dianne brimble 8: *Cruising for Trouble* Mark Gaouette, 2010-03-19 This book offers an alarming inside look at the security preparations of the cruise industry and the potential for cruise ships to be the target for pirates, terrorists, and criminal activity. *Cruising for Trouble* exposes the acute vulnerability of cruise ships to piracy, terrorism, and crime, both on the high seas and in domestic and foreign ports-of-call. While cruise ships have ramped up in size and passenger capacity to become floating skyscrapers housing as many as 7,000 passengers, and while piracy incidents have increased since 2008 as the world economy has deteriorated, there has been no corresponding increase or enhancement in onboard security personnel, external tactical units, preventive screening, or coordinated response planning to guard against the growing threat of acts of piracy and internal and external terrorist attacks. Commander Gaouette reveals to cruise passengers the very real security dangers they unwittingly face when they saunter up the gangway of a cruise ship for a carefree holiday. He sounds a clarion call to national and transnational security agencies, maritime regulators, legislators, and customers to compel the cruise industry to strengthen and reform its security programs before catastrophe strikes. The author, a longtime cruise industry insider who now serves as a top maritime security official in the Department of Homeland Security, details the many security defects and vulnerabilities of cruise ships, identifies the remedies, and makes the case for their urgent implementation. Extensively documented and illustrated, *Cruising for Trouble* is a vividly told cautionary for the ten million Americans who taken cruise-ship vacations each year and the millions more who would like to. As well as modeling the potential threats to cruise ships from pirates and maritime terrorists—who mimic each other's methods, overlap each other's territories, and might well find it mutually beneficial to combine their forces and resources—Commander Gaoutte recounts many actual examples of cruise-ship insecurity that have been swept under the carpet or spun by the cruise industry: pirate attacks, fires, onboard crime, mass food poisonings and infections, and the mysterious disappearances of cruise-ship passengers.

dianne brimble 8: *Overboard - The Stories Cruise Lines Don't Want Told* Gwyn Topham, 2011-10-26 A cruise was once the trip of a lifetime: a byword for refinement, luxury, romance, the millionaire lifestyle but no longer. Boats are bigger and brasher, and every year more and more people of all ages and walks of life are clambering aboard to join the party. But are they safe? Out at sea, there are no police. Many cruise ships fly flags of convenience, sailing in murky legal waters. Reports of disappearances, disease, death and debauchery are becoming alarmingly frequent. Can you be sure your dream holiday, or your ship, won't end up on the rocks? Gwyn Topham, travel editor of *Guardian Unlimited*, talks to crew and passengers in Australia and around the world to find out what really happens on the high seas. In tales spanning ships from the *Fairstar* to the *QM2*, he

discovers pirates and pollution, missing persons and mutinies, colourful captains and crew, and passengers whose antics would make your hair curl. You cannot afford to get aboard until you have read *Overboard: the stories cruise lines don't want told*.

dianne brimble 8: *Abandoned* Geesche Jacobsen, 2011-03-04 On 24 September, 2002, Queensland mother Dianne Brimble was found dead on the floor of a cabin on the cruise ship *Pacific Sky*, less than 24 hours into what was to be the holiday of a lifetime. The cabin belonged to four men from Adelaide who were part of a group of eight colourful characters, whom the media would later describe as the most hated men in Australia. Within hours of Dianne Brimble's death it emerged that she had been showered and dressed before medical help was called. Soon there were rumours of drug use and group sex, which grew into allegations of rape and murder. P+O personnel failed to secure the cabin, allowing the men back in to collect their belongings thus making the truth even more difficult to determine. A police investigation, a high-profile inquest, a grieving family and a criminal trial probed what went on in those few crucial early morning hours ending in her death. This extraordinary case, which captivated Australia, highlights the lines between criminal and moral responsibility and how easily things can get out of hand when care is abandoned.
