Relying on unemployment numbers is a dangerous way to gauge how the labor market is doing. Because of a false sense of optimism prior to the COVID-19 shock, the working world was more vulnerable than it should have been. *Not Working* is about how people want full-time work at a decent wage and how the plight of the underemployed contributes to widespread despair, a worsening drug epidemic, and the unchecked rise of right-wing populism. David Blanchflower explains why the economy since the Great Recession is vastly different from what came before, and calls out our leaders for their continued failure to address one of the most unacknowledged social catastrophes of our time. This revelatory and outspoken book is his candid report on how the young and the less skilled are among the worst casualties of underemployment, how immigrants are taking the blame, and how the epidemic of unhappiness and self-destruction will continue to spread unless we deal with it. Especially urgent now, *Not Working* is an essential guide to strengthening the labor market for all when we need it most.

kai ryssdal npr: *Old Words for a New World* Walter Brueggemann, 2025 Walter Brueggemann has been so effective for so long precisely because he has consistently called upon the

church to see beyond the taken-for-granted realities it confronts by imagining God's alternative reality; to recognize that the bars of its entrapment were social constructs and could just as easily be deconstructed so we could be once again enchanted by God's good news. To challenge the taken-for-granted reality of the church and to imagine an alternative reality, Brueggemann consistently takes us back to the biblical text. He moves between a description of the reality that appears in front of the church and the alternative that God is preparing for God's people that begins now and moves into God's eschatological future. In so doing Brueggemann seeks to unleash the power of God's words to create a new world--here and now.

kai ryssdal npr: Never Enough Time Donna Schaper, 2018-04-27 Most of us struggle with the "time famine"—the pervasive feeling of never having enough time. Whether we work three jobs or none, have many children or none, or live in a huge city or a small town, most of us have the feeling there is always more to do than we're able, more time required than we can give. In *Never Enough Time*, Rev. Donna Schaper helps us think through the practical and spiritual elements of the time famine and helps us instead aim for a feast. Schaper's advice centers around our mind-set—understanding both the structural and personal reasons we feel so pressed, clarifying what's important to us or not, and setting realistic expectations, while enriching the time we have. The book goes beyond the idea of "Sabbath keeping" to offer suggestions for all parts of life—particularly the busy moments. Schaper draws on her years ministering to people across all walks of life to show that the time famine cuts across race, class, and gender lines to touch almost everyone. She offers practical and spiritual suggestions that won't magically give us more time, but can help us live better with the time we have.

kai ryssdal npr: Bring Yourself Mori Taheripour, 2020-03-24 A look at how relationships can drive successful negotiation, from an award-winning faculty member at the Wharton School of Business. Contrary to conventional wisdom about what makes a good negotiator - namely, being aggressive and unemotional - in *Bring Yourself*, Taheripour offers a radically different perspective. In her own life, and in her more than 15 years of experience teaching negotiation, she's found that the best negotiators are empathetic, curious, and present. The essence of bargaining isn't the transaction, but the conversation and human connection. It is when we bring our whole, authentic selves to the table that we can advocate for ourselves fearlessly and find creative solutions that benefit everyone. Taheripour has seen the power of this mindset shift firsthand. In her consulting, her classes at Wharton, and in her work teaching negotiation for the Goldman Sachs 10,000 Small Businesses program, her students and clients experience personal breakthroughs as they face the fears and false narratives that held them back. *Bring Yourself* explains how our pressure points, personal experience, and even our cultural expectations can become roadblocks to finding common

ground, and it offers essential strategies to move beyond them and open our minds. Taheripour argues that regardless of our own perceived ability to negotiate, we must have the courage to engage because bargaining plays a crucial role in every aspect of our lives. We negotiate boundaries with our parents and partners, bedtimes with our kids, and even with ourselves every time we make a pros and cons list to weigh a major decision. Negotiation is how we problem solve and how we find our voice. With eye-opening and empowering stories throughout, *Bring Yourself* helps readers gain the confidence they need to achieve their goals in work and in life. Timely and provocative, this paradigm-shifting book can transform our world and the way we work together.

kai ryssdal npr: Respect for Teachers Brian Ford, 2012-12-27 For over 30 years we have been in the midst of a paradox. Following a questionable logic that sees education as a means to economic

ends, efforts to reform education have focused on keeping the US from slipping in international economic competition. Relying on testing as a standard, in the end we may have decreased our human potential and become less competitive. Our system has gotten worse at its core, in its philosophical tenets and in its ultimate effects, by placing unwonted pressure on our youth and in stifling their creativity. While this goes back decades, Respect for Teachers takes its title from a phrase --perhaps a codeword-- in President's 2011 State of the Union address and sits down to consider its implications. Connecting attacks on teachers, unions and schools and the misrepresentation of research to the promotion of new economic models in education, it suggests that the Obama administration may be, without quite realizing it, setting the stage for rapid privatization of the public system. As this endangers the egalitarian basis of democracy, it also reminds us that schooling is big business - many trillions of dollars world-wide. Joseph Schumpeter once said, "No bourgeoisie ever disliked war profits." Respect operates under the premise that no bourgeoisie ever disliked the spoils of school reform, either.

kai ryssdal npr: *Fall for Him* Andie Burke, 2024-09-03 In *Fall for Him* by Andie Burke, seven-hundred-fifty square feet isn't enough for the home-renovation-fueled hatred and the building sexual tension. Dylan Gallagher's hot neighbor loathed him from the second he moved in, and causing a flood, falling through the floor, and landing directly onto that same neighbor's bed probably means that's unlikely to change. The poorly timed "It's Raining Men" joke didn't help. Meanwhile, ER nurse Derek Chang's life is a literal when-rains-it-pours nightmare. A man he hates dropped into his life along with an astronomically expensive problem originating from Derek's own apartment's plumbing. Also, the local HOA tyrant has been sniffing around trying to fine him for his extended, illicit banned breed dog-sitting. Since Dylan also wants to keep the catastrophe quiet, he offers to fix the damage himself. Dylan's sure he's not Derek's type, so he focuses all his ADHD hyper fixation energy on getting the repair job done as quickly as possible—avoiding doing anything stupid like acting on his very inconvenient crush. Meanwhile Derek tries to ignore that the tattooed nerd sleeping on the couch is surprisingly witty, smart, and kind, despite the long-term grudge Derek's been holding against him. But will squeezing all their emotional baggage plus a dog into a tiny one-bedroom apartment be a major disaster...or just prove they're made for each other? *Fall for Him* combines banter, hijinks, and heart in a story of finding out what it means to fix things after your life crumbles.

kai ryssdal npr: *Getting Laid (Off)* Rodney Curtis, 2013-11-15 Nothing stops *The Spiritual Wanderer*, as Rodney Curtis is known to readers far and wide from the title of his first humorous book about the many quirky challenges of life in America. Then, suddenly his life went from quirky to terrifying as he was hit with a double whammy: a layoff notice and a diagnosis of cancer. Many would have folded under the pressure, but Rodney's approach to life remains undimmed. As he says in his introduction, he keeps laughing in the face of fear. Apparently, it works. He tackled cancer in his earlier book, *A 'Cute' Leukemia*, and now Rodney turns the full force of his relentlessly wacky vision on the challenges millions face in unemployment. He tells this true story through words and images—as well as audio and video you'll enjoy through easy links in these pages. Here's an example: As the story opens in Chapter 1, "I knew things weren't good at my company when they closed down half the bathrooms in our building. The economy was going down the toilet, but we sure weren't." Then, as fear battles hope in the opening pages, a link offers Rodney's recommended soundtrack for that chapter: a song from a popular movie that's just a web link away and, soon, your toes will be tapping as you read. You'll get hooked on the multi-media counterpoints and, when you're done, you'll be asking yourself: Why doesn't every book have a soundtrack and movie clips? In the end, you'll be glad that nothing stops Rodney Curtis—and that you can join him in this adventure. His high spirits are strong enough to lift yours, too.

Basta con echar mano de la empatía, el autoconocimiento y la inteligencia emocional. a cultura popular nos ha dejado una imagen estereotípica del gran negociador: un tipo arrogante, agresivo, escandaloso y sin emociones que busca ganar a toda costa y no acepta un no como

respuesta. Sin embargo, como afirma Mori Taheripour, los más eficientes son en realidad personas empáticas, curiosas y perceptivas, que están conscientes de su entorno y son capaces de entablar relaciones duraderas de cooperación. A partir de su experiencia de casi dos décadas en la enseñanza de técnicas de negociación, la autora revela que la esencia de esta disciplina no está en las transacciones mismas, sino en la conversación y la conexión humana. Ya se trate de establecer los términos de un trato comercial, el sueldo y prestaciones de un empleo, los límites de una relación de pareja, la hora de dormir de nuestros hijos o hasta los pros y contras que negociamos con nosotros mismos antes de tomar grandes decisiones, Esto es personal nos ayudará a desarrollar la confianza para defender nuestra postura, ganarnos a nuestro interlocutor y cumplir nuestras metas en el trabajo y la vida cotidiana. Un libro pertinente y provocador que busca cambiar la manera en que colaboramos y alcanzamos acuerdos en comunidad.

In The Passion Economy Adam Davidson upends the conventional thinking about how to succeed in our topsy-turvy, seemingly unforgiving post-industrial economy by sharing the stories of regular people who followed their dreams' William D. Cohan, author of House of Cards The brilliant creator of NPR's Planet Money podcast and award-winning New Yorker staff writer explains our current economy: laying out its internal logic and revealing the transformative hope it offers for millions of people to thrive as they never have before. Contrary to what you may have heard, the middle class is not dying and robots are not stealing our jobs. In fact, writes Adam Davidson--one of our leading public voices on economic issues-- the twenty-first-century economic paradigm offers new ways of making money, fresh paths toward professional fulfillment, and unprecedented opportunities for curious, ambitious individuals to combine the things they love with their careers. Drawing on the stories of average people doing exactly this--an accountant overturning his industry, a sweatshop owner's daughter fighting for better working conditions, an Amish craftsman meeting the technological needs of Amish farmers--as well as the latest academic research, Davidson shows us how the twentieth-century economy of scale has given way in this century to an economy of passion. He makes clear, too, that though the adjustment has brought measures of dislocation, confusion, and even panic, these are most often the result of a lack of understanding. In The Passion Economy, he delineates the ground rules of the new economy, and armed with these, we begin to see how we can succeed in it according to its own terms--intimacy, insight, attention, automation, and, of course, passion. An indispensable road map and a refreshingly optimistic take on our economic future.
