david oyedepo believing in faith: The Worldview of the Word of Faith Movement: Eden Redeemed Mikael Stenhammar, 2021-12-16 This volume approaches the Word of Faith as a worldview, and analyses the movement through N. T. Wright's model for worldview-analysis in order to provide necessary nuance and complexity to scholarly interpretations of the Word of Faith. The reader receives insights into the movement's narrative, semiotic, practical and propositional dimensions, which cumulatively offer a multifaceted understanding of how the Word of Faith interprets reality and engages with the world. The analysis shows that there is a narrative core to Word of Faith beliefs in the form of a unique theological story with focus set on the present restoration of Eden's authority and blessings. This study demonstrates how the Word of Faith operates as a distinct worldview that parses the world through the lens of faith's causative power to affect a direct correspondence between present reality and Eden's perfection. The findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts Pentecostalism.

david oyedepo believing in faith: John Chrysostom and African Charismatic Theology in Conversation Samantha L. Miller, 2021-03-18 This book puts John Chrysostom in conversation with deliverance ministries and the prosperity gospel in modern African charismatic Christianity. Samantha Miller argues that Chrysostom had a cosmology not unlike that present in the charismatic Christianity of the global south, where the world is populated by spirits able to affect the material world. Additionally, Chrysostom had plenty to say about suffering, demons, and prosperity. Through this conversation, issues of personal moral responsibility and salvation rise to the surface, and it is through these issues that modern Western and African Christians—theologians, pastors, missionaries, and laity—can perhaps have a conversation that gets past the question of a spirit-inhabited world and talk together about the saving work of Christ for the benefit of all the church.

david oyedepo believing in faith: You Have Done This Thing Sunday L. Fwa, 2016-07-27 This study considers what is arguably the most harrowing and heartrending account in the Bible: God's call to Abraham to sacrifice his only son out of obedience to the will of God. Drawing upon the

depth of insights in this passage, author Sunday Leonard Fwa traces how God granted His greatest commendation to Abraham, a man who performed the supreme act of obedience. Fwa then explores the path toward experiencing Gods commendations and the blessings that come when one sacrifices, gives to others, lives by faith, practices obedience, engages in acts of service, forgives others, and remains immersed in prayer and Gods Word. Each of the nine chapters in this study addresses an element of the life of faith. The discussions remain deeply rooted in the Scriptures both Old and New Testaments while touching the challenges and concerns that face Christians living amid the worlds distractions and temptations. Examples from the ministries of House on the Rock Church, rooted in Nigeria, provide illustrations applying these insights to daily life and ministry. If you have a deep sense that God has a purpose for your life, that He wants to give meaning to your days, and that His calling may lead you to follow Jesus Christ, you can find the powerful and energizing guidance you need to live in obedience to the will of God and thereby receive His abundant blessings.

david oyedepo believing in faith: How Many Ways To Heaven Collins Oduro, 2017-04-05 I know many people do not even read scriptural references in most books. I encourage you to read and ponder over all the references including those from the Quran. HOW MANY WAYS TO HEAVEN? Is it 1, 2, 3 or even more ways? This is a matter of life and death. Is God a source of confusion and deception? Will God contradict Himself by changing His words through different Messengers? Jesus clearly said that, 'I am the Way. The Truth and the Life.' Jesus never said He was one of the ways. Question is, are there enough scientific, investigative, prophetic or spiritual evidences to prove the deity or uniqueness of Jesus? What did Mohammed or Quran (Islam) say? How about Gandhi and Buddha? This book further throws light on certain issues in Christianity such as sin, premarital sex, and homosexuality? Is there a gay gene? What is true prosperity? I think that if only material blessings were the critical proof of true prosperity then I think a lot of unbelievers are more loved and more blessed by God. Does Christian dressing matter today? You will discover the hidden message of Laminin.

david oyedepo believing in faith: Nigerian Pentecostalism and Development Richard Burgess, 2020-04-06 This book examines the contributions, both intentional and unintentional, of Nigerian Pentecostal churches and NGOs to development, studying their development practices broadly in relation to the intersecting spheres of politics, economics, health, education, human rights, and peacebuilding. In sub-Saharan Africa, Pentecostalism is fast becoming the dominant expression of Christianity, but while the growth and civic engagement of these churches has been well documented, their role in development has received less attention. The Nigerian Pentecostal landscape is one of the most vibrant in Africa. Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society, often in fierce competition with Islam for dominance in Nigerian public space. Some scholars suggest that the combination of an enchanted worldview, an emphasis on miracles and prosperity teaching, and a preoccupation with evangelism discourages effective political engagement and militates against development. However, *Nigerian Pentecostalism and Development* argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices. This book goes on to explore the increasingly transnational approach that churches take, often seeking to build multicultural congregations around the globe, for instance in Britain and the United States. *Nigerian Pentecostalism and Development: Spirit, Power, and Transformation* will be of considerable interest to scholars and students concerned with the intersection between religion and development, and to development practitioners and policy-makers working in the region.

david oyedepo believing in faith: British Gods Steve Bruce, 2020-08-28 The big picture is well-known: over the last century, religion in Britain has lost power, popularity, and plausibility. Here, Steve Bruce charts the quantifiable changes in religious interest and observance over the last fifty years by returning to a number of towns and villages that were the subject of detailed community studies in the 1950s and 1960s, to see how the status and nature of religion has changed. Drawing on both detailed data on baptism rates, church weddings, church attendance and the like, and on his extensive fieldwork, he considers the broader picture of religion today: the status of the clergy, the churches' attempts to find new roles, links between religion and violence, and the impact of the charismatic movement. Along the way, Bruce encounters and engages with the contemporary rise of secularism, considering our everyday secular tensions with religion: arguments over moral issues such as abortion and gay rights, the effect of social class on belief, the impact of religion on British politics, and the ways that local social structures strengthen or weaken religion. Analysing the obstacles to any religious revival, he explores how the current stock of religious knowledge is so depleted, religion so unpopular, and committed believers so scarce that any significant reversal of religion's decline in Britain is unlikely.
