nepali actress hot: Many Everests Ravindra Kumar, 2017-02-14 As the first IAS officer to climb the world's tallest peak, Ravindra Kumar in this book has presented Mount Everest as a symbol of life's problems beyond the limit of a physical barrier. Introducing the innovative technique of 'Advanced Positive Visualisation', the author explains how the various Everests of life can be conquered with this success key. Kumar has tested the impact of this technique personally and has achieved many feats-starting from his selection in the prestigious IIT entrance examination to his selection in the premier Civil Services Examination and becoming an IAS officer after working at sea for many years and, thereafter, climbing the highest peak of the world in his maiden attempt. It is through his life journey and after analysing its impact, the author has presented to the reader the innate power lying dormant in the human mind. Kumar's claim is based on the fact that our brain catches the image of anything before any other sensory perception like speech, hearing, smell, touch, etc. Although this is a daily phenomenon we don't notice it. The author has not only documented his observation from day-to-day life but has also explained it scientifically by connecting the dots of old as well as modern scientific researches, including Einstein's theory of relativity, findings by yogis, experiments on human brain by modern research centres such as Harvard Medical School, Leningrad Military Laboratory, etc. He has explained this technical subject in a simple lucid language to be understood by all. By demonstrating the miraculous effect of this technique in the lives of ordinary people through the example of his life, the author explains to the readers, and in the process motivates them on how, despite life's vicissitudes, one can achieve one's dreams.
