mothers day speech for wife: Mademoiselle Rhonda K. Garelick, 2015-07-14 NATIONAL BESTSELLER Certain lives are at once so exceptional, and yet so in step with their historical moments, that they illuminate cultural forces far beyond the scope of a single person. Such is the case with Coco Chanel, whose life offers one of the most fascinating tales of the twentieth century—throwing into dramatic relief an era of war, fashion, ardent nationalism, and earth-shaking change—here brilliantly treated, for the first time, with wide-ranging and incisive historical scrutiny. Coco Chanel transformed forever the way women dressed. Her influence remains so pervasive that to this day we can see her afterimage a dozen times while just walking down a single street: in all the little black dresses, flat shoes, costume jewelry, cardigan sweaters, and tortoiseshell eyeglasses on women of every age and background. A bottle of Chanel No. 5 perfume is sold every three seconds. Arguably, no other individual has had a deeper impact on the visual aesthetic of the world.

But how did a poor orphan become a global icon of both luxury and everyday style? How did she develop such vast, undying influence? And what does our ongoing love of all things Chanel tell us about ourselves? These are the mysteries that Rhonda K. Garelick unravels in *Mademoiselle*. Raised in rural poverty and orphaned early, the young Chanel supported herself as best she could. Then, as an uneducated nineteen-year-old café singer, she attracted the attention of a wealthy and powerful admirer and parlayed his support into her own hat design business. For the rest of Chanel's life, the professional, personal, and political were interwoven; her lovers included diplomat Boy Capel; composer Igor Stravinsky; Romanov heir Grand Duke Dmitri; Hugh Grosvenor, the Duke of Westminster; poet Pierre Reverdy; a Nazi officer; and several women as well. For all that, she was profoundly alone, her romantic life relentlessly plagued by abandonment and tragedy. Chanel's ambitions and accomplishments were unparalleled. Her hat shop evolved into a clothing empire. She became a noted theatrical and film costume designer, collaborating with the likes of Pablo Picasso, Jean Cocteau, and Luchino Visconti. The genius of Coco Chanel, Garelick shows, lay in the way she absorbed the zeitgeist, reflecting it back to the world in her designs and in what Garelick calls "wearable personality"—the irresistible and contagious style infused with both world history and Chanel's nearly unbelievable life saga. By age forty, Chanel had become a multimillionaire and a household name, and her Chanel Corporation is still the highest-earning privately owned luxury goods manufacturer in the world. In *Mademoiselle*, Garelick delivers the most probing, well-researched, and insightful biography to date on this seemingly familiar but endlessly surprising figure—a work that is truly both a heady intellectual study and a literary page-turner. Praise for *Mademoiselle* "A detailed, wry and nuanced portrait of a complicated woman that leaves the reader in a state of utterly satisfying confusion—blissfully mesmerized and confounded by the reality of the human spirit."—*The Washington Post* "Writing an exhaustive biography of Chanel is a challenge comparable to racing a four-horse chariot. . . . This makes the assured confidence with which Garelick tells her story all the more remarkable."—*The New York Review of Books* "Broadly focused and beautifully written."—*The Wall Street Journal*

mothers day speech for wife: Moms in Chief Tammy R. Vigil, 2019-01-23 In 1776, when Abigail Adams implored her husband to "Remember the Ladies," John Adams scoffed, declaring, "We know better than to repeal our masculine system." More than two hundred years later, American women continue to struggle against the idea that they are simply vassal extensions of their husbands—a notion that is acutely enacted in presidential campaigns. An examination of how the spouses of recent presidential candidates have presented themselves and been perceived on the campaign trail, *Moms in Chief* reveals the ways in which the age-old rhetoric of republican motherhood maintains its hold on the public portrayal of womanhood in American politics and constrains American women's status as empowered, autonomous citizens. The rhetoric of republican motherhood describes the ostensibly ideal female patriot as domestically focused, self-sacrificial, deferential, and defined by her relationship to others, particularly her husband. *Moms in Chief* combines the study of history, gender, communication, and politics to show how the spouses of the major parties' presidential nominees from 1992 to 2016 at times fulfilled, at other times flouted, but at all times were handicapped by this stereotype. From Barbara Bush as dynastic mother to Michelle Obama as "Mom-in-Chief," from Laura Bush as all-American wife to Melania Trump as model

immigrant, from Teresa Heinz Kerry as assertive heiress to Bill Clinton as past president and prospective first gentleman, Tammy R. Vigil explores the function of presidential consorts in their spouses' campaigns, and she scrutinizes how their portrayal by opponents, the press, and themselves has challenged or reinforced perceptions of the role of gender, and the place of women, in American political life. In the unofficial contest between candidates' spouses, there are winners and losers. What is at stake, Vigil's research suggests, is the very definition of women as American citizens and political actors.

mothers day speech for wife: The Island of World Peace Gwisook Gwon, 2023-07-25 This book explores the history of the Jeju massacre (1947-1954), the deadliest recognized civilian massacre in modern South Korean history, through the lens of state building in South Korea. Jeju-based sociologist Gwisook Gwon examines the massacre on Jeju Island in relation to the birth of anti-communist South Korea in the early Cold War, while also focusing on the reintegration of Jeju Islanders into the state through the history of Jeju soldiers in the Korean War (1950-1953) and the history of Jeju women in the economic recovery and modernization between the 1950s and the 1970s. The study of these post-massacre legacies is novel to South Korean history. The book also discusses the on-going reconciliation of the 4.3 historical conflicts and the transformation of Jeju into an "Island of World Peace." This fresh and original study offers an empirical example of state-building processes at the local level in South Korea from the origin of the state to its democratization. In doing so, it contributes to several fields, including, the Korean War, state violence, conflict resolution studies, gender studies, and Asian and Korean studies.

Undercutting assumptions of male power and nationalism as monolithic, *Workers and Warriors* demonstrates the ways that masculinities may be plural, conflict-ridden, and crucial not only to the formation of loyalty but also to why some nationalisms fail.

mothers day speech for wife: *Getting Married in Korea* Laurel Kendall, 1996-05-31 This work explores what it means to be modern and what it means to be Korean in a culture where courtship and marriage are often the crucible in which notions of gender and class are cast and recast. Touching on a number of important issues—identity, romantic love, women's work, marriage negotiations, and wedding ceremonies—Laurel Kendall gives us a new appreciation for how Koreans have adapted this pivotal social practice to the astounding changes of the past century. Kendall attended her first Korean wedding in 1970, soon after she arrived in the country with the Peace Corps. Years later, as a seasoned anthropologist, she began interviewing both working-class and middle-class couples, matchmakers, purveyors of dowry goods, and proprietors of wedding halls. She consulted etiquette handbooks and women's magazines and analyzed cartoons, photographs, and weddings themselves. The result is an engaging account of how marriage matches are made, how families proceed through the rites, how they finance ceremonies and elaborate exchanges of ritual goods, and how these practices are integral to the construction of adult identities and notions of ideal women and men. The book is also a reflection on what it means to write "Korea" in a complex and ever changing social milieu.
