The following sections provide a comprehensive overview of the interview and its role in the broader context of the case.

- Background of Katherine Knight
- Details of the Police Interview
- Interview Techniques and Strategies
- Psychological Insights from the Interview
- Legal Impact of the Police Interview
- Public and Media Reaction

Background of Katherine Knight

Katherine Knight is infamous in Australian criminal history for her brutal and gruesome crimes, particularly the murder of her partner, John Price, in 2000. Prior to the police interview, Knight had a history of violent behavior and domestic abuse, which contributed to the complexity of her case. Understanding her background is essential to contextualize the police interview and the responses she provided. Knight's violent tendencies and psychological state were well documented by law enforcement and mental health professionals before her arrest. The police interview marked a pivotal moment in uncovering the extent of her actions and motives.

Early Life and Criminal History

Katherine Knight's early life was marked by traumatic experiences and behavioral problems that foreshadowed her later violent actions. Reports indicated a troubled upbringing with exposure to violence and abuse. Before the fateful incident leading to the police interview, Knight had multiple run-ins with the law, including charges related to assault and intimidation. This history played a crucial role during the interview as police sought to understand the escalation in her violent behavior.

The Crime Leading to the Interview

The police interview took place after Knight was apprehended following the murder of her partner, which shocked the Australian public due to its extreme nature. The crime scene was one of

katherine knight police interview: *Peaky Blinders: The Aftermath: The real story behind the next generation of British gangsters* Carl Chinn, 2021-10-14 From the Sunday Times bestselling author, Carl Chinn As Britain emerges into the mid-twentieth century, change is afoot. Cities are beginning to shift from smog-filled industrial hubs to more efficient metropolitan centres of commerce and, despite the country once again being blighted by war, society is beginning to shift towards a more modern, forward-thinking era. But change is not only limited to regular men and women; under the shifting tides of development, the criminal underbelly, too, is evolving, anxious for new avenues of exploitation and expansion . . . And so, in the third instalment of his best-selling series, historian Carl Chinn examines this new era in the landscape of Britain's gangs. After the violent reign of the Peaky Blinders, the intimidation of the Birmingham gang and frequent gang wars up and down the country, from the wreckage new groups are emerging with new ways of making money and causing trouble, and, like those who came before them, they leave havoc and destruction in their wake. *Peaky Blinders: The Aftermath* will bring this new generation of criminals into focus. And up and down the length of the country, from the dog tracks to the pubs of the East End, it delves into the murky world of the country's most villainous criminals.

katherine knight police interview: *From the Mouths of Dogs* B. J. Hollars, 2015-11-01 What is it that dogs have done to earn the title of man's best friend? And more broadly, how have all of our furry, feathered, and four-legged brethren managed to enrich our lives? Why do we love them? What can we learn from them? And why is it so difficult to say good-bye? Join B.J. Hollars as he attempts to find out--beginning with an ancient dog cemetery in Ashkelon, Israel, and moving to the present day.

Hollars's firsthand reports recount a range of stories: the arduous existence of a shelter officer, a woman's relentless attempt to found a senior-dog adoption facility, a family's struggle to create a one-of-a-kind orthotic for its bulldog, and the particular bond between a blind woman and her Seeing Eye dog. The book culminates with Hollars's own cross-country journey to Hartsdale Pet Cemetery--the country's largest and oldest pet cemetery--to begin the long-overdue process of laying his own childhood dog to rest. Through these stories, Hollars reveals much about our pets but even more about the humans who share their lives, providing a much-needed reminder that the world would be a better place if we took a few cues from man's best friends.

katherine knight police interview: The National Guard and the War on Terror Michael Dale Doubler, 2006

katherine knight police interview: Peaky Blinders - The Real Story of Birmingham's most notorious gangs Carl Chinn, 2019-09-19 THE SUNDAY TIMES BESTSELLER The Peaky Blinders as we know them, thanks to the hit TV series, are infused with drama and dread. Fashionably dressed, the charismatic but deeply flawed Shelby family blind enemies by slashing them with the disposable safety razor blades stitched in to the peaks of their flat caps, as they fight bloody gangland wars involving Irish terrorists and the authorities led by a devious Home Secretary, Winston Churchill. But who were the real Peaky Blinders? Did they really exist? Well-known social historian, broadcaster and author, Carl Chinn, has spent decades searching them out. Now he reveals the true story of the notorious Peaky Blinders, one of whom was his own great grandfather and, like the Shelbys, his grandfather was an illegal bookmaker in back-street Birmingham. In this gripping social history, Chinn shines a light on the rarely reported struggles of the working class in one of the great cities of the British Empire before the First World War. The story continues after 1918 as some Peaky Blinders transformed into the infamous Birmingham Gang. Led by the real Billy Kimber, they fought a bloody war with the London gangsters Darby Sabini and Alfie Solomon over valuable protection rackets extorting money from bookmakers across the booming postwar racecourses of Britain. Drawing together a remarkably wide-range of original sources, including rarely seen images of real Peaky Blinders and interviews with relatives of the 1920s gangsters, *Peaky Blinders: The Real Story* adds a new dimension to the true history of Birmingham's underworld and fact behind its fiction.

katherine knight police interview: Murder in the Suburbs Emily Webb, 2025-07-29 Shocking True Crimes can happen in Your Street. From acclaimed true crime author and podcaster Emily Webb comes a gripping collection of chilling cases from Australia and beyond. This volume delves into both well-known and obscure crimes, revealing the dark underbelly lurking beneath seemingly peaceful neighbourhoods. In 1977, the murder of an Australian nurse living in Texas shocked the community and remains unsolved to this day. In 1950, the disappearance of a Melbourne woman led to the largest search of its time, only for her husband to later confess to disposing of her body under dubious circumstances. The book also examines decades of baby abductions from hospitals, suburban homes, and public streets, highlighting the vulnerability of the most innocent among us. The still-unsolved murder of elderly gentleman grocer Frank Newbery in Newcastle serves as a chilling reminder of the darkness that can lurk in the most familiar places. In the 1950s, a cricket match in suburban Adelaide turned into a scene of terror when a gunman opened fire, fatally shooting one player and injuring another. In 1973, during a bustling football game at Adelaide Oval, 11-year-old Joanne Ratcliffe and 4-year-old Kirste Gordon vanished without a trace, their disappearances haunting the community to this day *Murder in the Suburbs* is a compelling reminder that even the most tranquil street can harbor dark secrets. These true accounts will leave you questioning the safety of the world just outside your door. PRAISE FOR EMILY WEBB Suburban True Crime is a cracking read. It's full of suspense and mystery — but not of the Hollywood variety — instead Emily Webb writes about our streets and suburbs. - The AU Review Webb certainly whets the appetite for more reading around these cases ... A solid addition to any true crime lover's bookshelf. - GLAM Her telling of a range of tales reads as factual, careful and very considered ... That doesn't mean that she shies away from explaining what happened to many of these victims, it,

fortunately, lacks the sensationalism that can sometimes be found in these sorts of accounts. – AustralianCrimeFiction.org

katherine knight police interview: *Peaky Blinders* Carl Chinn, 2022-06-01 Ils sont tous là : Billy Kimber, Darby Sabini et Alfie Solomons Les Peaky Blinders, le gang de Birmingham, sont devenus célèbres dans le monde entier depuis que leur histoire a été romancée dans une série télévisée. Carl Chinn n'est pas un simple historien. Il descend d'un Peaky Blinders et est le fils d'un bookmaker illégal. Partant de la série et de ses scènes culte, il rétablit la vérité historique. Les Peaky Blinders cousaient-ils vraiment des lames de rasoir dans la visière de leur casquette ? Et, d'ailleurs, portaient-ils réellement ces casquettes emblématiques ? Quand ont-ils sévi ? Et qu'est-ce qui explique leur disparition si rapide alors même que leur réputation est restée intacte ? L'auteur engage aussi une réflexion sur la violence qui a embrasé la ville ouvrière de Birmingham à la fin du XIX^e siècle. Une réflexion qui résonne étrangement avec l'actualité. Dans une société où les classes populaires se sentent démunies, elles font de la rue leur domaine. La loyauté à l'égard des quartiers les conduit à devenir rivales, à s'affronter et mène inexorablement à la violence. Pourtant, la population qui soutenait tacitement les Peaky Blinders a fini par basculer du côté de la police, avant même que la Première Guerre mondiale ne mette un terme aux agissements du gang. Entre fiction et réalité, entre petite et grande histoire : voici un livre épique et saisissant.

katherine knight police interview: *83 Minutes* Matt Richards, Mark Langthorne, 2016-06-21 A definitive look at Michael Jackson's final minutes, revealing for the first time the shocking details behind the tragic death of one of the world's biggest pop stars. On June 25th, 2009, the world was rocked by the tragic news that Michael Jackson—the biggest and most influential music icon since Elvis Presley—had died. He was only 50 years old when paramedics pronounced him dead on arrival at a Los Angeles hospital. For weeks after his death, speculation and rumor abounded concerning the drugs in Jackson's system and the role Conrad Murray, the singer's personal physician, had played in his death. In 2011, Murray was tried and convicted of involuntary manslaughter, for which he served two years in prison. Now, for the first time, readers have access to a comprehensive and truly horrifying account of the crucial moments leading up to Jackson's demise. Drawing on court documents and testimonials, *83 Minutes* presents a multi-perspective tracking of every individual involved and the part they played as the tragedy unfolded, examining forensically the mystery of the 83 minutes that elapsed from the moment Dr. Murray suggested he found Jackson not breathing to the moment the singer's lifeless body was wheeled into hospital. Evenhanded and unbiased, Matt Richards and Mark Langthorne's account is rich with detail, including the specific cocktail of drugs employed in an attempt to keep Jackson alive and the harrowing conditions in which the troubled genius's life ended. Included as well is the story of the legal struggle for control of Jackson's assets that followed his death where Richards and Langthorne report that "the combined earnings of Jay Z, Taylor Swift, and Kanye West since Michael Jackson died come nowhere near the revenues Jackson has earned for his estate after his death." Written with documentary flair, this powerful and compelling book is already emerging as the definitive account of one of the darkest hours in music history.

katherine knight police interview: *Hispanic and Luso-Brazilian Detective Fiction* Renée W. Craig-Odders, Jacky Collins, Glen S. Close, 2006-03-20 The image of the hard-boiled private investigator from gritty pulp fiction, a terse and mysterious figure, has become increasingly universal as the detective novel crosses more and more borders. A booming genre in Latin America, Spain and other Hispanic cultures, detective fiction has transcended the limitations of its influences. Hispanic authors relatively new to the genre have published novels and series popular with the public, while a number of well-known writers have adapted the genre to reflect the concurrent globalization of modern society and the crimes within it. This volume presents a compilation of 11 critical essays on negro-contemporary detective fiction in the Hispanic and Luso-Brazilian canon. Surveying the last twenty years, the text analyzes emerging trends in this rapidly evolving genre, as well as the mutations and innovations taking place within the style. The first section of the book is dedicated to the detective fiction of Spain and Portugal. The second section surveys works

from Latin America and the United States, where topics touch on universal subjects like crime, identity and feminism.

katherine knight police interview: In the Name of Security Secrecy, Surveillance and Journalism Johan Lidberg, Denis Muller, 2018-05-15 The terrorist attacks on the World Trade Center in New York on 11 September 2001 saw the start of the so-called war on terror. The aim of 'In the Name of Security - Secrecy, Surveillance and Journalism' is to assess the impact of surveillance and other security measures on in-depth public interest journalism. How has the global fear-driven security paradigm sparked by 11 September affected journalism? At the core of the book sits what the authors have labeled the 'trust us dilemma'. Governments justify passing, at times, oppressive and far-reaching anti-terror laws to keep citizens safe from terror. By doing so governments are asking the public to trust their good intentions and the integrity of the security agencies. But how can the public decide to trust the government and its agencies if it does not have access to information on which to base its decision? 'In the Name of Security - Secrecy, Surveillance and Journalism' takes an internationally comparative approach using case studies from the powerful intelligence-sharing group known as the Five Eyes consisting of the US, Canada, the UK, Australia and New Zealand. Chapters assessing a selection of EU countries and some of the BRICS countries provide additional and important points of comparison to the English-speaking countries that make up the Five Eyes.

katherine knight police interview: Becoming Jack Nicholson Shaun R. Karli, 2012-11-02

One of the most celebrated figures in the world of cinema, Jack Nicholson has appeared in more than fifty films, stamping each with his larger-than-life presence. Because Nicholson brought a set of traits and attitudes with him to his roles that the actor and filmmakers variously inflected, audiences associated certain characteristics with his screen identity. At times his rebelliousness was celebrated as an act of self-expression against an oppressive system (Five Easy Pieces, The Passenger, One Flew Over the Cuckoo's Nest), and at others it was revealed as an absurd masculine fantasy (The Last Detail, Chinatown, and The Shining). In each, the actor embodies an inherent tension between a desire to make authentic choices and a pressure to conform to societal expectations of manly behavior. In Becoming Jack Nicholson: The Masculine Persona from Easy Rider to The Shining, Shaun Karli looks at the actor's on-screen presence in eight key films between 1969 and 1980. Karli explores how in each of these films, the actor and the filmmakers played upon audience expectations of "Jack Nicholson" to challenge prevailing attitudes about masculinity and power. Focusing on the actor's image in a string of counterculture films that spanned the 1970s, Karli argues that audiences created a composite understanding of the Nicholson persona in these movies. Examining both the actor and the on-screen version of the Nicholson character, this book offers a fascinating look at one of the major screen figures of the past forty years. Becoming Jack Nicholson will appeal to scholars of cinema, but also to those interested in gender studies, American studies, and sociology.

katherine knight police interview: The Cool Gent Herb Kent, David Smallwood, Mayor Richard M. Daley, 2009-02-01 When Herb Kent was a straight-A college student in the 1940s, his white professor told him, "You have the best voice in class, but you'll never make it in radio because you're a Negro." This did not deter the poor kid from the Chicago housing projects who had decided on a radio career at age five. It was just one more obstacle to face head on and overcome. Known as the Cool Gent, the King of the Dusties, and the Mayor of Bronzeville, Herb Kent is one of radio's most illustrious and legendary stars. This fascinating autobiography details both the high and low points of Herb's life while providing a vivid picture of black music, culture, and personalities from

the 1950s to today. Herb had a typical rock-and-roll lifestyle—drugs, alcohol, all-night partying, and women—eventually hitting rock bottom, where he finally faced his personal demons. At least nine times Herb came close to death, but through it all, he maintained his debonair, classy persona and his uncanny knack for picking timeless tunes. And he didn't save only himself; along the way, he blazed new trails for all African Americans and remains a role model for today's top deejays.
