Before becoming the world's most notorious dictator, Kim Jong-Il ran North Korea's Ministry for Propaganda and its film studios. Underwhelmed by the talent pool available to him, he took drastic steps, ordering the kidnapping of Choi Eun-Hee (Madam Choi)—South Korea's most famous actress—and her ex-husband Shin Sang-Ok, the country's most famous filmmaker. When Madam Choi vanished, Shin went to Hong Kong to investigate—where he, too, was abducted. While Choi lived in isolated luxury, Choi was sent to a prison camp and re-educated. When the couple was reunited, it was announced that they would remarry and act as the Dear Leader's film advisors. Together they made seven films, gaining Kim Jong-Il's trust in the process. While pretending to research a film in Vienna, they flee to the US embassy and are swept to safety. A nonfiction thriller packed with tension, passion, and politics, *A Kim Jong-Il Production* offers a rare glimpse into a secretive world, illuminating a fascinating chapter of North Korea's history that helps explain how it became the hermetically sealed, intensely stage-managed country it is today.

kang shin il films: *Kang Woo-suk* Tong-jin O, 2008 Kang Woo-suk has consistently performed the background role of a man of power in Korean film for the last ten years. He has made only 16 films since his debut as a director in 1988, but for the more than ten years since 1997 he has been in charge of investment, planning or production for no fewer than 120 films. In spite of this, Kang's name remains an unfamiliar one to the overseas film world. But his films have succeeded in capturing the rapidly changing Korean social and political situation of the last 20 years in a distinctive style; to be specific, a style of popular speech through satire and humor. Looking at Kang's films in sequence, one can grasp the twists and turns of the history of Korean capitalism. kang shin il films: The Changing Face of Korean Cinema Brian Yecies, Aegyung Shim, 2015-12-22 The rapid development of Korean cinema during the decades of the 1960s and 2000s reveals a dynamic cinematic history which runs parallel to the nation's political, social, economic and cultural transformation during these formative periods. This book examines the ways in which South Korean cinema has undergone a transformation from an antiquated local industry in the 1960s into a thriving international cinema in the 21st century. It investigates the circumstances that allowed these two eras to emerge as creative watersheds, and demonstrates the forces behind Korea's positioning of itself as an important contributor to regional and global culture, and especially its interplay with Japan, Greater China, and the United States. Beginning with an explanation of the understudied operations of the film industry during its 1960s take-off, it then offers insight into the challenges that producers, directors, and policy makers faced in the 1970s and 1980s during the most volatile part of Park Chung-hee's authoritarian rule and the subsequent Chun Doo-hwan military government. It moves on to explore the film industry's professionalization in the 1990s and subsequent international expansion in the 2000s. In doing so, it explores the nexus and tensions between film policy, producing, directing, genre, and the internationalization of Korean cinema over half a century. By highlighting the recent transnational turn in national cinemas, this book underscores the impact of developments pioneered by Korean cinema on the transformation of 'Planet Hallyuwood'. It will be of particular interest to students and scholars of Korean Studies and Film Studies.

kang shin il films: Movie Migrations Hye Seung Chung, David Scott Diffrient, 2015-07-06 As the two billion YouTube views for "Gangnam Style" would indicate, South Korean popular culture has begun to enjoy new prominence on the global stage. Yet, as this timely new study reveals, the nation's film industry has long been a hub for transnational exchange, producing movies that put a unique spin on familiar genres, while influencing world cinema from Hollywood to Bollywood. *Movie Migrations* is not only an introduction to one of the world's most vibrant national cinemas, but also a provocative call to reimagine the very concepts of "national cinemas" and "film genre." Challenging traditional critical assumptions that place Hollywood at the center of genre production, Hye Seung Chung and David Scott Diffrient bring South Korean cinema to the forefront of recent and ongoing debates about globalization and transnationalism. In each chapter they track a different way that South Korean filmmakers have adapted material from foreign sources, resulting in everything from the Manchurian Western to *The Host's* reinvention of the Godzilla mythos. Spanning a wide range of genres, the book introduces readers to classics from the 1950s and 1960s Golden Age of South Korean cinema, while offering fresh perspectives on recent favorites like *Oldboy* and *Thirst*. Perfect not only for fans of Korean film, but for anyone curious about media in an era of globalization, *Movie Migrations* will give readers a new appreciation for the creative act of cross-cultural adaptation.
