Discover how the Glenn Beck show podcasts stand out in the crowded podcasting landscape and what makes them a valuable resource for news and commentary. Below is a structured overview of the content covered in this article.

- Overview of Glenn Beck Show Podcasts
- Popular Episodes and Themes
- Where to Listen to Glenn Beck Show Podcasts
- Audience and Impact
- Tips for Maximizing the Podcast Experience

Overview of Glenn Beck Show Podcasts

The Glenn Beck show podcasts are a series of audio programs that deliver news, analysis, and commentary from Glenn Beck, a well-known media personality and political commentator. These podcasts are designed to engage listeners with thoughtful perspectives on current affairs, historical events, and socio-political issues. They combine Beck's signature narrative style with expert interviews and listener interaction, creating a dynamic and informative listening experience.

Format and Content

The format of the Glenn Beck show podcasts typically includes monologues, guest interviews, and panel discussions. Episodes range from short, focused commentaries to longer deep dives into complex topics. The content often reflects conservative viewpoints but also aims to provide context and background that help listeners understand the broader implications of news stories and policy debates.

Frequency and Availability

New episodes of the Glenn Beck show podcasts are released regularly, often daily or multiple times per week. This frequent release schedule ensures that listeners have access to timely commentary on breaking news and ongoing issues. The podcasts are available on multiple platforms, making them accessible to a broad audience.

Popular Episodes and Themes

Glenn Beck show podcasts cover a wide array of themes, appealing to listeners interested in politics, history, culture, and current events. Some episodes focus on investigative journalism, while others provide motivational stories or deep dives into historical periods.

Key Topics Covered

- Political analysis and election coverage
- Government accountability and transparency
- Historical narratives and their modern relevance
- Economic policies and their societal impact
- Cultural discussions and social issues

Notable Episodes

Certain episodes have garnered significant attention due to their in-depth research or exclusive interviews. These episodes often address major political events, controversial policies, or significant cultural debates, providing listeners with comprehensive insights and diverse viewpoints.

Where to Listen to Glenn Beck Show Podcasts

Accessibility is a key advantage of the Glenn Beck show podcasts. They are distributed through various popular podcast platforms and streaming services, ensuring a wide reach and ease of use for listeners.

Major Platforms

- Apple Podcasts

- Spotify
- Google Podcasts
- Amazon Music
- Glenn Beck's official website and app

Subscription and Access Options

Listeners can subscribe to the Glenn Beck show podcasts for free on most platforms, with some premium content available through subscription services or the official Glenn Beck app. This model allows for flexible access depending on listener preferences and desired content depth.

Audience and Impact

The Glenn Beck show podcasts attract a diverse audience primarily interested in conservative political commentary and cultural analysis. The podcasts have built a loyal following due to their consistent quality, engaging content, and Glenn Beck's distinctive voice in the media landscape.

Listener Demographics

Listeners typically include adults who are politically engaged, value conservative viewpoints, or seek alternative perspectives to mainstream media coverage. The podcasts also appeal to those interested in historical context and social commentary.

Influence and Reach

Through the Glenn Beck show podcasts, the host has influenced public discourse on numerous issues, shaping opinions and encouraging civic engagement. The podcasts serve as a platform for promoting awareness and discussion on topics often underrepresented in other media outlets.

Tips for Maximizing the Podcast Experience

To fully benefit from the Glenn Beck show podcasts, listeners can adopt certain strategies that enhance understanding and engagement. These tips ensure a richer and more informed listening experience.

Optimal Listening Practices

- Subscribe to receive timely episode updates
- Create playlists of favorite episodes for easy access
- Take notes on key points for deeper reflection
- Engage with online communities for discussion and insights
- Explore related content to broaden perspective

By following these guidelines, listeners can stay informed, critically evaluate content, and participate more actively in conversations sparked by the Glenn Beck show podcasts.

glenn beck show podcasts: Podcast Journalism David Dowling, 2024-03-19 Runner-up, 2025 Tankard Book Award, Association for Education in Journalism and Mass Communication Podcasting's stratospheric rise has inspired a new breed of audio reporting. Offering immersive storytelling for a binge-listening audience as well as reaching previously underserved communities, podcasts have become journalism's most rapidly growing digital genre, buoying a beleaguered news industry. Yet many concerns have been raised about this new medium, such as the potential for disinformation, the influence of sponsors on content, the dominance of a few publishers and platforms, and at-times questionable adherence to journalistic principles. David O. Dowling critically examines how podcasting and its evolving conventions are transforming reporting—and even reshaping journalism's core functions and identity. He considers podcast reporting's most influential achievements as well as its most consequential ethical and journalistic shortcomings, emphasizing the reciprocal influences between podcasting and traditional and digital journalism. Podcasting, both as a medium and a business, has benefited from the blurring of boundaries separating news from entertainment, editorial from advertising, and neutrality from subjectivity. The same qualities and forces that have allowed podcasting to bypass the limitations of traditional categories, expand the space of social and political discourse, and provide openings for marginalized voices have also permitted corporations to extend their reach and far-right firebrands to increase their influence. Equally attentive to the medium's strengths and flaws, this is a vital book for all readers interested in how podcasting has changed journalism.

glenn beck show podcasts: Big Podcast – Grow Your Podcast Audience, Build Listener Loyalty, and Get Everybody Talking About Your Show David Hooper, 2019-03-12 Is it worth doing a podcast if nobody listens? You started your podcast because you want to: - Spread an important message - Share your passion - Make money But your podcast hasn't quite taken off like you thought it would. What happened? This book is for podcasters who can't quite figure out what they're doing wrong (and are ready to do things right). You'll learn: - Why your "natural personality" may be repelling to people and how to make it attract listeners to your podcast like a magnet (See p198) - What to do when a company tries to "lowball" you on advertising fees (do nothing, except send them the email

on p424) - It's easy to screw up an interview. To be sure you don't run into any problems, use my "guest contract" on p311. - A six-word "trick" (learned from a 20-year radio veteran) that will instantly make you a better host (it's on p210) - 9 reasons to kill an interview before it happens - ignore these "red flags" and you'll be sorry (p299) - What Victoria's Secret models know about podcasting (even though you never hear them talk) - this lesson starts on p208! - Nervous on the mic? You have lots of company - 75% of podcasters to be exact. I give you a 5-step way to cure your "stage fright" on p229. - If you're scared of getting bad reviews, don't worry - I have three simple ways to handle critics on p236 (two of which can turn critics into fans) - Why copying top podcasters may be killing your podcast (I share the story on p116) and how to develop a podcasting style that works for you (and will attract more listeners) - My 3-step "episode teaser" formula - it's boring, but it works (get it on p110) - Thinking of doing a "daily" podcast? You must read p103 before you start. - Want to impress a guest? See the chapter starting on p321 for my 3-step followup "ritual" that will make being on your podcast unforgettable (and encourage guests to promote your episodes) And that's just the start ... This book contains my complete system on how to attract listeners, deliver your message effectively, and build a big podcast. You can't build a big podcast on hope. But you can build a big podcast. And if you're ready to do just that, read this book.

glenn beck show podcasts: ascent Media Literacy, 2017-12-15 The College of St. Scholastica discusses many forms of media and the uniqueness of media. Topics discussed: artificial intelligence, the simulation theory, technological advancements, digital currency, and more. Students studied the history of the media to see how the sharing of ideas were passed along for generations up until today. The papers that make up this book are influenced and written about what was discussed in a Media Literacy topics course.

glenn beck show podcasts: The Gap in God's Country Laurie M. Johnson, 2024-10-18 Laurie M. Johnson argues that America's culture wars may seem to have erupted in the past couple of decades, but they go back centuries. For those who think that Christian nationalism (or right-wing populism) is the problem to be solved, that some people simply need to understand Christianity or politics better and become reasonable, read on. Christian nationalism and other ideological extremes are symptoms of major economic, technological, spiritual, and psychological shifts that have left too many people uprooted, disenchanted, and precarious. There are no easy answers, but Johnson tries to show a path out that enlists not only individuals, but also church and state. Without leadership and structure provided at the levels of the church and state, Christians, and those impacted by them, will remain part of the problem and not the solution. Johnson says to Christians: change is not talk, it's action, and Christian action can only happen with leadership that creates a context where we can work together, rather than wasting our time in culture wars.

glenn beck show podcasts: The Propagandists' Playbook Francesca Bolla Tripodi, 2022-01-01 An examination of what algorithmic polarization means for society and how conservative elites use media literacy tactics to spread propaganda The Propagandists' Playbook peels back the layers of the right-wing media manipulation machine to reveal why its strategies are so effective and pervasive, while also humanizing the people whose worldviews and media practices conservatism embodies. Based on interviews and ethnographic observations of two Republican groups over the course of the 2017 Virginia gubernatorial race--including the author's firsthand experience of the 2017 Unite the Right rally--the book considers how Google algorithms, YouTube playlists, pundits, and politicians can manipulate audiences, reaffirm beliefs, and expose audiences to more extremist ideas, blurring the lines between reality and fiction. Francesca Tripodi argues that conservatives who embody the Christian worldview give authoritative weight to original texts and interrogate the media using the same tools taught to them in Bible study--for example, using Google to fact check the news. The result of this practice, tied to conservative marketing tactics, is more than a reaffirmation of existing beliefs: it is a radicalization of content and a changing of narratives adopted by the media. Tripodi also demonstrates the pervasiveness of white supremacy in the conservative media ecosystem, as well as its mainstream appeal, scope, and spread.

glenn beck show podcasts: Key Changes Howie Singer, Bill Rosenblatt, 2023 Tells a new

story about the history of the music business and the ten technological advances that disrupted it over the last century. In recent years, narratives about the music industry tend to hew to a common theme: it was humming along for decades until the Internet and Napster came along and disrupted it. *Key Changes* shows that this view is incorrect: the industry was actually shaken up not once in the 1990s, but ten times over more than 100 years. These ten disruptions came with the introduction of new formats for enjoying recorded music: starting with the cylinders and discs played on early phonographs; then moving through radio, LPs, tapes, CDs, television, digital downloads, streaming, and streaming video; and then into Artificial Intelligence (AI), which enables a wide range of new capabilities with profound impacts upon the business. This book devotes a chapter to each of these formats, illustrating how such innovations beget shifts in creativity, consumer behavior, economics, and law. Each of the technological innovations covered in this book not only disrupted the music business, but also fundamentally altered the industry's character. And while the technologies themselves have evolved in unique and varied ways over the decades, the changes within the business follow a clear pattern. Veteran music industry professionals and music technology experts Howie Singer and Bill Rosenblatt illuminate this pattern through a framework they term the 6 Cs: cutting edge technology, channels of distribution, creators, consumers, cash, copyright. This framework provides insight into how such disparate innovations similarly disrupted and transformed the music business in each era. Extensively researched and supplemented by interviews with Grammy-winning artists, producers and executives, the book provides an insightful perspective on the ways technology has fundamentally altered the music industry, throughout history and into the present era.

glenn beck show podcasts: *Be Jesus in the Temple* Jeffrey S. Ball, 2025-04-21 In a government dominated by career politicians, a new administration and concerned citizens rise to challenge the status quo. The mission: dismantle the corrupt relationships between career politicians, career bureaucrats, industrial complexes, and unchecked budgets. Inspired by *Jesus in the Temple*, they vow to cleanse the political system of greed. "*Be Jesus in the Temple*" is a well-researched work that examines the dire financial situation caused by our crippling national debt. It delves into the motivations of career politicians and their reluctance to act in our best interests on fiscal issues, immigration, the environment, citizenship, elections, and journalism. You'll uncover how career politicians have deceived us, viewing the world through their eyes as they exploit industrial complexes for personal gain. The book explores the origins of the industrial complex and federal investigations beginning with the Eisenhower and Kennedy presidencies. Topics you will find include the Law of Unintended Consequences, Fiduciaries, Critical Thinking, The Scientific Method, Occam's Razor, Gestalt Theory, a business approach to government, and Lincoln's inspirational words from Gettysburg. This book offers inspiration and a path forward through our founding documents, Thomas Paine's "*Common Sense*," the 1994 Contract with America, and the lessons of *Jesus in the Temple*. A future government for citizens is available through a new contract, a Contract for Americans. We invite readers to embark on a journey of historical significance, accept the challenge, evaluate our options, and take action to change our course as we approach our 250th year as a nation.

glenn beck show podcasts: *Mediaweek* , 2009-10

glenn beck show podcasts: *The Bohemian Grove* Mark Dice, 2015-07-01 The secretive and strange Bohemian Grove is an elite men's club hidden deep within a 2700-acre redwood forest in Northern California, where each July the most powerful men in the world gather for what's called their annual Summer Encampment. Is this mysterious meeting "just a vacation spot" for the wealthy and well-connected, or is it something more? Does it operate as an off the record consensus building organization for the elite establishment? What major plans or political policies were given birth by the club? Do they really kickoff their gathering each year with a human sacrifice ritual? Is this the infamous Illuminati? After getting his hands on some rare copies of the club's yearbooks; obtaining an actual official membership list smuggled out by an employee; and having personally been blocked from entering the club by police—secret society expert Mark Dice uncovers *The Bohemian Grove*:

Facts & Fiction. By the Author of *The Illuminati: Facts & Fiction -Their History -Symbols, Saint, and Motto -Infiltrations and Leaks -Cremation of Care -Different Subcamps -Allegations of Murder -Hookers & Homosexuality -Depictions in TV and Film -And More!*

glenn beck show podcasts: Digation Robert C. MacDougall, 2012 The shift from orality to literacy that began with the invention of the phonetic alphabet, and which went into high-gear with Gutenberg's printing press more than 500 years ago, helped make the modern world. Some commentators have argued that this shift from orality to literacy marked a much broader, cultural shift of cataclysmic proportions. Today, with everything from e-mail to blogs, iPods and podcasts, through Google, Yahoo, eBay, and with cutting-edge smart phones, we find ourselves developing relationships with these newest communication tools that aren't simply allowing us to communicate faster, farther and with more ease than ever before. We aren't just moving around ideas, data, and information at unimaginable speed and scale. Our interminglings and fusions with digital communication technologies are also altering both individual and group consciousness in fundamental ways—how we form and sustain relationships, how we think and perceive, what it means to see and to feel. We are remaking human identity once more, and manufacturing a new kind of culture along the way. The processes bound up in our digination may well be consequential to the trajectory of human evolution. That time-honored trope: the notion that technology is not the problem, rather, it's how people use technology that's the problem is shown to be wanting. Highlighting Marshall McLuhan's "tetrads" or laws of media as a primary tool of analysis, R.C. MacDougall argues in line with other media ecologists that it's not so much how we use certain tools that matters, it's that we use them. More than any other technological form perhaps, communication technologies play particularly powerful and systemic roles in our culture, or any culture for that matter. Late adopters and even abstainers are not exempt from the psychological, social and cultural effects (and side-effects) of modern digital communication technology. While there are certainly varying degrees of immersion—that is to say, while some of us live in the high-rise downtown district, some at the city limits, and still others out in the proverbial "woods—we all live in Digation today.

glenn beck show podcasts: The Routledge Handbook of Religion and American Culture Chad E. Seales, 2025-03-31 The Routledge Handbook of Religion and American Culture explains where religion is made in the United States. It offers essays profiling cultural sites, including energy, industry, public life, music, arts and entertainment, and life and death. These sites organize the volume's 31 chapters, demonstrating how cultural religion has been constructed and performed in specific historical and ethnographic case studies. This volume offers a much-needed resource for Religious Studies scholars and students interested in the study of religion and culture in the United States, as well as those in American Studies, Anthropology of Religion, Sociology of Religion, Material Culture Studies, Environmental Studies, and History.

glenn beck show podcasts: *That's Not Funny* Matt Sienkiewicz, Nick Marx, 2024-03-26 A 2022 Best Comedy Book, Vulture A rousing call for liberals and progressives to pay attention to the emergence of right-wing comedy and the political power of humor. Why do conservatives hate comedy? Why is there no right-wing Jon Stewart? These sorts of questions launch a million tweets, a thousand op-eds, and more than a few scholarly analyses. *That's Not Funny* argues that it is both an intellectual and politically strategic mistake to assume that comedy has a liberal bias. Matt Sienkiewicz and Nick Marx take readers--particularly self-described liberals--on a tour of contemporary conservative comedy and the right-wing comedy complex. In *That's Not Funny*, complex takes on an important double meaning. On the one hand, liberals have developed a social-psychological complex—it feels difficult, even dangerous, to acknowledge that their political opposition can produce comedy. At the same time, the right has been slowly building up a comedy-industrial complex, utilizing the humorous, irony-laden media strategies of liberals such as Jon Stewart, Samantha Bee, and John Oliver to garner audiences and supporters. Right-wing comedy has been hiding in plain sight, finding its way into mainstream conservative media through figures ranging from Fox News's Greg Gutfeld to libertarian podcasters like Joe Rogan. *That's Not Funny*

taps interviews with conservative comedians and observations of them in action to guide readers through media history, text, and technique. You will find many of these comedians utterly appalling, some surprisingly funny, and others just plain weird. They are all, however, culturally and politically relevant—the American right is attempting to seize spaces of comedy and irony previously held firmly by the left. You might not like this brand of humor, but you can't ignore it.

glenn beck show podcasts: Pro-Child Politics Katy Faust, 2024-09-24 In *Pro-Child Politics*, Katy Faust has mobilized a collection of experts who apply her children-before-adults approach to their areas of expertise. From porn to debt, foreign policy to religious liberty, each chapter explains how a child-first approach isn't just nice—it's a necessity. Contributors explain how the needs of children are being ignored and propose practical, bold reforms that will ensure the next generation will not only survive, but thrive. Life - Dr. Abby Johnson (*And Then There Were None*, ProLove Ministries) Masculinity - Ken Harrison (*Waterstone/Promise Keepers*) Femininity - Peachy Keenan (*Domestic Extremist*) Family - Katy Faust (*Them Before Us*) Race - Delano Squires (*The Heritage Foundation*) Gender Ideology - Chris Elston (*Billboard Chris*) Porn - Jon Schweppe (*American Principles Project*) The Economy- Christopher Bedford (*The Blaze*) Taxes - Grover Norquist (*Americans for Tax Reform*) Debt - Phil Kerpen (*American Commitment*) Energy- The Honorable Neil Chatterjee ESG/DEI - Justin Danhof (*Strive*) Religious Liberty - Ashley McGuire (*The Catholic Association*) Education - Tiffany Justice (*Moms for Liberty*) Digital Technology - Maria Baer (*The Colson Center for Christian Worldview*) Environment - Chris Barnard (*American Conservation Coalition*) National Security- Dan Caldwell (*Defense Priorities*) Policing- Ari Hoffman (*The Post Millennial* and *Talk Radio 570 KVI*) Border Security/Immigration - Lora Ries (*The Heritage Foundation*) What does pro-child politics require? That every adult prioritizes the rights and well-being of children above their own self-interest. Because the only alternative is for children to sacrifice for adults. And that is a world characterized not only by damaged children, but widespread injustice. No other book on your shelf spans the topics covered in this collection. The diverse subjects addressed in these pages share one commonality: when we believe lies, children are victimized. *Pro-Child Politics* strips away the thin veneer of adult talking points to spotlight the most overlooked constituency: our children.

glenn beck show podcasts: *The Contrarian* Max Chafkin, 2025-09-09 A *New York Times* Notable Book A shocking and assiduously reported biography of venture capitalist and entrepreneur Peter Thiel, the enigmatic, controversial, and hugely influential power broker whose techno-authoritarian worldview is coming to dominate our collective reality “Max Chafkin’s *The Contrarian* is much more than a consistently shocking biography of Peter Thiel, the most important investor in tech and a key supporter of the Donald Trump presidency. It’s also a disturbing history of Silicon Valley that will make you reconsider the ideological foundations of America’s relentless engine of creative destruction.”—Brad Stone, author of *The Everything Store* and *Amazon Unbound* Since the days of the dot-com bubble in the late 1990s, no industry has made a greater impact on the world than Silicon Valley. And few individuals have done more to shape Silicon Valley than Peter Thiel. The billionaire venture capitalist and entrepreneur has been a behind-the-scenes operator influencing count-less aspects of contemporary life, from the technologies that mediate our daily existence to the rise of the far-right effort among some of the most powerful people in Silicon Valley and Washington to untether the U.S. government from the established constitutional order. But despite his being one of the most important forces behind the tectonic shifts in America’s sociopolitical landscape, no public figure is quite so mysterious. In the first major biography of Thiel, Max Chafkin traces the trajectory of the innovator’s singular life and philosophy, from his upbringing as the child of immigrant parents and years at Stanford as a burgeoning conservative thought leader to his founding of PayPal and Palantir, early investment in Facebook and SpaceX, and relationships with fellow tech titans Mark Zuckerberg, Elon Musk, and Eric Schmidt. *The Contrarian* illuminates the extent to which Thiel has sought to export his values to the corridors of power beyond Silicon Valley, including strenuously backing outsider political candidates, notably a young Senate hopeful named JD Vance and the longshot 2016 presidential contender Donald Trump.

Essential reading for a post-2024 world, *The Contrarian* is a revelatory biography of a one-of-a-kind leader and a deeply insightful portrait of a tech industry whose explosive growth and power is both thrilling and fraught with peril.

glenn beck show podcasts: CHARLIE KIRK BIOGRAPHY Nexus Publication, 2025-09-16 What happens when a young, passionate man refuses to accept the political establishment? Charlie Kirk's story is a powerful tale of how one individual challenged the status quo, rising from a college dropout to become a leading voice in the conservative movement. This biography reveals how Charlie Kirk built Turning Point USA, a movement that brought millions of young conservatives into the political arena, inspiring them to stand up for their beliefs in an increasingly polarized world. How did he go from being a relatively unknown activist to a force that reshaped the conversation about conservatism in America? Along the way, Charlie faced some of the most difficult challenges anyone in politics can face: attacks from the left, criticism from within his own party, and a society that seemed to be moving away from the values he stood for. But no matter the obstacle, he never stopped fighting. Every victory, every setback, brought him closer to the realization that his mission—defending freedom and empowering the next generation—was too important to fail. But with great influence comes great sacrifice. His rise was marked not only by his achievements but also by the personal and professional tolls that came with it. Was he a martyr for the cause? Or simply a man determined to ensure his vision of America's future was realized? Even after his untimely passing, Charlie Kirk's influence continues to shape the future of conservative thought. His legacy is felt in the way young activists engage in politics and how the fight for free speech continues to evolve. This biography will reveal how one man's determination changed the course of American politics. Charlie Kirk's story is one of triumph over adversity, and his ideas still resonate today, inspiring a new generation to stand for what they believe in, no matter the cost. What is Charlie Kirk's lasting impact? The answer is waiting in this story of struggle, resilience, and the courage to fight for the future of America.

glenn beck show podcasts: Political Behavior of the American Electorate Elizabeth A. Theiss-Morse, Michael W. Wagner, William H. Flanigan, Nancy H. Zingale, 2018-01-30 The 2016 elections took place under intense political polarization and uncertain economic conditions, to widely unexpected results. How did Trump pull off his victory? *Political Behavior of the American Electorate*, Fourteenth Edition, attempts to answer this question by interpreting data from the most recent American National Election Study to provide a thorough analysis of the 2016 elections and the current American political behavior. Authors Elizabeth Theiss-Morse and Michael Wagner continue the tradition of Flanigan and Zingale to illustrate and document trends in American political behavior with the best longitudinal data available. The authors also put these trends in context by focusing on the major concepts and characteristics that shape Americans' responses to politics. In the completely revised Fourteenth Edition, readers will explore get-out-the-vote efforts and the reasons people voted the way they did, as well as the nature and impact of partisanship, news media coverage, and other issues in 2016—all with an eye toward understanding the trends that led up to the historic decision.

glenn beck show podcasts: Out of Hiding Kathleen M. Blee, Robert Futrell, Pete Simi, 2023-12-08 *Out of Hiding: Extremist White Supremacy and How It Can Be Stopped* explains how white supremacist extremism endures, the varied forms it takes, its relationship with systemic racism, and what to do about it. The book draws on more than 30 years of extensive data and direct experiences with extremists to describe how white supremacy moved into the spotlight during the first two decades of the 21st century. The argument focuses on three moments between 2008 and today during which white supremacists took opportunities to move from pockets of underground activism to violent protests across the United States. The authors offer a corrective to observers who mischaracterize today's racial extremism as a new form of 'alt-right' conservatism or 'white nationalism' emanating from an isolated, poorly educated, and economically disenfranchised online fringe. These misunderstandings reflect the limited attention given to the varied and persistent forms of racial extremism that have long simmered in America and an inability to acknowledge the

appeal white supremacist messages can hold for a broad swath of the U.S. population. This volume contributes a longer view than other books to demonstrate that today's white supremacy is less a unique eruption than a continuation –and an acceleration –of longstanding U.S. white supremacy. This is essential reading for scholars and activists interested in racism, white supremacy, and far-right extremism.

glenn beck show podcasts: *Anti-Fandom* Melissa A Click, 2017-09-19 Essays exploring the pleasure derived from hating figures like politicians, celebrities, and TV characters, with discussions of trolling and hate-watching. Disinterest. Disgust. Hate. This is anti-fandom. It is visible in many of the same spaces where you see fandom: in the long lines at ComicCon, in our politics, and in numerous online forums like Twitter, Tumblr, Reddit, and the ever dreaded comments section. This is where fans and fandoms debate and discipline. This is where we love to hate. *Anti-Fandom*, a collection of 15 original and innovative essays, provides a framework for future study through theoretical and methodological exemplars that examine anti-fandom in the contemporary digital environment through gender, generation, sexuality, race, taste, authenticity, nationality, celebrity, and more. From hatewatching Girls and Here Comes Honey Boo Boo to trolling celebrities and their characters on Twitter, these chapters ground the emerging area of anti-fan studies with a productive foundation. The book demonstrates the importance of constructing a complex knowledge of emotion and media in fan studies. Its focus on the pleasures, performances, and practices that constitute anti-fandom will generate new perspectives for understanding the impact of hate on our identities, relationships, and communities. "Together, the chapters in *Anti-Fandom* provide much of the groundwork needed to provide a framework for anti-fan theory, and anyone looking to jump into this emerging area of study will find this book both interesting and useful." —Catholic Bible Quarterly

glenn beck show podcasts: *At the Tea Party* Laura Flanders, 2010 In the wake of the midterm elections, the Tea Party has gone from a well-funded, media-savvy, fringe group to become the new kids in the class of the 2010 Congress. Their presence is unpredictable and potentially explosive. Sarah Palin, widely credited with major influence on Tuesday's vote, is now set up for a 2012 presidential run. Tea partiers Rand Paul, Mike Lee and Dan Coats now sit in the Senate alongside the GOP's new poster boy, Marco Rubio. In total some 30 Tea Party supporters won seats in Congress. Their party is evidently here to stay – but what exactly does that mean for the future of the country? Just published by OR Books, *At the Tea Party* presents a lively and informed expose of this explosive new force in American politics. It doesn't paint a pretty picture. Read these pages and you will come to understand the coalition of anti-abortion, pro-gun advocates who comprise the tea parties' shock troops. You will discover what MSNBC contributor Melissa Harris-Lacewell and *Going Rouge* editors Rich Kim and Betsy Reed have to say about the racism, homophobia and sexism that fuels the tea party fizz. You will follow the money that flowed from the shadowy organizations of the super rich to pay for the ads that won the races. You will learn about the unscrupulous gold-peddlers who are virtually the sole underwriters of Glenn Beck's Fox News show. And you will get the up-close-and personal scoop on movement's biggest stars – Sarah from Wasilla and the mercurial crying clown, Glenn Beck. With contributions from a wide range of leading experts, *At the Tea Party* sorts the facts from the frenzy. Most importantly, it looks forward. Will the tea partiers in Congress launch a civil war within the Republican Party? Could they take over the GOP and end up running the country? And what role can the Left play in preventing the tea partiers from remaking America in their own fervid image? Combining investigative zeal, smart, hard facts, and a leavening of sharp wit and political passion, *At the Tea Party* stands out among books on the Tea Party phenomenon as a must-read for anyone interested in the turbulent future of American politics.

glenn beck show podcasts: *The Fall* Michael Wolff, 2023-09-26 New York Times Bestseller "All happy families are alike; each unhappy family is unhappy in its own way." —Leo Tolstoy, *Anna Karenina* "Michael Wolff's books were my foundation and port of entry for working on *Succession*." —Jeremy Strong ("Kendall Roy") Meet the Murdochs and the disastrously dysfunctional family of Fox News. Until recently, they formed the most powerful media and political force in the land, for better or worse. Now their empire is cracking up and crashing down. For almost three decades, Fox News

has not only made political careers (see: President Donald J. Trump) but also fundamentally altered the political landscape of the United States. It is a truism: as Fox goes, so goes the nation—into further divisiveness and awash in fake news, a gleefully polarizing company. But just as Fox has pushed America apart, now it too is coming apart. As is the family dynasty behind it. In his irresistible trilogy on the chaotic presidency of Donald Trump—Fire and Fury, Siege, and Landslide—the gadfly journalist Michael Wolff led readers deep into the twisted corridors of the White House. Now, drawing on years of unprecedented access to the Murdoch family and key players in the world of Fox, he plunges us behind the scenes of another empire of influence, and the result is astonishing and unforgettable. Here is Rupert Murdoch, the ninety-two-year-old Australian billionaire—a fading titan, concerned about his legacy but more concerned about profits. Here are his contentious progeny, jockeying to take over when the old man is gone. Here is star anchor Tucker Carlson, hiding out in his island homes, considering a run for the presidency while his bosses have other plans for him. Sean Hannity, the richest man in television, has his own plans: to put the former POTUS back in office, against the bosses' wishes. Meanwhile, Laura Ingraham is just trying to survive in the last man's man's world. Empires fall. Kingdoms come to an end. As lawsuits pummel the financial bedrock and reputation of the network, anchors scramble, and the battling Murdoch heirs make the Roys of TV's Succession seem downright Brady Bunch, Michael Wolff documents, in riveting and revelatory real time, the final days of Fox News.
