my perspectives english grade 9: *Pedagogy of Multiliteracies* Heather Lotherington, 2012-04-23 A CHOICE Outstanding Academic Title 2012! Based on case studies from public schools in Toronto, Canada, this book chronicles an inspiring five-year journey to develop thinking about and teaching literacy for the 21st century. The research, which was classroom-based and developed by public school teachers in collaboration with university researchers, was stimulated by an ethnographic study at Joyce Public School to track children learning to read in an era of multiliteracies. Following the kindergarteners' interest in Goldilocks and the Three Bears, Lotherington asked the principal: What would Goldilocks look like, retold through the eyes of the children? The resulting classroom experiment to transform learning to read a storybook into multimodal collaborative story-telling sparked the development of an award-winning school-university learning community dedicated to the development of multimodal literacies in the culturally diverse, urban classroom. *Pedagogy of Multiliteracies* tells the evolving story of teachers' trial-and-error interventions to engage children in multiple modes of expression involving structured play with contemporary media. Using the complex texts created, the teachers carve spaces to welcome the voices of children and the languages of the community into the English-medium classroom.

my perspectives english grade 9: *Metaphors We Teach By* Dr. Ken Badley, Harro Walter Van Brummelen, 2012-06-01 *Metaphors We Teach By* helps teachers reflect on how the metaphors they use to think about education shape what happens in their classrooms and in their schools. Teaching and learning will differ in classrooms whose teachers think of students as plants to be nurtured from those who consider them as clay to be molded. Students will be assessed differently if teachers think of assessment as a blessing and as justice instead of as measurement. This volume examines dozens of such metaphors related to teaching and teachers, learning and learners, curriculum, assessment,

gender, and matters of spirituality and faith. The book challenges teachers to embrace metaphors that fit their worldview and will improve teaching and learning in their classrooms.

my perspectives english grade 9: Cultural Diversity and Discourse Practices in Grade Nine Lynne V Wiltse, 2017-07-28 In the classroom, knowledge is widely distributed among the students and teacher, but is difficult to share across linguistic and cultural barriers. Seeking paths across these barriers, Lynne Wiltse meticulously explores the question: What is the discourse frame in which students and teachers work? Situated in a grade nine multilingual classroom, her work provides a rich description of the research process in the classroom. At the same time, she draws the reader sequentially through the analysis, revealing inferences in increasing levels of abstraction within a framework of "communities of practice." She highlights issues related to second language acquisition, students' immigration experiences, teaching, and learning, and points the way toward multi-vocal dialogues and practices that can forge a path across cultural and linguistic divides.
