Katchmer, 2015-05-20 Long before sound became an essential part of motion pictures, Westerns were an established genre. More than a thousand of these once-silent Western players are featured in this fully indexed encyclopedic work. Each entry includes a detailed biography, covering both personal and professional milestones and a complete Western filmography. A foreword is supplied by Diana Serra Cary (formerly the child star Baby Peggy), who performed with many of the actors herein.

harry s law cast: The Fox Film Corporation, 1915-1935 Aubrey Solomon, 2014-01-10 In 1929, Hollywood mogul William Fox (1879-1952) came close to controlling the entire motion picture industry. His Fox Film Corporation had grown from a \$1600 investment into a globe-spanning \$300 million empire; he also held patents to the new sound-on-film process. Forced into a series of bitter power struggles, Fox was ultimately toppled from his throne, and the studio bearing his name would merge in 1935 with Darryl F. Zanuck's flourishing 20th Century Pictures. The 25-year lifespan of the Fox Film Corporation, home of such personalities as Theda Bara, Tom Mix, Janet Gaynor and John Ford, is chronicled in this thorough illustrated history. Included are never-before-published financial figures revealing costs and grosses of Fox's biggest successes and failures, and a detailed filmography of the studio's 1100-plus releases, among them *What Price Glory?*, *Seventh Heaven* and the Oscar-winning *Cavalcade*.

harry s law cast: Poverty Row Studios, 1929-1940 Michael R. Pitts, 2015-09-17 From the beginning of the sound era until the end of the 1930s, independent movie-making thrived. Many of the independent studios were headquartered in a section of Hollywood called Poverty Row. Here the independents made movies on the cheap, usually at rented facilities where shooting was limited to only a few days. From Allied Pictures Corporation to Willis Kent Production, 55 Poverty Row Studios are given histories in this book. Some of the studios, such as Diversion Pictures and Crescent Pictures, came into existence for the sole purpose of releasing movies by established stars. Others, for example J.D. Kendis, were early exploitation filmmakers under the guise of sex education. The histories include critical commentary on the studio's output and a filmography of all titles released from 1929 through 1940.

harry s law cast: Encyclopedia of American Short Films, 1926-1959 Graham Webb, 2020-07-10 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.

harry s law cast: Mabel Normand Timothy Dean Lefler, 2023-11-01 American silent film actress Mabel Normand (1892-1930) appeared in a string of popular movies opposite stars like Charlie

Chaplin and Fatty Arbuckle before dying of tuberculosis at 37. Her brief but remarkable career--which included directorial and writing credits and heading her own studio and production company--was eclipsed by scandal when police connected her to the unsolved 1922 murder of director William Desmond Taylor. Tracing her life from humble beginnings on Staten Island to the heights of world superstardom, this book highlights Normand's substantial yet largely overlooked contributions to film history and popular culture.

In addition to covering the standard network and cable entertainment genres, the book also covers programs generally not covered elsewhere in print (or even online), including Internet series, aired and unaired pilot films, erotic series, gay and lesbian series, risqué cartoons and experimental programs from 1925 through 1945.

Dashing heroes, dastardly villains, lovely ladies in distress and comical sidekicks—this was the formula for the westerns so popular through the fifties and sixties. This nostalgic reference work covers the heroes (90+ western stars), the sidekicks (60+ saddle pals), the cowgirls (60+ leading ladies), the bad guys (40+ villains), plus miscellaneous other players. A biographical sketch and career description with photographs and a filmography is given for each performer.

harry s law cast: The Pecora Investigation U.S. Senate, 2010-09-01 by the U.S. Senate Committee on Banking and Currency It reads like a news report from 2009, not 1929: investment practices that favored rich insiders, collusion between Wall Street and Washington DC, the repackaging of bad loans to get them off the books of offending banks, and numerous other financial crimes the impacts of which reverberated through the world economy. Between 1932 and 1934, Ferdinand J. Pecora (1882-1971), an American lawyer, served as chief counsel to the United States Senate Committee on Banking and Currency as it interrogated those responsible for the stock market crash of 1929 and the resulting Great Depression. This is the full report on the Pecora Commission's investigations to the Senate committee, and it makes for astonishing reading today, now that the repeal of the reforms implemented as a result of Pecora's report set the stage for the Great Recession that began in 2008. This firsthand document of the economic history of the United States is required reading for anyone wishing to untangle the web of deceptive financial practices of the past and today alike.

harry s law cast: Extraterritorial Use of Force Against Non-State Actors Noam Lubell, 2010-05-27 This book analyses the primary relevant rules of international law applicable to extra-territorial use of force by states against non-state actors. Force in this context takes many forms, ranging from targeted killings and abductions of individuals to large-scale military operations amounting to armed conflict. Actions of this type have occurred in what has become known as the 'war on terror', but are not limited to this context. Three frameworks of international law are examined in detail. These are the United Nations Charter and framework of international law regulating the resort to force in the territory of other states; the law of armed conflict, often referred to as international humanitarian law; and the law enforcement framework found in international

human rights law. The book examines the applicability of these frameworks to extra-territorial forcible measures against non-state actors, and analyses the difficulties and challenges presented by application of the rules to these measures. The issues covered include, among others: the possibility of self-defence against non-state actors, including anticipatory self-defence; the lawfulness of measures which do not conform to the parameters of self-defence; the classification of extra-territorial force against non-state actors as armed conflict; the 'war on terror' as an armed conflict; the laws of armed conflict regulating force against groups and individuals; the extra-territorial applicability of international human rights law; and the regulation of forcible measures under human rights law. Many of these issues are the subject of ongoing and longstanding debate. The focus in this work is on the particular challenges raised by extra-territorial force against non-state actors and the book offers a number of solutions to these challenges.

harry s law cast: Non-State Actors' Rights in Maritime Delimitation Marianthi Pappa, 2021-07-08 Most of the world's maritime boundary disputes involve privately held rights - relating to such matters as fishing, petroleum exploration and scientific research - that states have unilaterally granted to non-state actors in areas of overlapping national claims. An international lawyer would typically investigate the legality of a state's decision to create such rights without notifying or consulting its neighbour, and the legal consequences this action would have for the interests of the states concerned. Departing from this approach, Dr Marianthi Pappa examines such situations from the perspective of the non-state actors: what will happen to private rights in a disputed maritime area if it changes hands from state A to state B due to a subsequent delimitation treaty or judgment? Does the legal framework of maritime delimitation protect those rights effectively against a potential reallocation? To address these questions, the book considers the place that private rights have in land boundary-making.

Langhans, 1978 In contrast to each other, Volume 5 is a sociological portrait of mostly little people in their tragic and comic efforts to achieve fame on the London stage during the Restoration and eighteenth century, whereas Volume 6 is dominated by the glamour of David Garrick, Nell Gwyn, and Joseph Grimaldi, the celebrated clown. Some 250 portraits individualize the great and small of the theatres of London.

harry s law cast: A Biographical Dictionary of Actors, Actresses, Musicians, Dancers, Managers & Other Stage Personnel in London, 1660-1800 Philip H. Highfill, Kalman A. Burnim, Edward A. Langhans, 1973 Like the works already published, these latest volumes of the Biographical Dictionary deal with theatre people of every ilk, ranging from dressers and one-performance actors to trumpeter John Shore (inventor of the tuning fork) and the incomparable Sarah Siddons. Also prominent is Susanna Rowson, a novelist, actress, and early female playwright. Although born into a British military family, Rowson often wrote plays that dealt with patriotic American themes and spent much of her career on the American stage. The theatrical jewel of these volumes is the divine Sarah Siddons: She raised the tragedy to the skies, wrote William Hazlitt, and embodied to our imagination the fables of mythology, of the heroic and dignified mortals of elder time. She endured much tragedy herself, including a crippling debilitating illness and the deaths of

five of her seven children. Siddons played major roles in both comedy and tragedy, not the least of which was a performance as Hamlet.
