

darwin awards list

darwin awards list represents a unique collection of stories that highlight extraordinary instances of human error leading to self-inflicted fatal outcomes. This compilation serves both as a cautionary archive and a darkly humorous commentary on human behavior, emphasizing the importance of common sense and safety awareness. The darwin awards list chronicles cases where individuals have removed themselves from the gene pool through ill-advised actions, often involving bizarre or ironic circumstances. Understanding these examples offers valuable insights into risk management, decision-making, and the consequences of reckless behavior. This article explores the origins, notable entries, categories, and cultural impact of the darwin awards list, providing a comprehensive overview of this intriguing phenomenon.

- Origin and Purpose of the Darwin Awards List
- Notable Entries in the Darwin Awards List
- Categories of Darwin Awards Incidents
- Cultural Impact and Media Representation
- Criticism and Ethical Considerations

Origin and Purpose of the Darwin Awards List

The darwin awards list originated in the mid-1990s as an informal collection of stories celebrating individuals whose actions unintentionally led to their demise or permanent incapacitation. Named after Charles Darwin, the founder of the theory of natural selection, the awards emphasize how poor judgment and lack of foresight contribute to the elimination of less cautious individuals from the gene pool. The primary purpose of the darwin awards list is to serve as a humorous yet educational reminder of the importance of critical thinking and safety.

These tales are gathered from verified news reports, eyewitness accounts, and documented incidents. The darwin awards list has evolved into an internationally recognized phenomenon, with submissions continually added to reflect ongoing cases of extreme human error. The awards are granted posthumously or to individuals who suffer irreversible consequences due to their own mistakes.

Notable Entries in the Darwin Awards List

The darwin awards list includes a wide range of bizarre and tragic stories that have garnered public attention for their absurdity and cautionary value. Some of the most infamous entries illustrate the extreme lengths to which human folly can extend.

The Rocket Car Incident

One of the most well-known darwin awards stories involves an individual who attempted to propel his car using a homemade rocket engine. The reckless experiment resulted in a fatal crash due to loss of control at high speeds. This entry exemplifies the dangers of tampering with vehicles without proper engineering knowledge or safety precautions.

The Exploding Safe Attempt

Another notable case featured a person trying to open a stuck safe by using explosives. Unfortunately, the explosion was miscalculated and caused fatal injuries. This incident highlights the risks associated with improper handling of hazardous materials and the importance of professional assistance in dangerous situations.

The Self-Inflicted Fireworks Accident

A classic darwin awards list entry is the individual who attempted to ignite fireworks indoors for a celebratory event, resulting in a deadly fire. This tragedy underscores the necessity of adhering to safety guidelines when dealing with pyrotechnics.

- Driving under extreme conditions without safety gear
- Attempting dangerous stunts without proper expertise
- Ignoring warning signs and safety instructions
- Using hazardous materials improperly

Categories of Darwin Awards Incidents

The darwin awards list encompasses various categories based on the nature of the incidents, reflecting common patterns of fatal mistakes. These categories help in understanding the types of behavior that frequently lead to fatal outcomes.

Mechanical Mishaps

This category involves incidents where individuals suffer fatal consequences due to improper use or modification of machinery and vehicles. Examples include unsafe vehicle modifications, faulty repairs, and dangerous stunts.

Explosive and Fire-Related Incidents

Explosives, fireworks, and fire-related accidents form a significant portion of the darwin awards list. These incidents often result from negligence, lack of knowledge, or deliberate risk-taking without appropriate safety measures.

Outdoor and Wilderness Errors

Many entries involve accidents occurring in outdoor settings such as hiking, hunting, or extreme sports. These cases often stem from underestimating natural hazards, poor preparation, or violation of safety protocols.

Unusual and Bizarre Circumstances

Some darwin awards list entries include highly unusual scenarios that defy conventional logic, such as fatal encounters with household objects or improbable chain reactions of events triggered by careless actions.

Cultural Impact and Media Representation

The darwin awards list has transcended its origins to become a cultural phenomenon, influencing literature, television, and internet culture. Its blend of humor and tragedy appeals to a broad audience, sparking discussions on human behavior and safety.

Media outlets have periodically featured darwin awards stories, often highlighting the absurdity of human error. Books compiling these incidents have been published, and television programs have dramatized selected cases, contributing to public awareness and entertainment.

Online communities and forums dedicated to sharing darwin awards list stories continue to thrive, fostering engagement and education about risk awareness. This cultural presence reinforces the darwin awards as a unique social commentary on the consequences of reckless behavior.

Criticism and Ethical Considerations

Despite its popularity, the darwin awards list has faced criticism regarding sensitivity and ethical implications. Some argue that mocking fatal accidents may be disrespectful to victims and their families. Others question the accuracy and verification processes of some entries.

Ethical concerns emphasize the importance of presenting darwin awards stories with respect and factual integrity. The awards aim to educate rather than sensationalize, promoting awareness about safety and responsible decision-making.

Efforts to maintain credibility include stringent criteria for inclusion in the darwin awards list, such as verified evidence and confirmation of the fatal outcome directly resulting from the individual's actions.

- Respect for victims and their families
- Verification of facts and sources
- Balancing humor with sensitivity
- Promoting educational value over sensationalism

Frequently Asked Questions

What is the Darwin Awards list?

The Darwin Awards list is a collection of humorous and cautionary stories that recognize individuals who have supposedly contributed to human evolution by removing themselves from the gene pool through extraordinarily foolish actions.

Where can I find the official Darwin Awards list?

The official Darwin Awards list can be found on the Darwin Awards website (darwinawards.com), which features verified stories and updates about recent and past Darwin Award winners.

Are the stories on the Darwin Awards list true?

Most stories on the Darwin Awards list are based on real events, but some may be exaggerated or urban legends. The official website tries to verify the facts before including a story.

What criteria are used to include someone on the Darwin Awards list?

To be included, a candidate must have died or rendered themselves unable to reproduce due to an extraordinarily foolish action, demonstrating a lack of common sense or judgment.

Why are the Darwin Awards controversial?

The Darwin Awards are controversial because they make light of fatal accidents and sometimes appear insensitive to the victims and their families, raising ethical concerns about humor based on tragedy.

How has the Darwin Awards list influenced popular culture?

The Darwin Awards list has influenced popular culture by inspiring books, TV shows, and internet memes that highlight human folly, encouraging people to think about safety and common sense in a humorous way.

Additional Resources

1. *The Darwin Awards: Evolution in Action*

This book is a collection of true stories where individuals have met their demise through extraordinarily foolish actions. It humorously honors those who have inadvertently removed themselves from the gene pool. Each story highlights the bizarre and often laughable circumstances behind these fatal mistakes.

2. *Darwin Awards 2: Unnatural Selection*

A sequel to the original, this volume dives deeper into the world of human folly with even more outrageous and unbelievable tales. It showcases how people's poor decisions lead to their downfall, often in ways that defy logic and common sense. The book serves as both entertainment and a cautionary reminder.

3. *The Darwin Awards III: Survival of the Fittest*

This third installment continues to chronicle stories of individuals who outsmart themselves with reckless behavior. It combines humor with a light scientific perspective on natural selection. Readers will find a mix of bizarre accidents and absurd choices that ended poorly.

4. *Darwin Awards IV: Dead Men Tell No Tales*

In this edition, the stories become even more jaw-dropping and unbelievable, proving that reality can be stranger than fiction. The book collects incidents where people's dangerous antics result in their ultimate demise, reinforcing the idea of "survival of the smartest."

5. *The Darwin Awards: The Evolution Chronicles*

This anthology compiles the best and most memorable stories from the Darwin Awards series. It provides insightful commentary on human nature, risk-taking, and the consequences of poor judgment. The book is perfect for readers interested in both humor and the quirks of human behavior.

6. *Darwin Awards: The Final Selection*

A comprehensive collection featuring some of the most infamous and hilarious Darwin Award winners in history. The book explores how misguided decisions can lead to fatal outcomes, often in ironic or absurd ways. It serves as a reminder of the importance of common sense.

7. *The Darwin Awards: Unbelievable But True*

This volume highlights some of the most incredible and unbelievable stories from the Darwin Awards archives. It focuses on the strange and often humorous ways people have managed to engineer their own demise. Readers will be both shocked and entertained by these real-life tales.

8. *Darwin Awards: Tales of Human Folly*

This book delves into the psychology behind why people sometimes make ridiculously poor choices. Featuring a mix of anecdotes and analysis, it sheds light on human error and reckless behavior. The stories are engaging, often funny, and always thought-provoking.

9. *The Darwin Awards Collection: Laughing at Disaster*

A curated set of stories that showcases the darkly comedic side of fatal accidents caused by human stupidity. This collection emphasizes the importance of learning from others' mistakes. It's an entertaining read that blends humor with sobering reality.

darwin awards list: *The Darwin Awards III* Wendy Northcutt, 2004-09-28 The hilarious New York Times bestselling phenomenon and the perfect funny gift! Honoring those who improve our gene pool by inadvertently removing themselves from it, *The Darwin Awards III* includes more than one hundred brand new, hilariously macabre mishaps and misadventures. From a sheriff who inadvertently shot himself twice, to the insurance defrauder who amputated his leg with a chainsaw; from a farmer who avoided bee stings by sealing his head in a plastic bag to the man crushed by the branch he just trimmed, *The Darwin Awards III* proves again that when it comes to stupidity, no species does it like we do. Featuring scientific and safety discussions and filled with illustrations depicting inspiring examples of evolution in action, *The Darwin Awards III* shows once more how uncommon common sense still is.

darwin awards list: *The Darwin Awards* Wendy Northcutt, 2002-04-30 The hilarious New York Times bestselling phenomenon and the perfect funny gift! *The Darwin Awards* shares the stories of those human beings who improve the gene pool by removing themselves from it in a sublimely idiotic fashion. Marvel at the thief who tries to steal live electrical wires. Gape at the lawnchair jockey who floats to a height of 16,000 feet suspended by helium balloons. And learn from the man who peers into a gasoline can using a cigarette lighter. All contend for Darwin Awards when their choices culminate in magnificent misadventures. These tales of trial and awe-inspiring error-verified by the author and endorsed by website readers-illustrate the ongoing saga of survival of the fittest in all its selective glory. *The Darwin Awards* vividly portrays the finest examples of evolution in action, and shows us just how uncommon common sense can be.

darwin awards list: *The Darwin Awards II* Wendy Northcutt, 2001-12-01 The hilarious New York Times bestselling phenomenon and the perfect funny gift! *The Darwin Awards II: Unnatural Selection* brings together a fresh collection of the hapless, the heedless, and the just plain foolhardy

among us. Salute the owner of an equipment training school who demonstrates the dangers of driving a forklift by failing to survive the filming of his own safety video. Gawk at the couple who go to sleep on a sloping roof. Witness the shepherd who leaves his rifle unsecured—only to be accidentally shot by one of his own flock. With over one hundred Darwin Award Winners, Honorable Mentions, and debunked Urban Legends, plus science and safety tips for avoiding the scythe of natural selection, The Darwin Awards II proves once again how uncommon common sense can be.

darwin awards list: The Darwin Awards Countdown to Extinction Wendy Northcutt, 2010-10-28 The hilarious New York Times bestselling phenomenon and the perfect funny gift! The Darwin Awards are more than just a brand. They're a pop culture phenomenon. With six books and a website that draws in more than a million unique visitors every month, the Darwin Awards rivals The Onion and The Simpsons as one of the biggest humor franchises in the world. Fully illustrated and featuring all-new tales of the marvelously macabre, The Darwin Awards Countdown to Extinction chronicles the astonishing acts of individuals who have taken a swan dive into the shallow end of the gene pool. From attaching a five-horsepower engine to a barstool, to hammering a metal hook into an explosive device, to using a taser to treat a snake bite, these gloriously gruesome incidents prove that the countdown (to human extinction) is well under way. And we won't exit this mortal coil without one last laugh.

darwin awards list: Rex Curry's DARWIN AWARDS - Joseph Stalin, Mao Zedong, Adolf Hitler, Pol Pot, Kim Il-sung & more Lin Xun, Dead Writers Club, Pointer Institute, Darwin Awards commemorate those who perish through some astonishing misapplications of judgment. Special recognition goes to the work of Joseph Stalin, V.I. Lenin, Leon Trotsky, Mao Zedong, Kim Il-sung, Pol Pot, Ho Chi Minh, Karl Marx, Fidel Castro, Che Guevara, Adolf Hitler, and their ilk. What were the historical origins of their notorious multi-year prize-winning death races? The old roots are diverse and even include the USA. From 1892 through 1942, the Nazi salute was performed by public officials in America. Where are the old photographs and films of the American Nazi salute performed by federal, state, county, and local officials? Those photos and films are rare because people don't want to know the truth about the globe's scary past. Public officials in the USA who preceded the German socialist (Hitler) and the Italian socialist (Mussolini) were sources for the stiff-armed salute (and robotic chanting) in those countries and other foreign countries. The ancient Roman salute myth originated from the city of Rome in the state of New York (not Italy), Francis Bellamy's hometown. Later, Mussolini presented a strange gift to the city of Rome, NY: a statue of two human male infants suckling on a female wolf. That statue remains on display in Rome, NY. Boy Scouts and Girl Scouts helped spread the Nazi salute and the swastika to Germany and elsewhere. The author is Supermodel and Superwriter Lin Xun and she joins the Dead Writers Club to expose many amazing discoveries, including: (1) Congress and the Flag Code confirm that the military salute was the origin of the Nazi salute. (2) The USA's Pledge of Allegiance inspired Nazi rituals. (3) Public schools spread Nazi behavior. (4) Swastikas represented crossed S letter shapes for socialist under Hitler. They are eye-popping revelations that are undisputed by the New York Times • The Washington Post • Los Angeles Times • San Francisco Chronicle • Tampa Bay Times • Chicago Tribune • Newsday • The New York Times Book Review • Tampa Tribune • Library Journal • Publishers Weekly • Saint Petersburg Times • History Journal • Scholar's Weekly Because she speaks truth to power with her ground-breaking revelations, Lin Xun has been subjected to harassment (including risque images of her posted on the internet). She doesn't care! In this book, Lin spans history's bottom, leaving red hand prints. Hop in Lin's pink Cadillac and take a ride to the land inside of your mind. Nazi salutes and Nazi behavior originated from the USA's Pledge of Allegiance to the flag, created by Francis Bellamy, an American socialist. The author Lin Xun searches for old photos and film footage of the early Pledge of Allegiance showing the origin of the USA's notorious stiff-armed salute. Many of those artifacts have been found among Dr. Rex Curry's historical archival work. Curry's discoveries are changing the history books. Please send any images or inquiries to the email address of the publisher mentioned in the book. Each book is personally handled, wrapped, and mailed by Lin Xun IN THE NUDE! Or by the publisher, depending on who's

available. This empowering book gives everyone a voice to transform his community. To everyone who threw up on Hitler's election night, who sobbed on the bathroom floor at Stalin's power grab, who dry heaved trying to imagine how to tell the children what had happened under Mao, who couldn't stop physically shaking due to the Kim thugs, who felt the horror of what was to come under all socialism, I say this: WE KNEW. WE KNEW. WE KNEW. "There is rumor of a Pulitzer Prize for exposing the Pledge of Allegiance as the origin of Nazi salutes and Nazi behavior; and the swastika as alphabetical 'S' letter shaped symbolism for 'socialist.' Hooray!" - Ward Toolen, Stop The Pledge (STP) Foundation. The symbol presently known as Lin Xun wrote a game-changer with this book. - Francis Hannah Cruz

darwin awards list: The Darwin Awards 4 Wendy Northcutt, Christopher M. Kelly, 2007-10-30 The hilarious New York Times bestselling phenomenon and the perfect funny gift! The Darwin Awards series is the alpha chimp of humorous human mishaps. Despite being an international bestseller and inspiring the movie The Darwin Awards, these hilarious, cautionary chronicles have failed to stop another generation of Darwin Award winners from steering motorcycles with their feet, heating lava lamps on stoves, using liquid soap as brake fluid, and drowning themselves in the kitchen sink. Filled with more than 100 new tales of evolution in action, plus science essays and a parody research paper supporting Intelligent Design, The Darwin Awards 4 shows that when it comes to common sense, natural selection still has a long, long way to go.

darwin awards list: The Darwin Awards Next Evolution Wendy Northcutt, 2008 Features examples of people whose lack of common sense resulted in their demise, in a tribute to how the evolutionary process is improved when individuals of questionable intelligence accidentally remove themselves from the gene pool.

darwin awards list: The Darwin Awards 3 Wendy Northcutt, 2003 A satirical award celebrating the worst examples of human intelligence features stories about the man who used a cigarette lighter to check his gas level, the terrorist who opened his own letter bomb, and other stories of human idocy.

darwin awards list: Matthew Eberz, 2009-05-01 Sam Call is back, but this time it's personal! Along with his wife Mary and private investigator David Lytle, he is determined to uncover the facts about his daughter's murder ... in Highlands, North Carolina ...--Dust jacket flap.

darwin awards list: Common Sense as a Paradigm of Thought Tim Delaney, 2018-12-07 The notion of common sense and abiding by its implications is something that, seemingly, everyone agrees is a good way of making behavioral decisions and conducting one's daily activities. This holds true whether one is a liberal, moderate, or conservative; young or old; and regardless of one's race and ethnicity, gender, or sexual orientation. If utilizing common sense is such a good idea, why then, do so many people seem to violate it? This is just one of many significant questions surrounding the idea of common sense explored and discussed in this book. This volume presents common sense as a 'paradigm of thought' and as such, compares it to other major categories of thought — tradition, faith, enlightened and rational. Combining a balance of practical, everyday approaches (through the use of popular culture references and featured boxes) and academic analysis of core and conceptual methodological issues, Delaney demonstrates: The limitations of common sense and its place in everyday social interactions How we learn about common sense Why common sense is so important Common Sense as a Paradigm of Thought introduces readers to a rich variety of sociological authors and will appeal to students and researchers interested in fields such as: sociology, philosophy, social psychology, cultural studies, communications and health studies.

darwin awards list: The Complete Idiot's Guide to the Ultimate Reading List John Charles, Shelley Mosley, 2007-07-03 Great reads for busy people. This is a guide to help busy people find great reads in fiction and nonfiction. Filled with recommendations of popular, entertaining reading, this book covers mystery and suspense, romance, women's fiction and chick lit, Westerns, science fiction, such nonfiction topics as animals, art, biography, memoirs, business, true crime, and more. Plus, each entry includes a summary of the book, its significance, and a critique/observation/comment.

darwin awards list: Spark the Brain, Ignite the Pen (SECOND EDITION) Samuel Totten, Helen Eaton, Shelley Dirst, Clare Lesieur, 2009-04-01 A NEW emphasis IN THIS edition of Spark the Brain, Ignite the Pen is writing to learn in the content areas. This edition of the work first published in 2006 includes a collection of classroom-tested quick writes designed to assist students in thinking and writing about significant content in the disciplines. Contributors to the book teach a wide array of grade levels (K through college) and subject areas e.g., English, social studies, math, science and health), and the quick writes included in the book are ideal for use in a variety of classroom subjects and settings. Given the current research validating the impact of using writing tasks to learn content, this volume should be useful to a wide range of teachers, teacher educators, and professional development trainers K-12.

darwin awards list: Uncle John's Know It All Bathroom Reader Bathroom Readers' Institute, 2025-09-30 Uncle John and his team have once again filled a truly absorbing volume with entertaining and informative articles that make for ideal bathroom reading. Longtime fans and new readers will see their brain cells take an exponential leap forward with Uncle John's Know It All Bathroom Reader. Fascinating stories that explore the realms of pop culture, history, sports, and science—plus the ever-popular exploits of dumb crooks—will fill voids in your knowledge that you didn't even know existed. For this 38th annual edition, Uncle John and his team at the Bathroom Readers' Institute have searched high and low to bring you an all-new collection of entertaining and informative articles that includes short reads for a quick trip to the throne room as well as longer page-turners for extended visits. Also included are plenty of amusing lists, factoids, quotes, and quizzes that will fill your head with all sorts of odd trivia that you can use to amaze your friends.

darwin awards list: List It! Alex A. Lluch, 2010 Life is full of important discoveries, lessons, and hopes and dreams. Documenting this story makes for an enlightening and humorous keepsake. Now readers can create lists on every topic that is meaningful to them and keep it in one special place.

darwin awards list: Scuba Diving and Snorkeling For Dummies John Newman, 2011-05-09 For millions of Americans, diving offers the chance to get away from everyday life and enter a world of stunning natural beauty and fascinating complexity. And getting started is a breeze! Anyone can learn to dive safely and explore the world's wondrous oceans - all it takes is a little training and basic equipment. Scuba Diving & Snorkeling For Dummies presents all the fundamentals for anyone interested in getting dive certified or just looking for good snorkeling while on vacation. Written by PADI-Certified diver John Newman, this friendly guide covers everything you need to know to: Get certified Plan a great diving trip Save money on equipment Dive or snorkel safely This user-friendly guide starts by helping you evaluate your underwater skills and walking you step by step through a typical certification program. Once you're certified, it helps you pick a dive site, purchase and set up your equipment, and take care of any fears you might have. Then you'll discover what to expect on your first dive - from which creatures are dangerous to how to protect fragile sea life. Scuba Diving & Snorkeling For Dummies also covers these topics and more: Free diving Special breathing techniques Emergency procedures How to avoid the bends Handling dive anxiety The physics and chemistry of diving Staying healthy on dive trips Ocean ecosystems Rip tides and tidal waves Ten great dive destinations In addition to beautiful full-color photography and all the information you need to plan a dive trip, the book also includes a handy appendix of dive organizations and publications, as well as a CD-ROM sampler from PADI (Professional Association of Diving Instructors). Whether you're a novice diver or an old hand, Scuba Diving & Snorkeling For Dummies is perfect for anyone who wants to see the beauty of the ocean from a fish's point of view. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

darwin awards list: The D Programming Language Andrei Alexandrescu, 2010-06-02 D is a programming language built to help programmers address the challenges of modern software development. It does so by fostering modules interconnected through precise interfaces, a federation of tightly integrated programming paradigms, language-enforced thread isolation, modular type safety, an efficient memory model, and more. The D Programming Language is an

authoritative and comprehensive introduction to D. Reflecting the author's signature style, the writing is casual and conversational, but never at the expense of focus and precision. It covers all aspects of the language (such as expressions, statements, types, functions, contracts, and modules), but it is much more than an enumeration of features. Inside the book you will find In-depth explanations, with idiomatic examples, for all language features How feature groups support major programming paradigms Rationale and best-use advice for each major feature Discussion of cross-cutting issues, such as error handling, contract programming, and concurrency Tables, figures, and "cheat sheets" that serve as a handy quick reference for day-to-day problem solving with D Written for the working programmer, The D Programming Language not only introduces the D language—it presents a compendium of good practices and idioms to help both your coding with D and your coding in general.

darwin awards list: He Said It, I Didn't Martin Kennedy, 2018-03-28 Of all the things people do with the Bible such as spreading good will, evangelizing, or tripping little boys, what's the one thing they never do? Read the whole thing. That's what Martin Kennedy did. He discovered that all of the lessons and parables within this respected piece of literature was surrounded by at best confusing stories and at worst horrible tales of human flaws. That compelled him to write He said it, I didn't. When read with no preconceived notions of infallibility, the Bible is a stirring example of the depths that the human race will go to when it believes their actions are backed up by an almighty force. And when their God can beat your God, someone's not going to have a good day. As a non-believer, Martin was able to detach himself emotionally from what would have been a sad and sobering examination of Christianity. Instead, he pulled from his comedic roots and delivered a book report filled with humor, irreverence, and insight. You may not ever want to see his face, but you'll never look at the Bible the same either.

darwin awards list: The Nature of Men and Women, the X and Y Factor, or I Didn't Say It Was Your Fault, I Said I Was Going to Blame You John West, 2016-11-14 This book is a humorous, semi-scientific guide to understanding the nature of men and women. It is a helpful source for navigating the ins and outs of interactions with the opposite sex. The book starts with the beginning of sex, goes through nature and nurture to a description of men and women, and finally, to marriage and beyond. You will find checklists, quizzes, and a road map through the perils and pleasures of finding a mate. Included are interesting facts, figures, and advice from poets, writers, and romance experts. Whether you are twenty or fifty, you will find this book a wonderful resource for the affairs of the heart. John West has hit a perfect bullseye with this book. It will have you laughing as you discover what makes relationships work or falter in the complicated dance of romance. I wish I had read it before stepping into various relationships. West thoughtfully describes the inner workings of our brains, the hormonal and cultural influences that make us who we are, and how all that plays a major role when we try to engage with others. If you think it isn't possible to find the perfect mate, read this book, it makes you realize the type of person you are best suited for and helps you understand the changes you need to make to be a perfect partner. Cynthia L. Griswold, RN, MSN, FNP This book should be on all book shelves. It is scientific, it is insightful, and it is hilarious. John West captures the essence of being male and female in this modern world. He explains our habits and idiosyncratic behavior in easy to understand chapters but brings you to tears with his insightfulness. I cannot recommend this tome highly enough, an excellent read. Best book on the sexes I have encountered. You are learning as well as being entertained. A must read, helpful for all marriages. Superb understanding of science and human nature. You will never view the opposite sex the same after reading this book. A bloody good read. John Brownsberger Academic Advisor and professor Charles Stuart University New South Wales Australia

darwin awards list: Tourism and Humour Philip L. Pearce, Anja Pabel, 2015 This book is dedicated to the advancement of knowledge about humour in all kinds of tourism settings. It discusses the many ways in which humour can occur during tourism exchanges including guided tours, tourism marketing and promotion and travel narratives. Other themes include the role of humour in enhancing the tourist experience, the benefits of tourism humour, considerations of when

humour may appear inappropriate in tourism settings and the development of tourism humour theory. The work includes much original material collected by the authors. The book will be of interest to undergraduate and postgraduate students, researchers of tourism as well as humour scholars from other disciplines.

darwin awards list: Cinematography Mailing List - Lighting - January 2001 to January 2005 Geoff Boyle, 2005-02-01 This book consists of edited conversations between DP's, Gaffer's, their crew and equipment suppliers. In common with the other CML books it doesn't have the same structure as a normal film reference book. The discussions have occasionally been edited for clarity and brevity. They will sometimes ramble a little but that's the nature of a conversation and some interesting information comes out in the process! All views expressed are those of the posters, please join CML and take it up with them if you have a problem! This book covers Lighting discussions during the period January 2001 to January 2005.
