Historical Context of the Jakarta Method

The jakarta method meaning cannot be fully comprehended without examining the historical context of Indonesia in the early 1960s. During this period, Indonesia was under the leadership of President Sukarno, who pursued a policy of non-alignment but leaned towards leftist and communist ideologies. The Indonesian Communist Party (PKI) was one of the largest communist parties outside the Soviet Union and China, wielding considerable influence. The Cold War rivalry between the United States and the Soviet bloc heightened tensions in Southeast Asia, making Indonesia a focal point for ideological conflict. In 1965, an attempted coup known as the 30 September Movement occurred, which the army attributed to the PKI. This event triggered widespread anti-communist purges that resulted in the deaths of an estimated 500,000 to one million people. The jakarta method meaning relates directly to these state-sanctioned killings and the systematic approach to eliminating communist influence in Indonesia.

Political Climate Preceding the Purge

Before the purge, Indonesia was marked by political instability, economic struggles, and increasing polarization between communist and anti-communist factions. The PKI had gained significant political and social foothold, alarming the military and conservative groups. President Sukarno's balancing act between leftist and rightist elements created a fragile equilibrium, which collapsed after the 1965

coup attempt.

jakarta method meaning: *The Jakarta Method* Vincent Bevins, 2020-05-19 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR, THE FINANCIAL TIMES, AND GQ “A radical new history of the United States abroad” (Wall Street Journal) which uncovers U.S. complicity in the mass-killings of left-wing activists in Indonesia, Latin America and around the world In 1965, the US government helped the Indonesian military kill approximately one million innocent civilians—eliminating the largest Communist Party outside China and the Soviet Union and inspiring other copycat terror programs. In this bold and comprehensive new history, Vincent Bevins draws from recently declassified documents, archival research, and eyewitness testimony to reveal a shocking legacy that spans the globe. For decades, it's been believed that the developing world passed peacefully into the US-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington's final triumph in the Cold War.

jakarta method meaning: *Memorializing Violence* Alison Crosby, Heather Evans, 2025-02-11 Memorializing Violence brings together feminist and queer reflections on the transnational lives of memorialization practices, asking what it means to grapple with loss, mourning, grief, and desires to collectively remember and commemorate—as well as urges to forget—in the face of disparate yet entangled experiences of racialized and gendered colonial, imperial, militarized, and state violence. The volume uses a transnational feminist approach to ask, How do such efforts in seemingly unconnected remembrance landscapes speak to, with, and through each other in a world order inflected by colonial, imperial, and neoliberal logics, structures, and strictures? How do these memorializing initiatives not only formulate within but move through complex transnational flows and circuits, and what transpires as they do? What does it mean to inhabit loss, mourning, resistance, and refusal through memorialization at this moment, and what's at stake in doing so? What might transnational feminist analyses of gender, race, sexuality, class, and nation have to offer in this regard?

jakarta method meaning: *Containing decolonisation* Matthew Bowser, 2025-09-02 This book examines British imperialism in late colonial Burma to study how imperialists attempted to protect their strategic and economic interests after decolonisation: they did so by supporting ethnonationalism. This process resembles the Cold War tactic of “containment,” and the book makes a crucial contribution to the study of modern imperialism by demonstrating the continuity between “containment's” late- and “neo”-colonial manifestations. For Burma/Myanmar, it also explores the origin of the present-day military junta's racial regime: it emphasizes the protection of the ethnoreligious majority from ethnic minority insurgency. The Rohingya people are currently suffering a genocide because of this racial regime. As the country endures civil war against the

junta, this book highlights how ethnonationalists in the late colonial period first promoted this racial regime to seize power and prevent revolution, a process supported by British imperialists for their own ends.

This conference has brought academicians, researchers, developers and practitioners around the world. In collaboration with Indonesian Consortium for Religious Studies (ICRS) and Indonesian Institute of Sciences (LIPI), the Agency for Research, Development and Training of the Ministry of Religious Affairs (MoRA) convened bi-annual symposium with the following main theme: "Religious Life, Ethics and Human Dignity in the Disruptive Era". The 3rd ISRL highlighted the role of religion and ethics in the disruptive era that erode human values, civility, and dignity. In the processes of development and technological revolution, religion can play an essential role in providing spiritual, moral, and ethical guidance. In the context of the Covid-19 pandemic, religion is perceived in two ways: on the one hand, some faith communities have been willfully negligent and become 'super-spreaders' of the dangerous virus by defying stay-at-home orders. Yet, on the other hand, religion has also galvanized its adherents to support economically

vulnerable and marginalized communities affected by the lockdown and social restrictions. Likewise, in democratization, religion gives society the necessary dynamic thrust to maintain its vibrancy, resiliency, and sustainability. This Symposium is therefore expected to delve into the complexity of how religion, religious values and faith communities confront the contemporary challenges to uphold ethics and human dignity. We strongly believe that ISRL conference provides a good forum for all academicians, researcher, developers and practitioners to discuss all religious Life, ethics and human dignity. We also expect that the future ISRL conference will be as successful and stimulating, as indicated by the contributions presented in this volume.
