The bigger they are, the harder they fall . . . and the more they pounce on one another. That's the message that comes through in Boze Hadleigh's celebrity gossip collection, *Celebrity Diss and Tell*. Goodness, they have something to say about everyone! Luckily for those who relish insider information and star dirt, Hadleigh is right there to capture their spicy quotes. *Celebrity Diss and Tell* includes hundreds of quotations, snipes, and off-the-cuff remarks. The author divides the book into six sections, covering everything from fellow celebrities and stars' families to lost loves and celebrity slugfests. All of this makes for riveting reading: Open to any page and you're instantly stuck in the down and dirty world of off-screen frankness, such as How difficult can it be to fly an airplane? I mean, John Travolta learned how. --Graham Chapman of Monty Python They're all here, from Robin Williams to Halle Berry. If anyone has anything good to say about anybody . . . you won't find it in these pages. But that's what makes *Celebrity Diss and Tell* such a good and cathartic read. These stars are only human, after all, and nobody can sparkle all the time.

jamie lee curtis son: *This Is Not an Accident* April Wilder, 2014-01-30 From a truly distinctive voice brimming with wicked humor, tales of the little disasters that befall and befuddle us April Wilder's characters (some normal, some less so) have this in common: they are spiraling (or inching) toward self-destruction. An almost poetic range of disasters are sought out and savored in *This Is Not an Accident*, from bad romance to iffy adoption decisions to unsteady liaisons with animals and dolls; from compulsive driving to compulsive written correspondence with oneself. A house sitter hides among poets in Salt Lake City after his canine charge dies tragically. A grandma's boyfriend holds a backyard barbecue under siege—with the kids as his pint-sized guards. The world of these slightly off-center individuals is similarly off by a few degrees. But by the end, we realize it's not as far off as we would like to think: this is modern American life. What Wilder captures is not a dark side, but rather the side we all know well and hide from others, and ourselves. In the tradition of Wells Tower and Jim Shepard, *This Is Not an Accident* signals a bold new voice and delivers the kind of insanely incisive moments only a master of the human condition can conjure.

jamie lee curtis son: *The Nicest Fella - The Life of Ben Johnson* Richard D. Jensen, D Jensen Richard D Jensen, 2010 This is the amazing story of Ben Johnson, the cowboy who grew up in the tall grass prairie of Oklahoma, rode to Hollywood in a boxcar full of horses and became an Oscar-winning actor. Johnson co-starred in some of Hollywood's greatest Western movies of all time, alongside John Wayne, Clint Eastwood, Steve McQueen, Marlon Brando, Henry Fonda, Charles Bronson, Burt Reynolds, Alan Ladd, and many more. Known as Son to his family and friends, Johnson was the son of a three-time world champion rodeo cowboy also named Ben Johnson. Dividing his time between the world of movies and the world of rodeo, Son Johnson became one of the greatest rodeo cowboys of all time, winning the 1953 RCA World Championship for team roping. A man of principle who believed in the value of honesty, realism and respect, Johnson managed to forge a successful career in the film industry without becoming a part of the excesses of Hollywood. He often paid dearly for his integrity, enduring a blacklist by famed Western director John Ford for refusing to allow Ford to verbally abuse him. Johnson's career lasted more than 50 years, with many highs and lows, but through it all he always stayed true to the cowboy code. When he won his Oscar for *The Last Picture Show* in 1972, Johnson took the stage and, in his typical aw shucks way, said, This couldn't have happened to a nicer fella. *The Nicest Fella* is a must read for fans of Ben Johnson, rodeo fans, Western movie buffs, Hollywood fanatics, and anyone who still believes in the American dream! With 30 pages of never-before-seen photographs from the Johnson family collection and a complete filmography.

jamie lee curtis son: B-Sides, Undercurrents and Overtones: Peripheries to Popular in Music, 1960 to the Present George Plasketes, 2016-05-23 There are undercurrents and peripheral taste preferences that are a defining part of our individual and collective cultural experience. Music is no exception. George Plasketes adapts the iconic A-side/B-side dichotomy from the 45 r.p.m. for use as a unique conceptual, critical, historical, and cultural framework for exploring and threading together a variety of popular music and media texts. The profiles and perspectives focus on the peripheries; on texts which might be considered B-sides"overlooked, underappreciated, and unsung cases, creators, patterns and productions that have unassumingly, but significantly, marked popular culture, music and media during the past 40 years. The underappreciated yet enduring contributions of a variety of creative individuals in music, television and film are a centerpiece of this volume: actress Doris Day's son, Terry Melcher, a 1960s music producer whose imprint is on the surf, country blues, garage pop and most importantly the folk rock genre; Hans Fenger's kid chorus cover project, a musical variation of outsider art that became representative of the tribute wave that began in the 1990s and continues today; versatile guitarist virtuoso Ry Cooder's extensive film soundtrack work; World Music missionary efforts of American artists beyond Paul Simon's Graceland, including

Neil Diamond's precursor with Tap Root Manuscript in the 1970s and the exotic adventures of Henry Kaiser and David Lindley in Madagascar and Norway"to name just a few examples. These B-sides represent undercurrents, but they resonate as overtones in the mainstream of music and culture, many as historical hinges. Collectively, these B-sides are an A-side antidote of outskirts observations, individual snapshots of artists, artifacts and rituals, genres and generations, producers and musical productions in television, film and video. They constitute an important connect-the-dots cultural chronicle with a multi-layered context"social, legal, historic, economic, technological, generational, aesthetic"for interpreting the interrelations between creators and institutions, the music market place, the production of culture and important connections between the peripheral and the popular.

jamie lee curtis son: Children of Hollywood Michelle Vogel, 2005-04-13 Living in the shadow of a famous parent can have powerful effects, from professional opportunities to pressure so great it leads to suicide. Some children of stars are proud of their roots while others live in secrecy. This is a rare look into the private lives of the children (and, in a few cases, grandchildren) of these classic Hollywood icons, revealing the stresses and inspirations of living with great performers who may or may not have been great parents. Some movie stars protected their offspring, but others used them as publicity props or even made them into rivals. Despite their unusual upbringing, some of the children succeeded in the movies or elsewhere, but many never lived up to the public expectations. Many lost their parents, whether to the extremes of the celebrity lifestyle, to divorce, or to their careers. From the beautiful bedtime stories Harpo Marx and his wife told their four adopted children to explain where they'd come from, to the studded belt Bing Crosby used to punish his sons for not obeying the strict family rules, this work tells the best and worst of growing up in a celebrity home. Families covered include those of W.C. Fields, the Marx Brothers, Eddie Cantor, Mario Lanza, Ruth Hussey, Jerry Lewis, Douglas Fairbanks and Boris Karloff. Research is drawn from interviews with celebrity offspring, who also provided never-before-published snapshots of Hollywood legends at home.
