leslie marmon silko ceremony summary: Living In-between: The Search for Identity in Leslie Marmon Silko's Ceremony Ariane Peters, 2007-09 Seminar paper from the year 2003 in the subject American Studies - Literature, grade: 1,3 (A), Ernst Moritz Arndt University of Greifswald (Institute for Anglistics/American Studies), language: English, abstract: Although Leslie Marmon Silko's complete works have received exemplary reviews, Ceremony seems to be the most talked about and recognized for its literary achievement. One reason for this large attention is the strange narrative form due to the combination of the Indian storytelling, myth, poetry and a plot that takes place in a modern western¹ environment. Another reason for the remarkable success of this novel is Silko's way to show the negative repercussions on Native Americans caused by racism, alcoholism, dislocation, poverty as well as the industrial exploitation of the land. In this paper I will discuss one of the principal themes presented in Leslie Silko's Ceremony: the issue of Native American identity. In the first part I will briefly introduce the characters of Tayo and Rocky, two Native Americans who grew up on a reservation for the Laguna Pueblo in New Mexico. After that I will examine the similarities between these two young men who both take part in the Second World War and make horrible experiences. In the main part of this paper I will try to find out the differences between Tayo and Rocky in order to explain their different ways of searching their own identity. Furthermore I will explore the sources of Tayo's selfdestructive behaviour and his problem

of alienation. Therefore I will have to ponder on the following questions: How does the white culture influence these characters? Do both men suffer from the loss of Indian self-esteem? What are the effects of internalized racism and colonization on the health of Tayo? Why is Tayo able to return to the community to lead a stable and productive life? In the final comment there will be a concluding assessment and a summary of the theme.

Rainwater, 2016-09-15 As American Indian writers frequently remind their readers, storytellers wield formidable power to affect the earth and its inhabitants. This power is the same medicine power that inheres in tribal expression such as chants, prayers, and ceremonial rituals. Leslie Marmon Silko, critics point out, modifies literary genres to create the most effective medicine power. When Silko's *Storyteller* first appeared in 1981, critics were baffled by this complex text. Today it is a canonical work in the study of American Indian literature. leslie marmon silko ceremony summary: Gambling and Survival in Native North America Paul Pasquaretta, 2022-12-13 The cards are turned, the chips are raked. In casinos all over the country, Native Americans are making money and reclaiming power. But the games are by no means confined to the tables, as the Mashantucket Pequots can attest. Although Anglo-Americans have attempted to undermine Pequot sovereignty for centuries, these Native Americans have developed a strategy of survival in order to maintain their sense of peoplehood—a resiliency that has vexed outsiders, from English settlers to Donald Trump. The Pequots have found success at their southeastern Connecticut casino in spite of the odds. But in considering their story, Paul Pasquaretta shifts the focus from casinos to the political struggles that have marked the long history of indigenous-colonial relations. Viewing the survival of Native communities in the face of genocide and forced assimilation as a high-stakes game of chance, he examines gambling metaphors in historical and literary contexts to reveal strategies employed by several tribes as they participate in various games with white society—whether land re-acquisition, political positioning, or resistance to outside dominance. Through a comparative analysis of texts spanning four centuries—colonial war narratives, nineteenth-century romance fiction, tribal memorials, Native American novels—Pasquaretta provides a framework for understanding Indian-white relations and the role of chance in the realm of colonialism. He explores two intertwining themes: the survival of indigenous peoples in the face of the European invasion of North America and the ongoing contest of Natives and newcomers that has transpired in the marketplace, on the battlefield, and in the courts. In so doing, he considers the impact of reservation gambling on the development of contemporary tribal

communities and the role of traditional Indian gambling practices and stories in the survival of indigenous cultural traditions. Gambling and Survival in Native North America is a wide-ranging book that shows how Native Americans have become active participants in their own survival despite the popular belief that Indian tribes, as conquered peoples, have been rendered helpless for over a century. Working within a system devised to confine and even destroy them, they have found ways to remain in the game—and, against all odds, have learned to play it well.
