cape and pistol society uk: *Domestic Gun Control and International Small Arms Control in Africa* Niklas Hultin, 2022-08-08 This book, based on field research in the West African country of The Gambia, explores how domestic gun control is shaped by international efforts and how local actors interact with international organizations or opt not to do so. The book also shows how the question of who can have what kind of gun under what circumstances is an intrinsic question to modern societies across the world, but it is seldom one that is addressed in sub-Saharan Africa except in cases of post-conflict countries. Small arms control and gun control are often treated as separate efforts, with the former the domain of international actors such as the United Nations and the latter being of concern to the domestic politics of countries such as the United States. By focusing on a country that has never seen the outbreak of a civil war, the book is able to disentangle the complex roots of gun control in Africa, its origins in colonial era legislation, its reverberations across social life, and how it shapes contemporary understandings of groups ranging from security guards to hunters.

cape and pistol society uk: *Handbook of Decolonial Community Psychology* Christopher C. Sonn, Jesica Siham Fernández, James Ferreira Moura Jr., Monica Eviandaru Madyaningrum, Nick Malherbe, 2024-10-21 This handbook offers refined interpretations of decolonial thought, methodologies, and practices in community psychology. As a representative mapping of the broad range of decolonial cosmovisions, experiences, and praxes in community psychology and allied disciplines around the globe, it brings together contributions from North America, Latin America, Europe, Oceania, Africa, and Asia. It offers an overview of community psychology with a decolonial focus and from a transnational perspective, transcending intellectual, geographical, and cultural borders, and constraining identities, affirming and celebrating the unique identities, experiences, and positions of its contributors within the global landscape of knowledge and politics. The handbook illuminates the dynamic intersections between resistance and colonial legacies, foregrounding the enduring struggles against settler colonialism and racial capitalism across diverse geographies, temporalities, and histories. Underscoring the urgency of addressing inter-connected local and global challenges, such as land rights, livelihoods, and dignified existence, it offers hopeful yet critical perspectives on radical social justice struggles around the globe. The volume brings together contributions from scholars, academics, educators, researchers, practitioners, activists, and community collaborators, and its chapters range in style and format. Some are more aligned with academic writing, while others - in the spirit of decolonizing disciplinary logics - are structured through more undisciplined, less constrained writing forms. Each author was invited to question the colonality of power in and beyond community psychology. As such, the handbook contains productions that trouble the manifestations of colonality both in the past and in the present, as well as in the different territories of the Majority World, particularly within settler colonial nation-states. As a seminal work, the Handbook of Decolonial Community Psychology will further define and shape the contours of knowledge in decolonial community psychology, and inspire new generations of scholars, practitioners, students, and community organizers to advance the field with innovative ideas and transformative practices.

cape and pistol society uk: *Backcasts* Samuel Snyder, Bryon Borgelt, Elizabeth Tobey, 2016-07-11 "Many of us probably would be better fishermen if we did not spend so much time watching and waiting for the world to become perfect."-Norman Maclean Though Maclean writes of an age-old focus of all anglers—the day's catch—he may as well be speaking to another, deeper accomplishment of the best fishermen and fisherwomen: the preservation of natural resources. Backcasts celebrates this centuries-old confluence of fly fishing and conservation. However religious, however patiently spiritual the tying and casting of the fly may be, no angler wishes to wade into rivers of industrial runoff or cast into waters devoid of fish or full of invasive species like the Asian carp. So it comes as no surprise that those who fish have long played an active, foundational role in the preservation, management, and restoration of the world's coldwater

fisheries. With sections covering the history of fly fishing; the sport's global evolution, from the rivers of South Africa to Japan; the journeys of both native and nonnative trout; and the work of conservation organizations such as the Federation of Fly Fishers and Trout Unlimited, Backcasts casts wide. Highlighting the historical significance of outdoor recreation and sports to conservation in a collection important for fly anglers and scholars of fisheries ecology, conservation history, and environmental ethics, Backcasts explores both the problems anglers and their organizations face and how they might serve as models of conservation—in the individual trout streams, watersheds, and landscapes through which these waters flow.

cape and pistol society uk: The Gun in Central Africa Giacomo Macola, 2016-04-25 Why did some central African peoples embrace gun technology in the nineteenth century, and others turn their backs on it? In answering this question, *The Gun in Central Africa* offers a thorough reassessment of the history of firearms in central Africa. Marrying the insights of Africanist historiography with those of consumption and science and technology studies, Giacomo Macola approaches the subject from a culturally sensitive perspective that encompasses both the practical and the symbolic attributes of firearms. Informed by the view that the power of objects extends beyond their immediate service functions, *The Gun in Central Africa* presents Africans as agents of technological re-innovation who understood guns in terms of their changing social structures and political interests. By placing firearms at the heart of the analysis, this volume casts new light on processes of state formation and military revolution in the era of the long-distance trade, the workings of central African gender identities and honor cultures, and the politics of the colonial encounter.

cape and pistol society uk: Empire of Guns Priya Satia, 2018-04-10 NAMED ONE OF THE BEST BOOKS OF 2018 BY THE SAN FRANCISCO CHRONICLE AND SMITHSONIAN MAGAZINE By a prize-winning young historian, an authoritative work that reframes the Industrial Revolution, the expansion of British empire, and emergence of industrial capitalism by presenting them as inextricable from the gun trade A fascinating and important glimpse into how violence fueled the industrial revolution, Priya Satia's book stuns with deep scholarship and sparkling prose.--Siddhartha Mukherjee, Pulitzer Prize-winning author of *The Emperor of All Maladies* We have long understood the Industrial Revolution as a triumphant story of innovation and technology. *Empire of Guns*, a rich and ambitious new book by award-winning historian Priya Satia, upends this conventional wisdom by placing war and Britain's prosperous gun trade at the heart of the Industrial Revolution and the state's imperial expansion. Satia brings to life this bustling industrial society with the story of a scandal: Samuel Galton of Birmingham, one of Britain's most prominent gunmakers, has been condemned by his fellow Quakers, who argue that his profession violates the society's pacifist principles. In his fervent self-defense, Galton argues that the state's heavy reliance on industry for all of its war needs means that every member of the British industrial economy is implicated in Britain's near-constant state of war. *Empire of Guns* uses the story of Galton and the gun trade, from Birmingham to the outermost edges of the British empire, to illuminate the nation's emergence as a global superpower, the roots of the state's role in economic development, and the origins of our era's debates about gun control and the military-industrial complex -- that thorny partnership of government, the economy, and the military. Through Satia's eyes, we acquire a radically new understanding of this critical historical moment and all that followed from it. Sweeping in its scope and entirely original in its approach, *Empire of Guns* is a masterful new work of history -- a rigorous historical argument with a human story at its heart.

cape and pistol society uk: Gun Crime in Global Contexts Peter Squires, 2014-06-27 Every year around three-quarters of a million people die (directly or indirectly) as a result of gun violence, with most deaths occurring in the poorest, yet also most highly weaponized parts of the world. Firearm proliferation -- 875 million global firearms -- is a direct contributor to both regional conflicts and to crime. This book attempts to understand the inter-related dynamics of supply and demand which are weaponizing the world. Now over ten years after Peter Squires's *Gun Culture or Gun*

Control?, the issues pertaining to gun violence and gun control have developed dramatically. With *Gun Crime in Global Contexts*, Peter Squires offers a cutting-edge account of contemporary developments in the politics of gun crime and the social and theoretical issues that surround the problem. This book contains: an innovative political analysis of neo-liberal globalization and weapon proliferation; an overview of recent gun control debates and gang strategies in the UK; an updated analysis of US gun politics: self-defence, race and the 'culture war'; a critical analysis of US school and rampage shootings, how they have impacted the gun debate and how different societies have responded to mass shootings; an examination of the UN's development of an Arms Trade Treaty (2001--13); a discussion of weapon trafficking; discussions about youth gangs around the world, including those in Brazil, Kenya, West Africa, Mexico and South Africa. cape and pistol society uk: *Gun Barons* John Bainbridge, Jr., 2022-05-24 John Bainbridge, Jr.'s *Gun Barons* is a narrative history of six charismatic and idiosyncratic men who changed the course of American history through the invention and refinement of repeating weapons. Love them or hate them, guns are woven deeply into the American soul. Names like Colt, Smith & Wesson, Winchester, and Remington are legendary. Yet few people are aware of the roles these men played at a crucial time in United States history, from westward expansion in the 1840s, through the Civil War, and into the dawn of the Gilded Age. Through personal drive and fueled by bloodshed, they helped propel the young country into the forefront of the world's industrial powers. Their creations helped save a nation divided, while planting seeds that would divide the country again a century later. Their inventions embodied an intoxicating thread of American individualism—part fiction, part reality—that remains the foundation of modern gun culture. They promoted guns not only for the soldier, but for the Everyman, and also made themselves wealthy beyond their most fevered dreams. *Gun Barons* captures how their bold inventiveness dwelled in the psyche of an entire people, not just in the minds of men who made firearm fortunes. Whether we revere these larger-than-life men or vilify them, they helped forge the American character.

The book approaches international perceptions of President Obama through specific case study examinations of his most significant state visits, offering original insights into Obama's reception in Europe, the Middle East, East Asia, the Caribbean, and Africa. Chapters on Europe explore the complex relationship that Obama shared with both British Prime Minister David Cameron, and Northern Ireland's fragile executive. The papal visit is also examined as well as Obama's image in Russia, which explores the varied ways in which state-controlled media attempted to portray Obama as an enemy of Russia. Chapters on the Middle East address the various shifts that occurred in America's relationship with Iran under Obama, Israeli hostilities towards Obama, and Turkey's more assertive foreign policy. Other contributions include analysis of Obama's visits to Ghana and Kenya, providing important insights into US-Africa relations under his administration and Obama's historic visit to the Hiroshima Peace Memorial in Japan. Together, these essays provide a detailed and comprehensive assessment of Obama's state visits, with much needed insight into how the perceptions of Obama, formed by these visits, affected the US' diplomatic and foreign policy initiatives under his administration.

cape and pistol society uk: Gun Violence, Disability and Recovery Cate Buchanan, Editor, 2014-01-24 Gun violence—intentional, self-directed or accidental—is a profoundly traumatic experience. From physical injuries to unseen psychological scars and permanent impairments, it irrevocably changes people's lives. Gun violence does not just the individual shot or threatened. Secondary victimisation also includes relatives, friends, colleagues, caregivers, and, perhaps controversially, perpetrators themselves. Gun Violence, Disability and Recovery provides the first overview of the rights and needs of survivors of gun violence. The collection contains contributions from gun violence survivors, trauma surgeons, disability rights activists, rehabilitation specialists, violence prevention and reduction experts, development practitioners, and gender justice advocates. From countries with low resource levels to those already equipped with state-of-the-art rehabilitation centres, this innovative publication provides policymakers, practitioners, government officials, and donors with timely analysis on what could be done differently to meet the needs and rights of survivors of gun violence. "This volume speaks to me both as a government official and as a survivor of gun violence. I know first-hand how painful the aftermath of such a life-changing event can be. But I also know it is possible to recover and make a positive difference in society. I hope this book will inspire other survivors to follow this path." Lenín Moreno Garcés, Vice President, Ecuador "Little attention has been paid to the fact that for every person killed by gun violence, as many as six victims will survive, often with severe disabilities. The long-term physical and psychological damage, social and economic impacts, can no longer be overlooked. Bringing together voices of survivors, as well as health, medical, rehabilitation and legal concerns, this book represents a significant step forward, outlining key issues for policy, practice and intervention. It is a must read for anyone concerned about human rights and violence—and that should mean all of us." Nora Ellen Groce, Director, Leonard Cheshire Disability & Inclusive Development Centre, University College London, UK "Every year, hundreds of thousands of victims of gun violence, together with their families, experience the real costs of the availability and misuse of arms in our communities. For these victims to attain their basic human rights, so often denied them, we need a better understanding of their predicament, challenges and needs. Gun Violence, Disability and Recovery, with its comprehensive overview and analysis, will critically inform our efforts to develop and implement better policies and practices to enhance the realisation of the rights of survivors of armed violence, including implementation of the Arms Trade Treaty." Espen Barth Eide, former Minister of Foreign Affairs, Norway "The reality of survivors of gun violence—my reality—is so often lost in narrow

political and economic interests. This volume gives me hope that attention to life after gun violence will begin to receive long overdue attention, and contribute to the long haul effort of improving services for survivors as well as working towards accountability about the arms trade.” Shelley Barry, filmmaker, South Africa “International development goals, including the Millennium Development Goals, will not be achieved if the rights of people with disabilities are not met. Through a broad range of case studies and examples from low and middle income countries, this book shows us how States could do better. Let us hope that its message is heard. As a

cape and pistol society uk: Something of Themselves Sarah LeFanu, 2020-03-01 In early 1900, the paths of three British writers--Rudyard Kipling, Mary Kingsley and Arthur Conan Doyle--crossed in South Africa, during what has become known as Britain's last imperial war. Each of the three had pressing personal reasons to leave England behind, but they were also motivated by notions of duty, service, patriotism and, in Kipling's case, jingoism. Sarah LeFanu compellingly opens an unexplored chapter of these writers' lives, at a turning point for Britain and its imperial ambitions. Was the South African War, as Kipling claimed, a dress rehearsal for the Armageddon of World War One? Or did it instead foreshadow the anti-colonial guerrilla wars of the later twentieth century? Weaving a rich and varied narrative, LeFanu charts the writers' paths in the theatre of war, and explores how this crucial period shaped their cultural legacies, their shifting reputations, and their influence on colonial policy.

cape and pistol society uk: Traumatic Storytelling and Memory in Post-Apartheid South Africa Christopher J. Colvin, 2018-12-14 This book explores the practice of traumatic storytelling that emerged out of the South African Truth and Reconciliation Commission and came to play a key role in the lives of the members of the Khulumani Support Group for victims of apartheid-era political violence. Group members found traumatic storytelling both frustrating and yet also an important form of memory work that shaped how they saw themselves in the post-apartheid era. Drawing on ethnographic fieldwork, the author examines how traumatic storytelling functioned not only as a kind of psychological healing and national political theatre, but also as a potent form of social relation, economic exchange, political activism, and expressive practice. With emphasis on the personal, social, and political significance of the act of traumatic storytelling, this volume asks why members of Khulumani, despite their many disappointments, continued to engage intensively in storying their experiences for themselves and others. Examining what powers storytelling held for both group members and their witnesses, and considering the ways in which storytelling enabled new senses of self and new understandings of what was possible in the years after the end of apartheid, this book considers what we might learn more broadly from the experiences of Khulumani about the possibilities—and limits—of traumatic-memory-making as an instrument of personal, social, and political repair. As such, it will appeal to scholars of sociology, anthropology, and criminology with interest in justice and post-conflict societies.

cape and pistol society uk: Law and Justice around the World Mikaila Mariel Lemonik Arthur, 2020-02-25 Law and Justice around the World is designed to introduce students to comparative law and justice, including cross-national variations in legal and justice systems as well as global and international justice. The book draws students into critical discussions of justice around the world today by: taking a broad perspective on law and justice rather than limiting its focus to criminal justice systems examining topics of global concern, including governance, elections, environmental regulations, migration and refugee status, family law, and others focusing on a diverse set of global examples, from Europe, North America, East Asia, and especially the global south, and comparing the United States law and justice system to these other nations continuing to cover core topics such as crime, law enforcement, criminal courts, and punishment including chapter goals to define learning outcomes sharing case studies to help students apply concepts to real life issues Instructor resources include discussion questions; suggested readings, films, and web resources; a test bank; and chapter-by-chapter PowerPoint slides with full-color maps and graphics. By widening the comparative lens to include nations that are often completely ignored in research and teaching, the book paints a more realistic portrait of the different ways in which countries define and pursue

justice in a globalized, interconnected world.

cape and pistol society uk: Controlling Small Arms Peter Batchelor, Kai Michael Kenkel, 2013-11-20 This edited volume takes stock of the state of research and policy on the issue of Small Arms and Light Weapons (SALW), ten years after the UN first agreed to deal with the problem. The end of the Cold War originated a series of phenomena that would subsequently come to dominate the political agenda. Perhaps most symptomatic of the ensuing environment is the marked escalation in the scale and dynamics of armed violence, driven by the proliferation of SALW. Events in Rwanda, Somalia and Bosnia seared into global consciousness the devastating effects of this phenomenon, and of the necessity to engage actively in its limitation and prevention. This edited volume explores and outlines the research and policy on the SALW issue at this critical juncture. In addition to providing a detailed telling of the genesis and evolution of SALW research and advocacy, the volume features a series of essays from leading scholars in the field on both advances in research and action on SALW. It reflects on what has been achieved in terms of cumulative advances in data, methodology and analysis, and looks at the ways in which these developments have helped to inform policy making at national, regional and international levels. Alongside situating and integrating past and present advances in advocacy and international action, Controlling Small Arms also outlines future directions for research and action. This book will be of much interest to students of small arms, peace and conflict studies, peacebuilding, security studies and IR.
