**khadijah mother of islam book: Queens and Prophets** Emran Iqbal El-Badawi, 2022-12-01 'A genuinely paradigm-shifting work by one of the most exciting and innovative scholars in the field... compelling and powerful...' Reza Aslan Arab noblewomen of late antiquity were instrumental in shaping the history of the world. Between Rome's intervention in the Arabian Peninsula and the Arab conquests, they ruled independently, conducting trade and making war. Their power was celebrated as queen, priestess and goddess. With time some even delegated authority to the most important holy men of their age, influencing Arabian paganism, Christianity and Islam. Empress Zenobia and Queen Mavia supported bishops Paul of Samosata and Moses of Sinai. Paul was declared a heretic by the Roman church, while Moses began the process of mass Arab conversion. The teachings of these men survived under their queens, setting in motion seismic debates that fractured the early churches and laid the groundwork for the rise of Islam. In sixth-century Mecca, Lady Khadijah used her wealth and political influence to employ a younger man then marry him against the wishes of dissenting noblemen. Her husband, whose religious and political career she influenced, was the Prophet Muhammad. A landmark exploration of the legacy of female power in late antique Arabia, Queens and Prophets is a corrective that is long overdue.

**khadijah mother of islam book: Methexiology** Nicolas Laos, 2016-05-19 Methexiology is not a particular theory, but rather a general philosophical orientation. Therefore, in Methexiology: Philosophical Theology and Theological Philosophy for the Deification of Humanity, Nicolas Laos elucidates the significance of methexiology for the study of ontology, epistemology, ethics,

philosophical psychology, theory of justice, philosophy of history, and philosophy of religion. Laos argues that, faced with the modern and the postmodern crises of meaning, we need a new myth, a new spiritual formula, for the resacralization of humanity and the cosmos, without restoring defunct totems, without using tales as cheap substitutes for the lack of a life-giving myth, and without negating history. In his Methexiology, Laos studies the genealogy of the modern and the postmodern crises of meaning, and, based on his new interpretation of classical Greek philosophy and Hesychasm, proposes methexiology as a way of overcoming the crises of meaning and as a way of resacralizing humanity and the cosmos through a new metaphysically grounded humanism.

**khadijah mother of islam book: *Recovering the Female Voice in Islamic Scripture*** Georgina L. Jardim, 2016-04-08 Protest is an activity not associated with the pious and collectively-minded, but more often seen as an activity of the liberal and rebellious. Judaism, Christianity and Islam are commonly understood as paragons of submission and obedience following Abraham's example. Yet,

the scriptures of all three faiths are founded in the prophets protesting wrongs in the social order. The Qur'an claims that men and women, and the relations between them are a sign from God. The question is to what extent are women silenced in the text, and do they share with men in shaping the prophetic scriptures? This book finds that far from silencing women, the Qur'an affirms the female voice as protester for justice and as questioner of Theology. In this reading of the female role in divine revelation in the Islamic text, Georgina Jardim returns to the scriptures of the Judeo-Christian counterpart of the Abrahamic faiths, to investigate whether the Bible may claim women as brokers of revelation. The result is an enriched understanding of divine communication in the Abrahamic scriptures and a commonplace for reasoning about the female voice as speaker in the Word of God.
