book teaches the power of invitation. It may sound simple, but we are so caught up in our busy church lives that we have missed it. In 2004 Michael Harvey gave up a high-flying job in the City of London to teach church leaders to see new possibilities, using an approach that has quickly become established as Back to Church Sunday. Michael likes to challenge churches of all sizes to double their congregation in a day. In 2009 at least 80,000 new people came to church in Britain through this approach, with around 10,000 becoming new believers. The basics are simple: Invite your friends, and become an inviting church. Develop a mind-set open to what God might do; work on creating a welcoming environment; learn from mistakes; help people to know God. -It takes a very brave person to walk into a church on their own nowadays,- says Michael, -but God is still speaking to them and all they need is a gentle invitation.-

jim rohn audio: Escape The UK Dave James, 2025-01-28 If you are living in the UK and want to escape the dystopia, this book could completely change your life. I have no idea when they will try the next Plandemic or ridiculous climate change lock downs but at the time of writing January 2025, you still have a chance to get out of the UK and start a new life abroad. I have lived in and out of Thailand for about thirty years and have now lived here permanently for ten years. I built a swimming pool resort with a few bungalows and have a wealth of experience in all aspects of dealing with Thai's and living in Thailand. There are several ways to escape, from young people getting a job teaching English or starting a business, to meeting and marrying a Thai native. And if you are struggling to survive on a pension in the UK, then there are far better options over here. Read on and see if any of my suggestions fit in with your needs and desires. I have priced this book at the lowest possible level on Amazon (£1.77 or free on KDP) as I'm not interested in becoming a best seller and to be perfectly honest, I don't need the money as I live in paradise and have zero debt. I simply cannot believe that our politicians have sold us out and failed to stop the millions of migrants pouring into the country and they should all be tried for treason. House prices and rent are now at crazy levels and in my opinion, the UK is finished. Thousands of millionaires have already left, and millions of ordinary people have now woken up and looking at leaving as well. Just type into YouTube (Leaving the UK) and you will find hundreds of videos of people that have already left or in the process. I have now included a follow up book (February 2025) which is an extra 8700 words and all about the How to of leaving the UK and finding a job or business abroad at no extra charge.

Sample Book Insights: #1 Our personal philosophy is formed from what we know and the process of how we came to know all that we currently know. We are constantly in the process of checking our preexisting beliefs for accuracy or confirmation in the light of new information. #2 The way we choose to set our sail determines where we end up. The major difference between those who achieve their goals and those who do not is their personal philosophy. If we can develop a strong personal philosophy that helps us navigate life's challenges, we can change the course of our income, bank account, lifestyle, and relationships. #3 The learning process plays a major role in determining our personal philosophy. We can't live without the information that surrounds us making an impact on how we think. The only way to eliminate these mental barriers is to review, refine, and revise our personal philosophy. #4 The only way to change our thinking habits is to input new information. We must get the information that success and happiness require, and we must get it accurately. Otherwise, we will inevitably drift into ignorance, becoming deluded by our power, prestige, and possessions.
