gulmohar english class 6: East Asian Literatures , 2006 This volume discusses the past, present and future perspectives of literature in Japan, China and South Korea and its interface with India. Since this being a largely unexplored area, an attempt has been made to present a true picture of the literature and cultural milieu of the East Asian countries to the readers through well researched, thought-provoking and enlightening papers contributed by eminent scholars from India, Japan, China and Korea. It is a historical fact that India maintained strong cultural ties with East Asian countries directly or indirectly through religion and culture since ancient times. This cultural bond has become all the more significant and meaningful in this age of information technology and globalization. In this context, literature has a great role to play. To be precise, it is only through literature that this existing bond of cultural affinity among India and East Asian countries could be nurtured and strengthened. This book gives a vivid picture of the state of the past and present literary trends in Japan, China and South Korea, the influence of Indian literary trends and thought

on their literatures, and the general perception and assimilation of East Asian literatures in India. This book would be a unique and comprehensive reference material for teachers, researchers, students, writers, and literary critics of Indian and East Asian literatures.
