics of gender inclusivity, trans-affirming teaching, queer materials, and ableism. Finally, Part III presents new ways to transform the discipline by affirming our commitment to social justice and making sure that our classrooms are representative of our students’ enriching diversity.
