It addresses questions of importance to those who have a commitment to the very young such as: "What benefits can young children derive from

positive bonds with older adults?”, “How do young children understand the aging process and develop respect for the elderly?”, “How can published research be used to guide both informal and formal interactions between the older generation and the newest one?” and, finally, “How can various stakeholders such as professionals, families, organizations, and communities collaborate to enrich and enlarge the kind and amount of support that older adults provide to the very young child?”
