nepali hot: *(Re)defining Success in Language Learning* Katie A. Bernstein, 2020-09-08 This book follows four emergent bilingual students in an English-medium pre-kindergarten in the US as they navigate the social and linguistic demands of school. It illustrates how students' differing classroom social positions shaped their participation in interaction and, in turn, their English language learning across a school year. With a unique focus on both processes and outcomes, the book highlights language strategies that are overlooked if the focus is solely on one language or on group participation, and it emphasizes the importance of assessment choice in shaping which learners appear to be successful. It is a powerful argument for recognising the translingual and multimodal abilities of learners, even in education which is officially English-medium and monolingual.

nepali hot: Nepal - India Open Borders Lok Raj Baral, Uddhab P. Pyakurel, 2015-12-01 The present book is based on field study of Nepal-India open border arrangement and conduct of such unique and free border existing between the two countries since the signing of Sugauli Treaty in 1815-16. Its openness poses both challenges and opportunities for disturbing as well as making bilateral relations smooth and friendly. How such close relations which are incomparable to others have been managed and how the newer problems that arise with the pace of time and situation are being addressed are also the theme of study. The findings of study are no less significant as Nepal and India have developed mechanisms to deal with the day-to-day problems making significant improvements for streamlining the border. Yet, two types of problems have given rise to occasional controversy: infringement of border and humanitarian problems caused by the erosion of borderland and occupation of no-man's land by both Indian and Nepalis. The use and misuse of open border by elements indulged in illegal trade, criminal activities of all nature, have also made border management more complex. The concluding section of the book deals with the corrective measures for making open border more smooth, efficient and credible.

nepali hot: From the Foothills of the Himalayas Nancy W. Axinn, 2008 Back before cell phones, computers, e-mail, and even bridges in the Chitwan Valley in Nepal, Nancy Axinn and her husband worked with agricultural education programs. From the Foothills of the Himalayas is written upon reflection of the notes and letters Axinn penned from 1976 to 1978 while living in rural Nepal. Axinn's small notebook was never out of reach as she traveled in Nepal. Setting off on nearby roads, Axinn climbed steep mountain trails, often wading through rivers to reach the remote schools where she coached prospective teachers of agriculture. Contact with the outside world was by letter, so after each one was written, it went by road or local plane to Axinn's office at Tribhuvan University in Kathmandu. It was then sent by air mail to her daughter in the United States. From the Foothills of the Himalayas provides a firsthand account of the spectacular countryside of rural Nepal, Axinn's agricultural work in the area, and her challenges in cultural adaptation.

nepali hot: Nepal's Power Elites Gaurav Bhattarai, 2025-09-26 To the ambitious Shah Rajah like Prithvi Narayan, foreign was Muglan—the abode of non-believers. Foreign was Bhot- the Nepali term for Tibet. Foreign was Firangi- the British colonizers. To the Rana ruler like Jung Bahadur, foreign was a little broader: crossing the sea, reaching Europe, meeting Queen Victoria, consuming foods prohibited by the then Nepali State, stucco palaces, English language, ballroom, and many more. Even those Shah Rajahs, susceptible to the prowess of both-- the regent queens and Rana rulers-- were thrilled by the domain of foreign, either by seeing the British Residents in Durbar, or by gazing at the menus of the European departmental stores. Following the Indian independence, however, King Tribhuvan had the pleasure and privilege of swotting up more about the realm of foreign, be it during the ball dance with Erica or in Boris's Club 300 or during his stay in Hyderabad House. His son, Mahendra, dared and darted Nepal's foreign across the post-war international system through his visits and interlocutors. At the height of the Cold War, to Eton-educated Birendra, the sphere of foreign had to be dealt with the know-how of negotiation and conciliation. As the experiences, exposure, and escapade of ruling groups steadily descended and spread to the larger public domain, the leaders and ministers from the political parties brazenly branded elites' ploys, in dealing with the external world, as foreign policy, and the elites' interests as the national interests.

nepali hot: Repetition, Recurrence, Returns Joan Ramon Resina, Christoph Wulf, 2019-04-29 Repetition is constitutive of human life. Both the species and the individual develop through repetition. Unlike simple recall, repetition is permeated by the past and the present and is oriented toward the future. Repetition of central actions and events plays an important role in the lives of

individuals and the life of society. It helps to create meaning and memory. Because repetition is a central aspect of human life, it plays a role in all social and cultural spheres. It is important for several branches of the humanities and social studies. This book presents studies of an array of repetitive phenomena and to show that repetition analysis is opening up a new field of study within single disciplines and interdisciplinary research. Recommended for scholars of literature, music, culture, and communication.

nepali hot: *Suitably Modern* Mark Liechty, 2020-11-10 *Suitably Modern* traces the growth of a new middle class in Kathmandu as urban Nepalis harness the modern cultural resources of mass media and consumer goods to build modern identities and pioneer a new sociocultural space in one of the world's least developed countries. Since Nepal's opening in the 1950s, a new urban population of bureaucrats, service personnel, small business owners, and others have worked to make a space between Kathmandu's old (and still privileged) elites and its large (and growing) urban poor. Mark Liechty looks at the cultural practices of this new middle class, examining such phenomena as cinema and video viewing, popular music, film magazines, local fashion systems, and advertising. He explores three interactive and mutually constitutive ethnographic terrains: a burgeoning local consumer culture, a growing mass-mediated popular imagination, and a recently emerging youth culture. He shows how an array of local cultural narratives--stories of honor, value, prestige, and piety--flow in and around global narratives of progress, modernity, and consumer fulfillment. Urban Nepalis simultaneously adopt and critique these narrative strands, braiding them into local middle-class cultural life. Building on both Marxian and Weberian understandings of class, this study moves beyond them to describe the lived experience of middle classness--how class is actually produced and reproduced in everyday practice. It considers how people speak and act themselves into cultural existence, carving out real and conceptual spaces in which to produce class culture.
