clarissa ward journalist: *Isis Containment & Defeat* Arnold Schuchter, 2015-12-03 In the aftermath of terrorist attacks by ISIS (ISIL or Daesh) in Paris, Beirut and on the Russian jet over the Sinai Peninsula, the US and much of the world is focused on crushing the Islamic State. Countless refugees and displaced persons fleeing to Europe, Turkey, Lebanon and Jordan have thrust the long and bloody civil war in Syria and decades of warfare and insurgencies in Afghanistan, Iraq, Yemen and Libya into the 2016 presidential political campaign. ISIS terrorism is fueling political opposition in the US to welcoming Syrian refugees and also focusing more attention on terrorists infiltrating Central America with fake passports and illegally crossing the US border with Mexico. Strategies for uprooting, containing and defeating ISIS have to take into account an incredibly complex historical and geopolitical context in the Middle East and Persian Gulf region that has spawned insurgencies, terrorism, widespread disorder, corruption and the meltdown of governance in Syria, Iraq, Libya and Yemen. None of these crises in the Middle East and Africa have had any political, military or counterinsurgency solutions that have worked to contain ISIS and other jihadist terrorism. Further destabilization looms in Syria as the result of Russia's military intervention to support Assad's brutal regime and supposedly to fight ISIS. Both Russia and Iran have supported Assad for many years. Iran's strong financial and other support for Assad is likely to increase when sanctions are lifted as a result of its international nuclear deal. An anti ISIS strategy has to deal with the different agendas of US allies: Turkey's enemy is the Kurds; the Kurds are determined to protect and expand their territories in Iraq and Syria; Saudi and the Gulf States are most concerned about Iran and its proxies; Iran aims to protect and support Shiites in Syria and Iraq; many insurgents in Syria are militant Islamists; and the Afghan government is struggling with reform and Taliban attacks. Next generation COIN (NexGen COIN) strategies central to ISIS containment and defeat, and protecting the US homeland from terrorist attacks, include: recommendations for regional stabilization and reconciliation processes in the Middle East; and creation of protected safehavens under no-fly zones for two purposes: for displaced people in Syria, Iraq, Afghanistan, and Yemen that otherwise would become refugees; and to provide safe zones for training and support of local insurgents battling ISIS and other jihadists. NexGen COIN strategies build on: lessons learned from decades of warfare and anti-jihadist counterinsurgencies in the Middle East; years of dedicated work by US military and other experts to revamp US Army COIN doctrine and military rules of operations; US expertise in advanced information technology, machine learning, artificial intelligence and communication technology; special operations experience and capabilities that can provide US frontline advisors/cyberwarriors with unprecedented bottomup decision-making and intelligence gathering and analysis capabilities.

clarissa ward journalist: *Days of the Fall* Jonathan Spyer, 2017-12-12 *Days of the Fall* takes the reader into the heart of the terrible wars in Syria and Iraq. The book combines frontline reporting with analysis of the deeper causes and effects of the conflict. Over five years, Jonathan

Spyer reported from the depths of the wars, spending time in Aleppo, Baghdad, Damascus, Mosul, Idlib, Hasaka and other frontline areas. He witnessed some of the most dramatic events of the conflict – the rescue of the trapped Yezidis from the attempted ISIS genocide in 2014, the Assad regime's assault on Aleppo, the rise of independent Kurdish power in north east Syria, the emergence of the Shia militias in Iraq as a key force. The book depicts these events, and seeks to place them within a broader framework. The author notes the ethnic and sectarian faultlines in both Syria and Iraq, and contends that both countries have now effectively separated along these lines, leading to the emergence of de facto fragmentation and the birth of a number of new entities. The book also notes that this confused space has now become an arena for proxy conflict between regional and global powers. Containing interviews with key figures from all sides of the conflict, such as the Shia militias in Iraq, and even ISIS members, *Days of the Fall* serves as an invaluable and comprehensive guide to the complex dynamics and the tragic human impact of the wars.

clarissa ward journalist: Reporting War and Conflict Janet Harris, Kevin Williams, 2018-10-03 *Reporting War and Conflict* brings together history, theory and practice to explore the issues and obstacles involved in the reporting of contemporary war and conflict. The book examines the radical changes taking place in the working practices and day-to-day routines of war journalists, arguing that managing risk has become central to modern war correspondence. How individual reporters and news organisations organise their coverage of war and conflict is increasingly shaped

by a variety of personal, professional and institutional risks. The book provides an historical and theoretical context to risk culture and the work of war correspondents, paying particular attention to the changing nature of technology, organisational structures and the role of witnessing. The conflicts in Iraq, Afghanistan and Syria are examined to highlight how risk and the calculations of risk vary according to the type of conflict. The focus is on the relationship between propaganda, censorship, the sourcing of information and the challenges of reporting war in the digital world. The authors then move on to discuss the arguments around risk in relation to gender and war reporting and the coverage of death on the battlefield. Reporting War and Conflict is a guide to the contemporary changes in warfare and the media environment that have influenced war reporting. It offers students and researchers in journalism and media studies an invaluable overview of the life of a modern war correspondent.

clarissa ward journalist: *The Psychology of Political Extremism* Gabrielle Rifkind, 2020-11-25 Recent terrorist attacks have left the UK (and Europe) genuinely at sea as to how to respond to these distressing events. There are the predictable interpretations with politicians on the right talking about counter-terrorism, harsher punishments and tightening up on the internet, whilst on the political left there is talk about blaming foreign wars. All this analysis is relevant, but insufficient. Politicians are not talking enough about why so many young people are sufficiently angry and alienated that they are prepared to be seduced by the toxic and poisonous ideology of Islamic State. The Psychology of Political Extremism examines both the politics and the psychology, as well as what motivates people to behave in ways that are so disturbing. Freud is the hook as the founding father of the talking cure. A radical and subversive theorist in his time, he claimed that mankind was influenced more by the inner workings of the mind and internal conflicts than by rational thought.

clarissa ward journalist: *The Fall of Kabul* Nayanima Basu, 2024-03-21 Journalist Nayanima Basu had a ringside view of the total collapse of the republic of Afghanistan at the hands of the Taliban. From 8 to 17 August 2021, based in Kabul but travelling outside and talking to Afghans across the political spectrum, she sent despatches of the Taliban sweeping through the country, with provinces falling one after another. Covering a hostile war zone, a woman all alone, she saw the fall of Kabul in real time and managed to get out on the last flight by negotiating with Taliban bosses. Basu transports us to the heart of the action with her vivid narration and precise descriptions of what was happening in Afghanistan at large and Kabul in particular. Through her astonishing account of how she did her reporting – from asking gun-toting civilians for help to find her way back to her hotel and being chided by the hotel employees to stay safe in an iron room to being the only Indian journalist to ever interview the 'Butcher of Kabul' – Basu tells the story of not just the wreckage of the country's present but also of the contentious past that led to it.

clarissa ward journalist: *A Return to Self* Aatish Taseer, 2025-07-15 A blend of travelog and memoir spanning from Turkey to Mexico, exploring Aatish Taseer's uniquely blended identity and asking: Why do certain cities become epicenters of great historical shifts and sites of unpredictable communities? In 2019, the government of Prime Minister Narendra Modi revoked Aatish Taseer's Indian citizenship, thereby exiling him from the country where he grew up and lived for thirty years. This loss, both practical and spiritual, sent him on a journey of revisiting the places that formed his identity, and asking broader questions about the complex forces that make a culture and a nationality, in the process. In Istanbul, he confronts the hopes and ambitions of his former self. In Uzbekistan, he sees how what was once the majestic portal of the Silk Road is now a tourist façade. In India, he explores why Buddhism, which originated there, is so little practiced. Everywhere he goes, the ancient world mixes intimately with the contemporary: with the influences of the pandemic, the rise of new food cultures, and the ongoing cultural battles of regions around the world. How do centuries of cultures evolving and overlapping, often violently, shape the people that subsequently emerge from them? In thoughtful prose that combines reportage with romanticism, Taseer casts an incisive eye at what it means to belong to a place that becomes an unstable, politicized vessel for ideas defined by exclusion and prejudice, and gets to the human heart of the shifts and migrations that define our multicultural world.

clarissa ward journalist: *A Matter of Facts* Laura A. Millar, 2021-03-04 The safeguarding of authentic facts is essential, especially in this disruptive Orwellian age, where digital technologies have opened the door to a post-truth world in which alternative facts can be so easily accepted as valid. And because facts matter, evidence matters. In this urgent manifesto, archives luminary Millar makes the case that authentic and accurate records, archives, data, and other sources of documentary proof are crucial in supporting and fostering a society that is respectful, democratic, and self-aware. An eye-opening treatise for the general public, an invaluable resource for archives students, and a provocative call-to-arms for information and records professionals, Millar's book explains the concept of evidence and discusses the ways in which records, archives, and data are not just useful tools for our daily existence but also essential sources of evidence both today and in the future; includes plentiful examples that illustrate the critical role evidence plays in upholding rights, enforcing responsibilities, tracing family or community stories, and capturing and sharing memories; and examines the impact of digital technologies on how records and information are created and used. With documentary examples ranging from Mesopotamian clay tablets to World War II

photographs to today's Twitter messages and Facebook posts, Millar's stirring book will encourage readers to understand more fully the importance of their own records and archives, for themselves and for future generations.

clarissa ward journalist: But You Don't Look Arab Hala Gorani, 2024-02-20 Emmy Award-winning international journalist Hala Gorani weaves stories from her time as a globe-trotting correspondent and anchor with her own lifelong search for identity as the daughter of Syrian immigrants. What is it like to have no clear identity in a world full of labels? How can people find a sense of belonging when they have never felt part of a "tribe?" And how does a blonde-haired, blue-eyed woman who's never lived in the Middle East honor her Arab Muslim ancestry and displaced family—a family forced to scatter when their home country was torn apart by war? Hala Gorani's path to self-discovery started the moment she could understand that she was "other" wherever she found herself to be. Born of Syrian parents in America and raised mainly in France, she didn't feel at home in Aleppo, Seattle, Paris, or London. She is a citizen of everywhere and nowhere. And like many journalists who've covered wars and conflicts, she felt most at home on the ground reporting and in front of the camera. As a journalist, Gorani has traveled to some of the most dangerous places in the world, covering the Arab Spring in Cairo and the Syrian civil war, reporting on suicide bombers in Beirut and the chemical attacks in Damascus, watching the growth of ISIS and the war in Iraq—sometimes escaping with her life by a hair. But through it all, she came to understand that finding herself meant not only looking inward, but tracing a long family history of uprooted ancestors. From the courts of Ottoman Empire sultans through the stories of the citizens from her home country and other places torn apart by unrest, *But You Don't Look Arab* combines Gorani's family history with rigorous reporting, explaining—and most importantly, humanizing—the constant upheavals in the Middle East over the last century.

clarissa ward journalist: Quiet Street Nick McDonell, 2023-08-22 A bold and deeply personal exploration of wealth, power, and the American elite, exposing how the ruling class—intentionally or not—perpetuates cycles of injustice [A] story about American inequity, and how it mindlessly, immorally, reproduces itself. Unlike most such stories, however, this one left me believing in the possibility...of drastic change. —Maggie Nelson, author of *On Freedom* Nick McDonell grew up on New York City's Upper East Side, a neighborhood defined by its wealth and influence. As a child, McDonell enjoyed everything that rarefied world entailed—sailing lessons in the Hamptons, school galas at the Met, and holiday trips on private jets. But as an adult, he left it behind to become a

foreign correspondent in Iraq and Afghanistan. In *Quiet Street*, McDonnell returns to the sidewalks of his youth, exhuming with bracing honesty his upbringing and those of his affluent peers. From Galápagos Island cruises and Tanzanian safaris to steely handshakes and schoolyard microaggressions to fox-hunting rituals and the courtship rites of sexually precocious tweens, McDonnell examines the rearing of the ruling class in scalpel-sharp detail, documenting how wealth and power are hoarded, encoded, and passed down from one generation to the next. What's more, he demonstrates how outsiders—the poor, the nonwhite, the suburban—are kept out. Searing and precise yet ultimately full of compassion, *Quiet Street* examines the problem of America's one percent, whose vision of a more just world never materializes. Who are these people? How do they cling to power? What would it take for them to share it? *Quiet Street* looks for answers in a universal experience: coming to terms with the culture that made you.
