jane blasio mother: *Taken at Birth* Jane Blasio, 2021-07-13 From the 1940s through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Sometimes their babies exited out the back, sold to northern couples who were desperate to hold a newborn in their arms. But these weren't adoptions--they were transactions. And one unethical doctor was exploiting other people's tragedies. Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own origins but identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in illicit adoptions, serving as an investigator and telling her story on every major news network. *Taken at Birth* is the remarkable account of her tireless quest for truth, justice, and resolution. Perfect for book clubs, as well as those interested in inspirational stories of adoption, human trafficking, and true crime.

jane blasio mother: *Somebody Told Me* Rick Bragg, 2001-08-28 With his bestselling *All Over but the Shoutin'*, Rick Bragg gave us memorable stories of his own childhood. Here he offers the best of his work as a Pulitzer-Prize winning journalist writing the remarkable stories of others. For twenty years, Bragg has focused his efforts on the common man. So while some of these stories are about people whose names we know—such as Susan Smith, the South Carolina mother who drowned her two sons—most are people whose names we've never heard, people who have survived tornadoes and swamps, racism and bombs. In incisive, unadorned prose that is nonetheless strikingly beautiful, these pieces rise above journalism to become literature and show the triumph of the human spirit.

In this sweeping narrative, Elliott weaves the story of Dasani’s childhood with the history of her ancestors, tracing their passage from slavery to the Great Migration north. As Dasani comes of age, New York City’s homeless crisis has exploded, deepening the chasm between rich and poor. She must guide her siblings through a world riddled by hunger, violence, racism, drug addiction, and the threat of foster care. Out on the street, Dasani becomes a fierce fighter “to protect those who I love.” When she finally escapes city life to enroll in a boarding school, she faces an impossible question: What if leaving poverty means abandoning your family, and yourself? A work of luminous and riveting prose, Elliott’s *Invisible Child* reads like a page-turning novel. It is an astonishing story about the power of resilience, the importance of family and the cost of inequality—told through the

crucible of one remarkable girl. Winner of the J. Anthony Lukas Book Prize • Finalist for the Bernstein Award and the PEN/John Kenneth Galbraith Award • Longlisted for the Baillie Gifford Prize

jane blasio mother: Slavery in the Age of Memory Ana Lucia Araujo, 2020-10-15 Exploring notions of history, collective memory, cultural memory, public memory, official memory, and public history, *Slavery in the Age of Memory: Engaging the Past* explains how ordinary citizens, social groups, governments and institutions engage with the past of slavery and the Atlantic slave trade. It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade. The book draws on a variety of case studies to investigate its central questions. How have social actors and groups in Europe, Africa and the Americas engaged with the slave past of their societies? Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States? How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States? How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa? What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC? Why have artists used their works to confront the debates about slavery and its legacies? The important debates addressed in this book resonate in the present day. Arguing that memory of slavery is racialized and gendered, the book shows that more than just attempts to come to terms with the past, debates about slavery are associated with the persistent racial inequalities, racism, and white supremacy which still shape societies where slavery existed. *Slavery in the Age of Memory: Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world, the history of slavery and public history.

jane blasio mother: *Reclaiming Gotham* Juan González, 2017-09-05 How Bill de Blasio's mayoral victory triggered a seismic shift in the nation's urban political landscape—and what it portends for our cities in the future In November 2013, a little-known progressive stunned the elite of New York City by capturing the mayoralty by a landslide. Bill de Blasio's promise to end the Tale of Two Cities had struck a chord among ordinary residents still struggling to recover from the Great Recession. De Blasio's election heralded the advent of the most progressive New York City government in generations. Not since the legendary Fiorello La Guardia in the 1930s had so many populist candidates captured government office at the same time. Gotham, in other words, had been suddenly reclaimed in the name of its people. How did this happen? De Blasio's victory, journalist legend Juan González argues, was not just a routine change of government but a popular rebellion against corporate-friendly policies that had dominated New York for decades. Reflecting that broader change, liberal Democrats Bill Peduto in Pittsburgh, Betsy Hodges in Minneapolis, and Martin Walsh of Boston also won mayoral elections that same year, as did insurgent Ras Baraka in Newark the following year. This new generation of municipal leaders offers valuable lessons for those seeking grassroots reform.
