**love space quotes relationship: Space, Place, and Sex** Lynda Johnston, Robyn Longhurst, 2010 This accessible and engaging book explores the ways that space, place, and sex are inextricably linked from the micro to the macro level, from the individual body to the globe. Drawing on queer, feminist, gender, social, and cultural studies, Lynda Johnston and Robyn Longhurst highlight the complex nature of sex and sexuality and how they are connected to both virtual and physical spaces and places. Their aim is to enrich our understanding of sexual identities and practices--whether they be lesbian, gay, bisexual, transsexual, asexual, queer, or heterosexual. They

show that bodies are defined and connected through media such as television, movies, ads, and the Internet, as well as through real places such as homes, churches, sports arenas, city streets, beaches, and wilderness. Drawing on a diverse array of historical and contemporary examples, the authors argue convincingly that sexual politics permeate all places and spaces at every level of geographical scale. Thus, they illustrate, sexuality affects the way people live in and interact with space and place, as space and place in turn affect people's sexuality.

Grosz moves toward a radical consideration of bodies and their relationship to transgression and perversity.

**love space quotes relationship: The Space of Sex** Shelton Waldrep, 2021-05-20 As film and

television become ever more focused on the pornographic gaze of the camera, the human body undergoes a metamorphosis, becoming both landscape and building, part of an architectonic design in which the erotics of the body spread beyond the body itself to influence the design of the film or televisual shot. The body becomes the *mise-en-scène* of contemporary moving imagery. Opening *The Space of Sex*, Shelton Waldrep sets up some important tropes for the book: the movement between high and low art; the emphasis on the body, looking, and framing; the general intermedial and interdisciplinary methodology of the book as a whole. *The Space of Sex*'s second half focuses on how sex, gender, and sexuality are represented in several recent films, including Paul Schrader's *The Canyons* (2013), Oliver Stone's *Savages* (2012), Steven Soderbergh's *Magic Mike* (2012), Lars Von Trier's *Nymphomaniac* (2013), and Joseph Gordon-Levitt's *Don Jon* (2013). Each of these mainstream or independent movies, and several more, are examined for the ways they have attempted to absorb pornography, if not the pornography industry specifically, into their plot. According to Waldrep, the utopian elements of seventies porn get reprocessed in a complex way in the twenty-first century as both a utopian impulse—the desire to have sex on the screen, to re-eroticize sex as something positive and lacking in shame—with a mixed feeling about pornography itself, with an industry that can be seen in a dystopian light. In other words, sex, in our contemporary world, still does not come without compromise.

**love space quotes relationship:** *Consuming Glory* Gannon Murphy, 2006-09-22 In the late 1990s, Open Theism took the theological world by storm. Advocated by several prominent theologians, among them Clark H. Pinnock, the view argues that human beings cannot have a genuine relationship with God if God possesses what classical theology has affirmed to be exhaustive foreknowledge of future events. Such foreknowledge, open theists claim, would make human freedom (and salvation itself) meaningless and divine power akin to little more than meaningless, cosmic puppeteering. While several works have taken the important step of addressing open theism's scriptural deficiencies in its denial of God's foreknowledge, none have dealt with the vital issue of divine-human relationality and how it can be understood in a classical, orthodox framework that maintains such foreknowledge. *Consuming Glory* remedies that lack by first providing a fresh critique of open theism using Clark Pinnock's version of it as representative, but then offering a reconstruction of divine-human relationality centered on the Biblical principle of *Christus in nobis* (Christ in us). *Christus in nobis* is coupled with an outworking of meticulous divine providence that serves God's own self-glorifying orientation. It reverses the relational ordering advocated in open theism by grounding human love of God theologically rather than anthropologically. Love of God and divine-human relationality is established precisely because it is God's own self-love that is providentially given to us and thus reciprocated as believers are brought into adoptive communion with the Triune Godhead. Drawing on diverse resources throughout the corpus of historical theology, Murphy concludes that divine-human relationality can be summarized as God delighting in himself, in us.

**love space quotes relationship:** *The Spirit of Polyphony* Joanna Tarassenko, 2024-01-25 This book re-examines how Bonhoeffer employs musical patterns of thought and language to a theological end. It outlines how the significance of Bonhoeffer's musico-theology has not been sufficiently recognised, and sets the stage for a rigorous re-examination. It becomes clear that through the lens of his musical metaphor of polyphony, Bonhoeffer demonstrates how his account of Christian formation contains a latent pneumatology. Tarassenko demonstrates that incorporation of this pneumatology is key in deepening one's understanding of Bonhoeffer. It allows the relationship between Christology and Christian formation in Bonhoeffer's thought to become fully realised. The appeal to polyphony articulates this pneumatology, as an indirect but nevertheless exceedingly successful means of contouring an account of the Spirit's work.

**love space quotes relationship:** *The Fifth Element* Crystal Leigh Endsley, 2015-12-28 Explores spoken word poetry as a tool for social justice, critical feminist pedagogy, and new ways of teaching. The writing and performance of spoken word poetry can create moments of productive critical engagement. In *The Fifth Element*, Crystal Leigh Endsley charts her experience of working with a dynamic and diverse group of college students, who are also emerging artists, to explore the connection between spoken word and social responsibility. She considers how themes of activism, identity, and love intersect with the lived experiences of these students and how they use spoken word to negotiate resistance and to navigate through life. Endsley also examines the local and transnational communities where performances took place to shed light on concepts of social responsibility and knowledge production.

**love space quotes relationship:** *Between the Psyche and the Social* Kelly Oliver, Steve Edwin, 2002 *Between the Psyche and the Social* is the first collection that specifically features the field of psychoanalytic social theory emerging in and between psychoanalysis, feminism, postcolonial studies, and queer theory, and across the disciplines of philosophy, literary, film, and cultural studies. This collection of essays takes the psychoanalytic study of social oppression in some new directions by engaging--indeed, stirring up--unconscious fantasies and ethical tensions at the heart of social subjectivity.
