julio gonzalez mentor: Before the Revolution Victoria González-Rivera, 2015-06-17 Those who survived the brutal dictatorship of the Somoza family have tended to portray the rise of the women's movement and feminist activism as part of the overall story of the anti-Somoza resistance. But this depiction of heroic struggle obscures a much more complicated history. As Victoria González-Rivera reveals in this book, some Nicaraguan women expressed early interest in eliminating the tyranny of male domination, and this interest grew into full-fledged campaigns for female suffrage and access to education by the 1880s. By the 1920s a feminist movement had emerged among urban, middle-class women, and it lasted for two more decades until it was eclipsed in the 1950s by a nonfeminist movement of mainly Catholic, urban, middle-class and working-class women who supported the liberal, populist, patron-clientelistic regime of the Somozas in return for the right to vote and various economic, educational, and political opportunities. Counterintuitively, it was actually the Somozas who encouraged women's participation in the public sphere (as long as they remained loyal Somocistas). Their opponents, the Sandinistas and Conservatives, often appealed to women through their maternal identity. What emerges from this fine-grained analysis is a picture of a much more complex political landscape than that portrayed by the simplifying myths of current Nicaraguan historiography, and we can now see why and how the Somoza dictatorship did not endure by dint of fear and compulsion alone.

Cabañas Bravo, 2005 Este libro analiza la vida del pintor Antonio Rodríguez Luna, artista cordobés que reflejó magistralmente en su obra la fisonomía y el dolor del exilio. Su pintura es reflejo del bagaje exportable de un brillante momento artístico español y sus problemas de confrontación y adaptación respecto a otro escenario artístico como auténtica y profunda captación de la esencia y vivencia de un duro y prolongado episodio de nuestra historia. Más que analizar la obra y vida del pintor cordobés, pretenden mostrar el escenario artístico donde éste desarrolló más por extenso su labor y sus condicionantes

julio gonzalez mentor: Being La Dominicana Rachel Afi Quinn, 2021-08-20 Rachel Afi Quinn investigates how visual media portray Dominican women and how women represent themselves in their own creative endeavors in response to existing stereotypes. Delving into the dynamic realities and uniquely racialized gendered experiences of women in Santo Domingo, Quinn reveals the way racial ambiguity and color hierarchy work to shape experiences of identity and subjectivity in the Dominican Republic. She merges analyses of context and interviews with young Dominican women to offer rare insights into a Caribbean society in which the tourist industry and popular media reward, and rely upon, the ability of Dominican women to transform themselves to perform gender, race, and class. Engaging and astute, *Being La Dominicana* reveals the little-studied world of today's young Dominican women and what their personal stories and transnational experiences can tell us about the larger neoliberal world.

Nelson suggests, and its professional staff emerged from an insular set of American-trained economists. The IMF treats countries differently depending on whether that staff trusts the country's top officials; that trust in turn depends on the educational credentials of the policy team that Fund officials face across the negotiating table. Intellectual differences thus lead to lasting economic effects for the citizens of countries seeking IMF support. Based on deep archival research in IMF archives and personnel files, Nelson argues that the IMF has been the Johnny Appleseed of neoliberalism: neoliberal policymakers sprout and take root in countries that have spent recent decades living under the Fund's conditional lending arrangements. Nelson supports his argument through quantitative measures and illustrates the dynamics of relations between the Fund and client countries in a detailed examination of newly available archives of four periods in Argentina's long and often bitter relations with the IMF. *The Currency of Confidence* ends with Nelson's examination of how the IMF emerged from the global financial crisis as an unexpected victor.

julio gonzalez mentor: Artistic Mentoring as a Decolonizing Methodology Kryssi Staikidis, 2020-07-20 To expand the possibilities of "doing arts thinking" from a non-Eurocentric view, *Artistic Mentoring as a Decolonizing Methodology: An Evolving Collaborative Painting Ethnography with Maya Artists* Pedro Rafael González Chavajay and Paula Nicho Cúmez is grounded in Indigenous perspectives on arts practice, arts research, and art education. Mentored in painting for eighteen years by two Guatemalan Maya artists, Kryssi Staikidis, a North American painter and art education professor, uses both Indigenous and decolonizing methodologies, which involve respectful collaboration, and continuously reexamines her positions as student, artist, and ethnographer searching to redefine and transform the roles of the artist as mentor, historian/activist, ethnographer, and teacher. The primary purpose of the book is to illuminate the Maya artists as mentors, the collaborative and holistic processes underlying their painting, and the teaching and insights from their studios. These include Imagined Realism, a process excluding rendering from observation, and the fusion of pedagogy and curriculum into a holistic paradigm of decentralized teaching, negotiated curriculum, personal and cultural narrative as thematic content, and the surrounding visual culture and community as text. The Maya artist as cultural historian creates paintings as platforms of protest and vehicles of cultural transmission, for example, genocide witnessed in paintings as historical evidence. The mentored artist as ethnographer cedes the traditional ethnographic authority of the colonizing stance to the Indigenous expert as partner and mentor, and under this mentorship analyzes its possibilities as decolonizing arts-based qualitative

inquiry. For the teacher, Maya world views broaden and integrate arts practice and arts research, inaugurating possibilities to transform arts education.

julio gonzalez mentor: Working Identity Herminia Ibarra, 2004-01-05 How Successful Career Changers Turn Fantasy into Reality Whether as a daydream or a spoken desire, nearly all of us have entertained the notion of reinventing ourselves. Feeling unfulfilled, burned out, or just plain unhappy with what we're doing, we long to make that leap into the unknown. But we also hold on, white-knuckled, to the years of time and effort we've invested in our current profession. In this powerful book, Herminia Ibarra presents a new model for career reinvention that flies in the face of everything we've learned from career experts. While common wisdom holds that we must first know what we want to do before we can act, Ibarra argues that this advice is backward. Knowing, she says, is the result of doing and experimenting. Career transition is not a straight path toward some predetermined identity, but a crooked journey along which we try on a host of possible selves we might become. Based on her in-depth research on professionals and managers in transition, Ibarra outlines an active process of career reinvention that leverages three ways of working identity: experimenting with new professional activities, interacting in new networks of people, and making sense of what is happening to us in light of emerging possibilities. Through engrossing stories—from a literature professor turned stockbroker to an investment banker turned novelist—Ibarra reveals a set of guidelines that all successful reinventions share. She explores specific ways that hopeful career changers of any background can: Explore possible selves Craft and execute identity experiments Create small wins that keep momentum going Survive the rocky period between career identities Connect with role models and mentors who can ease the transition Make time for reflection—without missing out on windows of opportunity Decide when to abandon the old path in order to follow the new Arrange new events into a coherent story of who we are becoming A call to the dreamer in each of us, Working Identity explores the process for crafting a more fulfilling future. Where we end up may surprise us.

julio gonzalez mentor: The Cursillo Movement in America Kristy Nabhan-Warren, 2013

The internationally growing Cursillo movement, or short course in Christianity, founded in 1944 by Spanish Catholic lay practitioners, has become popular among American Catholics and Protestants alike. This lay-led weekend experience helps participants recommit to and live their faith. Emphasizing how American Christians have privileged the individual religious experience and downplayed denominational and theological differences in favor of a common identity as renewed people of faith, Kristy Nabhan-Warren focuses on cursillistas -- those who have completed a Cursillo weekend -- to show how their experiences are a touchstone for understanding these trends in post-1960s American Christianity. Drawing on extensive ethnographic fieldwork as well as historical research, Nabhan-Warren shows the importance of Latino Catholics in the spread of the Cursillo movement. Cursillistas' stories, she argues, guide us toward a new understanding of contemporary Christian identities, inside and outside U.S. borders, and of the importance of globalizing American religious boundaries.

An essential account of America's greatest sculptor . . . [A] magnum opus. —Marjorie Perloff, The Times Literary Supplement David Smith: The Art and Life of a Transformational Sculptor is the first comprehensive biography of the visionary artist who revolutionized American sculpture. Michael Brenson traces Smith's journey from his Midwestern roots to his groundbreaking early years in Manhattan and his permanent studio in upstate New York, where he created iconic works like the Cubis, Tanktotems, and Zigs. Brenson explores Smith's complex personal life, marked by deep friendships with fellow artists like Helen Frankenthaler and Robert Motherwell, as well as marriages, divorces, and fallings-out. He delves into the enormous, contradictory vitality that defined both Smith and his work, capturing the essence of an artist who entranced critics and admirers wherever he exhibited. A master welder, painter, photographer, and writer, Smith challenged the stability of identity and position in his art, seeking out the unbounded, unbalanced, and unexpected. By age forty, he had already earned the accolade of the greatest sculptor this country has produced from influential critic Clement Greenberg. With this definitive biography, Brenson confirms Smith's singular place in the history of American art and introduces his transformative vision to a new generation.
