katherine knight real story: Man-Eater: The Terrifying True Story of Cannibal Killer Katherine Knight Ryan Green, 2019-01-21 On 29th February 2000, John Price took out a restraining order against his girlfriend, Katherine Knight. Later that day, he told his co-workers that she had stabbed him and if he were ever to go missing, it was because Knight had killed him. The next day, Price didn't show up for work. A co-worker was sent to check on him. They found a bloody handprint by the front door and they immediately contacted the police. The local police force was not prepared for the chilling scene they were about to encounter. Price's body was found in a chair,

legs crossed, with a bottle of lemonade under his arm. He'd been decapitated and skinned. The skin-suit was hanging from a meat hook in the living room and his head was found in the kitchen, in a pot of vegetables that was still warm. There were two plates on the dining table, each had the name of one of Price's children on it. She was attempting to serve his body parts to his children. *Man-Eater* is a dramatic and gripping account of the first woman in Australia to be given a life sentence without parole and a special addendum 'never to be released'. Born October 24th, 1955, she has the distinction of being the first Australian woman to be sentenced to life without the possibility of parole when she murdered her de facto husband John Charles Thomas Price, born 6 January 1955, in Aberdeen, New South Wales, Australia. The murder itself is not necessarily the stuff of horror films or nightmares with extreme heinousness even though Knight did, in fact, stab Price 37 times. Knight's subsequent defilement of Price's body following the murder was extremely atrocious and, as such, was the fundamental reason she received a life without parole sentence. So heinous, in fact that her file is marked never to be released.

katherine knight real story: The Real Thing Miles Orvell, 2014-08-25 In this classic study of the relationship between technology and culture, Miles Orvell demonstrates that the roots of contemporary popular culture reach back to the Victorian era, when mechanical replications of familiar objects reigned supreme and realism dominated artistic representation. Reacting against this genteel culture of imitation, a number of artists and intellectuals at the turn of the century were inspired by the machine to create more authentic works of art that were themselves real things. The resulting tension between a culture of imitation and a culture of authenticity, argues Orvell, has become a defining category in our culture. The twenty-fifth anniversary edition includes a new preface by the author, looking back on the late twentieth century and assessing tensions between imitation and authenticity in the context of our digital age. Considering material culture, photography, and literature, the book touches on influential figures such as writers Walt Whitman, Henry James, John Dos Passos, and James Agee; photographers Alfred Stieglitz, Walker Evans, and Margaret Bourke-White; and architect-designers Gustav Stickley and Frank Lloyd Wright.
