Understanding CHAMPS Classroom Management

CHAMPS is an acronym representing a structured approach to classroom management that emphasizes positive behavior and clear expectations. The model focuses on four key components: Conversation, Help, Activity, Movement, Participation, and Success. Each component guides students on what is expected of them during various classroom activities. By clarifying acceptable behaviors, CHAMPS helps reduce uncertainty and promotes a respectful learning environment.

Components of the CHAMPS Model

The CHAMPS framework breaks down as follows:

- **Conversation:** Defines when and how students may talk during an activity.
- **Help:** Specifies how students can seek assistance if needed.
- **Activity:** Describes the task or assignment students are expected to complete.
- **Movement:** Outlines whether students can move around the classroom and under what conditions.
- **Participation:** Details the level of engagement or behavior expected during the activity.

- **Success:** Provides criteria for successful completion of expected behaviors and tasks.

Using this model, teachers create a transparent and consistent environment where students understand not only what to do but how to do it appropriately.
