dead poets society script: Suicide of the West Jonah Goldberg, 2020-01-14 NEW YORK TIMES BESTSELLER • An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity. Now updated with a new preface! "Epic and debate-shifting."—David Brooks, New York Times Only once in the last 250,000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty, hunger, and war that defines most of history. If democracy, individualism, and the free market were humankind's destiny, they should have appeared and taken hold a bit earlier in the evolutionary record. The emergence of freedom and prosperity was nothing short of a miracle. As Americans we are doubly blessed, because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts, laying the groundwork for our uniquely prosperous society. Those ideas are: • Our rights come from God, not from the government. • The government belongs to us; we do not belong to it. • The individual is sovereign. We are all captains of our own souls, not bound by the circumstances of our birth. • The fruits of our labors belong to us. In the last few decades, these political virtues have been turned into vices. As we are increasingly taught to view our traditions as a system of oppression, exploitation, and privilege, the principles of liberty and the rule of law are under attack from left and right. For the West to survive, we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past—or back to the muck we will go.

dead poets society script: Robin Dave Itzkoff, 2018-05-15 A NEW YORK TIMES BESTSELLER A NEW YORK TIMES BOOK REVIEW EDITOR'S CHOICE A SAN FRANCISCO CHRONICLE BEST BOOK OF THE YEAR A VULTURE BEST BOOK OF THE YEAR A generous, appreciative biography of Robin Williams by a New York Times culture reporter. The author, who had access to Williams and members of the comedian's family, is an unabashed fan but doesn't shy away from the abundant messiness in his subject's personal life.—The New York Times Book Review From New York Times culture reporter Dave Itzkoff, the definitive biography of Robin Williams - a compelling portrait of

one of America's most beloved and misunderstood entertainers. From his rapid-fire stand-up comedy riffs to his breakout role in *Mork & Mindy* and his Academy Award-winning performance in *Good Will Hunting*, Robin Williams was a singularly innovative and beloved entertainer. He often came across as a man possessed, holding forth on culture and politics while mixing in personal revelations – all with mercurial, tongue-twisting intensity as he inhabited and shed one character after another with lightning speed. But as Dave Itzkoff shows in this revelatory biography, Williams's comic brilliance masked a deep well of conflicting emotions and self-doubt, which he drew upon in his comedy and in celebrated films like *Dead Poets Society*; *Good Morning, Vietnam*; *The Fisher King*; *Aladdin*; and *Mrs. Doubtfire*, where he showcased his limitless gift for improvisation to bring to life a wide range of characters. And in *Good Will Hunting* he gave an intense and controlled performance that revealed the true range of his talent. Itzkoff also shows how Williams struggled mightily with addiction and depression – topics he discussed openly while performing and during interviews – and with a debilitating condition at the end of his life that affected him in ways his fans never knew. Drawing on more than a hundred original interviews with family, friends, and colleagues, as well as extensive archival research, Robin is a fresh and original look at a man whose work touched so many lives.

This biography follows his development from a creative child and teenager who spent years away from his family at an elite English public school, through his early successes—which often turned into frustrating heartbreak in both television (*Roseanne*) and film (*Buffy the Vampire Slayer*)—to his breakout turn as the creator, writer, and director of the *Buffy* television series. Extensive, original interviews with Whedon's family, friends, collaborators, and stars—and with the man himself—offer candid, behind-the-scenes accounts of the making of groundbreaking series such as *Buffy*, *Angel*, *Firefly*, and *Dollhouse*, as well as new stories about his work with Pixar writers and animators during the creation of *Toy Story*. The films provide evidence that many of the apostle Paul's themes in his New Testament letters are relevant for today. Contemporary movies, according to Robert Jewett, influence many Americans more than their formal education or religious training. And, since Paul interpreted the gospel on other people's turf, Jewett believes that today his forum would involve the movies, a primary source of discovering and debating important moral, cultural, and religious issues. Jewett treats film and biblical passages with equal respect. He brings their ideas and metaphors into relationship so that new insights emerge about both the ancient texts and the American cultural situation.

dead poets society script: *Dancing in the Dark, Revised Edition* Graham Buxton, 2016-11-08 Christians are often tempted to encapsulate God in their own little boxes, as if God could be tied down to our finite way of thinking. But we can neither domesticate nor fully understand God, for theology has a lot to do with coming to terms with the mystery of God. This revised edition of *Dancing in the Dark*--shaped, as in the first edition, by the two overarching themes of God as Trinity and a theology of participation--embraces the notion of mystery in presenting a compelling vision of seeing all things finally united within the inner life of God. As we engage in Christian ministry, we are summoned to participate as grace-filled faith communities in the triune God's immeasurably loving and healing work in the world, leading those who are in darkness into an awareness of the God who imparts life in all its glorious abundance, that which is so . . . and a journey into the mystery of that which is to come. The liberating ministry of the gospel is both a declaration and an invitation--an invitation to the dance!

The chapters in this 3-volume work are written by over 50 authors who specialize in fields as diverse as history, theology, music, psychology, journalism, film and television studies, advertising, and public relations. Volume 1 examines film, radio and television, and the Internet; Volume 2 covers literature, music, popular art, and merchandise; and Volume 3 discusses public figures, popular press, places, and events. The work is intended for a scholarly audience but presents material in a student-friendly, accessible manner. Evangelical insiders will receive a fresh look at the wide variety of evangelical popular culture offerings, many of which will be unknown, while non-evangelical readers will benefit from a comprehensive introduction to the subject matter.

dead poets society script: Child's Play Laurence R. Goldman, 2020-05-28 This innovative book finally takes seriously the need for anthropologists to produce in-depth ethnographies of children's play. In examining the subject from a cross-cultural perspective, the author argues that our understanding of the way children transform their environment to create make-believe is enhanced by viewing their creations as oral poetry. The result is a richly detailed 'thick description' of how pretence is socially mediated and linguistically constructed, how children make sense of their own play, how play relates to other imaginative genres in Huli life, and the relationship between play and cosmology. Informed by theoretical approaches in the anthropology of play, developmental and child psychology, philosophy and phenomenology and drawing on ethnographic data from Melanesia, the book analyzes the sources for imitation, the kinds of identities and roles emulated, and the structure of collaborative make-believe talk to reveal the complex way in which children invoke their experiences of the world and re-invent them as types of virtual reality. Particular importance is placed on how the figures of the ogre and trickster are articulated. The author demonstrates that while the concept of 'imagination' has been the cornerstone of Western intellectual traditions from Plato to Postmodernism, models of child fantasy play have always intruded into such theorizing because of children's unique capacity to throw into relief our understanding of the relationship between representation and reality.

dead poets society script: Relentlessly Relevant Douglas Kruger, 2015-05-04 Brace yourself ... the rules of consumer engagement have changed. Your customers no longer care about legacy - what matters to them is how you are innovating into their world today. The classic 'solve a problem' approach that industry giants have always employed is no longer relevant. Consumers want switched-on, creative responses to their needs and desires. In *Relentlessly Relevant*, business guru Douglas Kruger explores the field of innovation, reducing its subject matter to the simple starting points you need to become an industry trendsetter. It pinpoints the levers within your own business crying out for innovation, as well as the areas you should leave alone at all costs, and it teaches you to change your traditional way of thinking, altering how you relate to your customers' immediate reality. Using examples from local and international brands, this book shows you don't have to be a tech giant to innovate, but you do need to know how to think in the right patterns. This is a business imperative. Innovators of today will own their industries tomorrow by constantly asking, 'How can we become relentlessly relevant?'

dead poets society script: Academic Lives Cynthia G. Franklin, 2012-03 Since the early 1990s, there has been a proliferation of memoirs by tenured humanities professors. Although the memoir form has been discussed within the flourishing field of life writing, academic memoirs have received little critical scrutiny. Based on close readings of memoirs by such academics as Michael Bérubé, Cathy N. Davidson, Jane Gallop, bell hooks, Edward Said, Eve Sedgwick, Jane Tompkins, and Marianna Torgovnick, *Academic Lives* considers why so many professors write memoirs and what cultural capital they carry. Cynthia G. Franklin finds that academic memoirs provide unparalleled ways to unmask the workings of the academy at a time when it is dealing with a range of crises, including attacks on intellectual freedom, discontentment with the academic star system, and budget cuts. Franklin considers how academic memoirs have engaged with a core of defining

concerns in the humanities: identity politics and the development of whiteness studies in the 1990s; the impact of postcolonial studies; feminism and concurrent anxieties about pedagogy; and disability studies and the struggle to bring together discourses on the humanities and human rights. The turn back toward humanism that Franklin finds in some academic memoirs is surreptitious or frankly nostalgic; others, however, posit a wide-ranging humanism that seeks to create space for advocacy in the academic and other institutions in which we are all unequally located. These memoirs are harbingers for the critical turn to explore interrelations among humanism, the humanities, and human rights struggles.
