best tv trivia questions: Teaching the Social Skills of Academic Interaction, Grades 4-12 Harvey "Smokey" Daniels, Nancy Steineke, 2014-08-07 NEWS FLASH: A major meta-analysis of 213 studies showed an average 11 percent gain in academic performance for kids receiving explicit social-academic learning instruction. Turns out this soft stuff about creating a culture of respect and rapport yields hard and fast gains, and that's no surprise to collaboration gurus Harvey Smokey Daniels and Nancy Steineke. Now, these authors share a yearlong plan for helping you build powerful and binding peer-to-peer interactions. The added bonus: Your kids will meet speaking and listening standards, while you score better on classroom-engagement rubrics. Teaching the Social Skills of Academic Interaction taps the instructional power of slides, full-color illustrations, and super succinct directions to teach both the language and the behaviors of working effectively with others. These 35 lessons take your kids on a carefully paced upward spiral of collaboration, with explicit coaching on how to speak, listen, argue, persuade—and get along. Here's the best part: You model and your students practice these social skills with the content of your curriculum, not in disconnected add-on exercises. For each lesson, there are six to 25 slides that focus on one vital academic-social skill; step-by-step teaching tips are in the lie-flat planning book. The sequence looks mostly like this: The first slides introduce the skill—like being a good partner or arguing both sides of a controversial topic—then explain its value. The next slides help model the skill in action, using whatever curricular topic you happen to be teaching. Now, kids' active thinking is invited as you co-create strategies to enhance use of the target social-academic skill. Additional slides help kids practice the skill using your curricular content as you monitor and support. Lessons end with a debriefing to solidify new understandings. Any way you look at Teaching the Social Skills of Academic Interaction, it's a win-win. Your students realize better engagement in curriculum topics, higher performance, and social skills to last a lifetime. That's really college and career ready! And our schools become safer harbors, where students know one another, respect one another, and learn together. Longtime collaborators themselves, HARVEY SMOKEY DANIELS and NANCY STEINEKE have written six books together and are regular co-presenters at all the major literacy conferences. Both are former public school teachers who now work as national consultants, helping schools and districts to create friendly, supportive, and collaborative climates for young people. best tv trivia questions: *Social TV* Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment & Media Industries On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, *Social TV* shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.
