greg jackson political affiliation: Strategic Party Government Gregory Koger, Matthew J. Lebo, 2017-01-30 Why is Congress mired in partisan polarization? The conventional answer is that members of Congress and their constituencies fundamentally disagree with one other along ideological lines. But Gregory Koger and Matthew J. Lebo uncover a more compelling reason that today's political leaders devote so much time to conveying their party's positions, even at the expense of basic government functions: Both parties want to win elections. In *Strategic Party Government*, Koger and Lebo argue that Congress is now primarily a forum for partisan competition. In order to avoid losing, legislators unite behind strong party leaders, even when they do not fully agree with the policies their party is advocating. They do so in the belief that party leaders and voters will reward them for winning—or at least trying to win—these legislative contests. And as the parties present increasingly united fronts, partisan competition intensifies and pressure continues to mount for a strong party-building strategy—despite considerable disagreement within the parties. By bringing this powerful but underappreciated force in American politics to the forefront, Koger and Lebo provide a new interpretation of the problems facing Congress that is certain to reset the agenda for legislative studies.

greg jackson political affiliation: Voting Behavior in Indonesia since Democratization Saiful Mujani, R. William Liddle, Kuskridho Ambardi, 2018-03-01 Indonesia is the world's third largest democracy (after India and the USA) and the only fully democratic Muslim democracy, yet it remains little known in the comparative politics literature. This book aspires to do for Indonesian political studies what *The American Voter* did for American political science. It contributes a major new case, the world's largest Muslim democracy, to the latest research in cross-national voting behavior, making the unique argument that Indonesian voters, like voters in many developing and developed democracies, are 'critical citizens' or critical democrats. The analysis is based on original opinion surveys conducted after every national-level democratic election in Indonesia from 1999 to the present by the respected Indonesian Survey Institute and Saiful Mujani Research and Consulting.

greg jackson political affiliation: **The Underground Railroad in DeKalb County, Illinois**

Nancy M. Beasley, 2013-03-26 This book is about previously unidentified people who became Abolitionists involved in the antislavery movement from about 1840 to 1860. Although arrests were made in nearby counties, not one person was prosecuted for aiding a fugitive slave in DeKalb County, Illinois. First, the area Congregationalist, Universalist, Presbyterian and Wesleyan Methodist churches all had compelling antislavery beliefs. Church members, county elected officials, and the Underground Railroad conductors and stationmasters were all one and the same. Additionally, DeKalb County had the highest concentration of subscriptions to the Chicago-based Western Citizen antislavery newspaper. It was an accepted local activity to help escaped slaves. A biographical dictionary includes evidence and personal information for more than 600 men and women, and their families, who defied the prevailing Fugitive Slave Law, and helped the anti-slavery movement in this one Northern Illinois County. Unique photographs and illustrations are included along with notes, bibliography and index.

greg jackson political affiliation: *Law and Election Politics* Matthew J. Streb, 2013-05-07 Though the courts have been extremely active in interpreting the rules of the electoral game, this role is misunderstood and understudied—as, in many cases, are the rules themselves. *Law and Election Politics* illustrates how election laws and electoral politics are intertwined, analyzing the rules of the game and some of the most important—and most controversial—decisions the courts have made on a variety of election-related subjects. More than a typical law book that summarizes cases, Mathew Streb has assembled an outstanding group of scholars to place electoral laws and the courts' rulings on those laws in the context of electoral politics. They comprehensively cover the range of topics important to election law—campaign finance, political parties, campaigning, redistricting, judicial elections, the Internet, voting machines, voter identification, ballot access, and direct democracy. This is an essential resource both for students of the electoral process and scholars of election law and election reform.

greg jackson political affiliation: *Follow the Leader?* Gabriel S. Lenz, 2024-05-31 In a democracy, we generally assume that voters know the policies they prefer and elect like-minded officials who are responsible for carrying them out. We also assume that voters consider candidates' competence, honesty, and other performance-related traits. But does this actually happen? Do voters consider candidates' policy positions when deciding for whom to vote? And how do politicians' performances in office factor into the voting decision? In *Follow the Leader?*, Gabriel S. Lenz sheds light on these central questions of democratic thought. Lenz looks at citizens' views of candidates both before and after periods of political upheaval, including campaigns, wars, natural disasters, and episodes of economic boom and bust. Noting important shifts in voters' knowledge and preferences as a result of these events, he finds that, while citizens do assess politicians based on their performance, their policy positions actually matter much less. Even when a policy issue becomes highly prominent, voters rarely shift their votes to the politician whose position best agrees with their own. In fact, Lenz shows, the reverse often takes place: citizens first pick a politician and then adopt that politician's policy views. In other words, they follow the leader. Based on data drawn from multiple countries, *Follow the Leader?* is the most definitive treatment to date of when and why policy and performance matter at the voting booth, and it will break new ground in the debates about democracy.

greg jackson political affiliation: *The Bible And The Ballot Box* James L Guth, John C Green, 2019-07-11 The 1988 elections abruptly brought the importance of religion in American politics into sharp focus. Two ministers, Pat Robertson and Jesse Jackson, sought their party's presidential nominations by mobilizing key religious constituencies. In addition, a host of other religious groups, from the Catholic bishops to the Jewish community, sought to influence the election outcome. More than ever, religion was a critical factor in the ballots cast by millions of Americans. As the twentieth century draws to a close, it is clear that religion will continue to be a powerful factor in electoral

politics. This volume investigates the many ways religion influenced electoral politics in 1988, tracing the links between elites, activists, and voters in the major religious traditions. Special attention is paid to the leaders of Protestant, Catholic, and Jewish organizations; to important sets of activists, such as ministers, party leaders, and campaign contributors; and to the behavior of key voting blocs, including white evangelical and mainline Protestants, black Protestants, Catholics, and Jews.

greg jackson political affiliation: *Representation and Community in Western Democracies* N. Rao, 2000-03-07 This book of critical essays explores new thinking and new evidence on the role of locally-elected representatives in Western democracies.
