Overview of Persian Dating Sites

Persian dating sites are online platforms specifically tailored to Persian singles seeking romantic or social connections. These sites cater to users primarily from Iran, Afghanistan, Tajikistan, and the global Persian diaspora, offering culturally relevant matchmaking services. Unlike mainstream dating websites, persian dating sites emphasize cultural compatibility, language preferences, and shared traditions, which are critical factors in Persian relationships.

Many persian dating sites provide a user interface in Persian (Farsi) and English to accommodate both domestic users and the international community. This accessibility helps bridge geographical distances and allows individuals to meet partners who respect their cultural background and values. Typically, these sites offer various membership plans, communication tools, and tailored search filters to enhance the dating experience.

Popular Persian Dating Platforms

Several Persian dating sites have gained prominence due to their specialized services and user-friendly design. Among these, platforms like IranianPersonals, GoIranian, and PersianMatch are well-known for connecting Persian singles worldwide. These sites often boast thousands of active users, making it easier to find matches based on interests, religion, education, and lifestyle preferences.

Each platform varies in terms of features, subscription costs, and community size, but they all share the goal of facilitating meaningful relationships within the Persian community. Users can create detailed profiles, upload photos, and engage in private messaging or video chats, which are essential for building trust and rapport.

Key Features of Leading Persian Dating Platforms

Persian dating sites incorporate a range of features designed to create a tailored and efficient matchmaking experience. These features reflect the cultural nuances and dating etiquette prevalent in Persian society, making them distinct from general dating platforms.

Profile Customization and Verification

One of the standout features of Persian dating sites is the ability to customize profiles extensively. Users can detail their interests, family values, education, religion, and lifestyle preferences, which are often crucial in Persian matchmaking. Additionally, many sites offer identity verification processes to ensure authenticity and reduce the risk of fake profiles.

Search and Matchmaking Filters

Advanced search filters allow users to find matches based on specific criteria such as age, location, religious affiliation, language, and hobbies. Some platforms also employ algorithmic matchmaking to suggest compatible profiles, enhancing the user's chances of finding a suitable partner.

Communication Tools

Effective communication features are essential on Persian dating sites. These include private messaging, chat rooms, video calls, and sometimes, even virtual gifting. These tools help users build connections in a respectful and culturally appropriate manner.

Benefits of Using Persian Dating Sites

Using persian dating sites offers numerous advantages for singles seeking relationships within the Persian cultural context. These benefits extend beyond convenience, addressing the unique needs of Persian singles worldwide.

Cultural Compatibility

One of the primary benefits is the cultural compatibility these sites promote. Users share a common language, traditions, and social values, which can significantly reduce misunderstandings and improve relationship success rates.

Access to a Wider Community

Persian dating sites connect individuals from different countries and regions, expanding the dating pool far beyond local limitations. This global reach is particularly beneficial for Persian expatriates and diaspora members seeking partners with a shared heritage.

Privacy and Respect for Traditions

Many persian dating platforms prioritize user privacy and respect traditional dating norms. Features such as discreet profiles and controlled visibility allow users to engage in dating activities without compromising their social reputations.

Convenience and Time Efficiency

Online dating saves time by allowing users to filter and interact with potential matches from the comfort of their homes. This convenience is invaluable for busy professionals and those living in areas with limited local dating options.

Safety and Privacy Considerations

Safety is a critical concern for users of persian dating sites, especially given the sensitive nature of cultural and personal information involved. Reputable platforms implement strict security measures to protect user data and ensure a safe dating environment.

Data Protection and Encryption

Top persian dating sites use encryption protocols to safeguard personal information and prevent unauthorized access. This includes secure login systems and secure payment gateways for premium memberships.

Moderation and Reporting Tools

Effective moderation helps maintain the integrity of the dating community by removing fake profiles, scams, and inappropriate behavior. Users are encouraged to report suspicious activities, and customer support teams typically respond promptly to concerns.

Tips for Maintaining Personal Safety

Users should exercise caution by avoiding sharing sensitive information too quickly and arranging meetings in public places. Being vigilant about privacy settings and verifying the authenticity of profiles can also enhance safety.

Tips for Success on Persian Dating Sites

To maximize the chances of finding a compatible partner on persian dating sites, users should adopt effective strategies tailored to these platforms' unique environment.

Create a Detailed and Honest Profile

A well-crafted profile that honestly reflects personal values, interests, and intentions helps attract suitable matches. Including clear photos and complete information fosters trust and engagement.

Engage Respectfully and Patiently

Respectful communication aligned with Persian cultural norms is essential. Patience is important, as building meaningful relationships often takes time and effort.

Utilize Search Filters and Features

Leveraging advanced search options and participating in site activities such as forums or events can increase visibility and improve matchmaking outcomes.

Stay Safe and Aware

Following safety advice and being mindful of online interactions ensures a positive and secure dating experience.

- Choose reputable persian dating sites with strong reviews.
- Invest time in profile creation and maintenance.
- Communicate clearly and respectfully.
- Verify identities before meeting offline.
- Protect personal information diligently.

persian dating sites: *The Persian Empire* Mehrdad Kia, 2016-06-27 This well-balanced reference on ancient Persia demonstrates the region's contributions to the growth and development of human civilization from the 7th century BCE through the fall of the Persian Sasanian Empire in 651CE. Knowledge of ancient Persia is often gleaned from the writings of the ancient Greeks and Romans—two civilizations that viewed the Persians as enemies. This one-of-a-kind reference provides unbiased coverage of the cultural history of the Persian Empire, examining the Median, Achaemenid, Parthian, Kushan, and Sasanian dynasties and tracing the development and maturation of Iranian societies during a period of nearly 1,500 years. As one of the most comprehensive studies on the topic, this historical overview explores the region's rich past while providing insight into the cultures and civilizations the Persians came to rule and influence. Using primary sources written and inscribed by the ancient Persians themselves, the encyclopedia studies the pre-Islamic civilizations of Iran in the Middle East, the Caucasus, Central Asia, and the Indian subcontinent. Incorporating contributions from scholars who discuss the rise and fall of various Persian dynasties, the work offers some 180 entries that cover such topics as religion, royal nobility, the caste system, and political assassinations. The content offers perspectives from a variety of disciplines—from anthropology to archaeology, geography, and art history, among other areas.

persian dating sites: *Social Media in Iran* David M. Faris, Babak Rahimi, 2015-11-20 First comprehensive account of how the Internet has impacted life in Iran. Social Media in Iran is the first book to tell the complex story of how and why the Iranian people—including women, homosexuals, dissidents, artists, and even state actors—use social media technology, and in doing so create a contentious environment wherein new identities and realities are constructed. Drawing together emerging and established scholars in communication, culture, and media studies, this volume considers the role of social media in Iranian society, particularly the time during and after the controversial 2009 presidential election, a watershed moment in the postrevolutionary history of Iran. While regional specialists may find studies on specific themes useful, the aim of this volume is to provide broad narratives of actor-based conceptions of media technology, an approach that focuses on the experiential and social networking processes of digital practices in the information era extended beyond cultural specificities. Students and scholars of regional and media studies will find this volume rich with empirical and theoretical insights on the subject of how technologies shape political and everyday life.

persian dating sites: *Iranian Romance in the Digital Age* Janet Afary, Jesilyn Faust, 2021-01-28 Following the 1979 Islamic Revolution, there was a dramatic reversal of women's rights, and the state revived many premodern social conventions through modern means and institutions.

Customs such as the enforced veiling of women, easy divorce for men, child marriage, and polygamy were robustly reintroduced and those who did not conform to societal strictures were severely punished. At the same time, new social and economic programs benefited the urban and rural poor, especially women, which had a direct impact on gender relations and the institution of marriage. Edited by Janet Afary and Jesilyn Faust, this interdisciplinary volume responds to the growing interest and need for literature on gender, marriage and family relations in the Islamic context. The book examines how the institution of marriage transformed in Iran, paying close attention to the country's culture and politics. Part One examines changes in urban marriages to new forms of cohabitation. In Part Two contributors, such as Soraya Tremayne, explore the way technology and social media has impacted and altered the institution of family. Part Three turns its eye to look at marital changes in the rural and tribal sectors of society through the works of anthropologists including Erika Friedl and Mary Hegland. Based on the work of both new and established scholars, the book provides an up-to-date study of an important and intensely politicized subject.

persian dating sites: Persians Lloyd Llewellyn-Jones, 2022-04-12 A stunning portrait of the magnificent splendor and enduring legacy of ancient Persia The Achaemenid Persian kings ruled over the largest empire of antiquity, stretching from Libya to the steppes of Asia and from Ethiopia to Pakistan. From the palace-city of Persepolis, Cyrus the Great, Darius, Xerxes, and their heirs reigned supreme for centuries until the conquests of Alexander of Macedon brought the empire to a swift and unexpected end in the late 330s BCE. In *Persians*, historian Lloyd Llewellyn-Jones tells the epic story of this dynasty and the world it ruled. Drawing on Iranian inscriptions, cuneiform tablets, art, and archaeology, he shows how the Achaemenid Persian Empire was the world's first superpower—one built, despite its imperial ambition, on cooperation and tolerance. This is the definitive history of the Achaemenid dynasty and its legacies in modern-day Iran, a book that completely reshapes our understanding of the ancient world.

persian dating sites: Times of Transition Sylvie Honigman, Christophe Nihan, Oded Lipschits, 2021-03-15 This multidisciplinary study takes a fresh look at Judean history and biblical literature in the late fourth and third centuries BCE. In a major reappraisal of this era, the contributions to this volume depict it as one in which critical changes took place. Until recently, the period from Alexander's conquest in 332 BCE to the early years of Seleucid domination following Antiochus III's conquest in 198 BCE was reputed to be poorly documented in material evidence and textual production, buttressing the view that the era from late Persian to Hasmonean times was one of seamless continuity. Biblical scholars believed that no literary activity belonged to the Hellenistic age, and archaeologists were unable to refine their understanding because of a lack of secure chronological markers. However, recent studies are revealing this period as one of major social changes and intense literary activity. Historians have shed new light on the nature of the Hellenistic empires and the relationship between the central power and local entities in ancient imperial settings, and the redating of several biblical texts to the third century BCE challenges the traditional periodization of Judean history. Bringing together Hellenistic history, the archaeology of Judea, and biblical studies, this volume appraises the early Hellenistic period anew as a time of great transition and change and situates Judea within its broader regional and transregional imperial contexts.

persian dating sites: Linguistic Dating of Biblical Texts: Vol 1 Ian Young, Robert Rezetko, 2016-04-08 Since the beginning of critical scholarship, biblical texts have been dated using linguistic evidence. In recent years, this has been a controversial topic. However, until now, there has been no introduction to and comprehensive study of the field. Volume I introduces the field of linguistic dating of biblical texts, particularly to intermediate and advanced students of Biblical Hebrew with a reasonable background in the language, but also to scholars of the Hebrew Bibles in general who have not been exposed to the full scope of issues. It outlines topics at a basic level before entering into detailed discussion. Many text samples are presented for study, and readers are introduced to significant linguistic features of the texts through notes on the pages. Detailed notes on these text sample provide a background, concrete illustrations and a point of departure for discussion of the general and theoretical issues discussed in each chapter that will make this volume useful as a

classroom textbook.

persian dating sites: Horse Breeds and Breeding in the Greco-Persian World Thomas Donaghy, 2014-06-30 Although there are many publications which discuss the history of the ancient horse, few focus their attention on the origin and development of the various breeds. Most publications examine the horse's contribution to human history through its role as transport facilitator and military machine, and concentrate mainly on subjects such as the origin and development of chariot and cavalry equipment and changes in military tactics over time. This book examines what happened when humans took the horse from the wild and domesticated it for their own use. This focus was taken as it was felt that the understanding of the huge role which the horse played in human history can only be improved by gaining an understanding of the equally huge role which humans played when they took horses from the wild and, through many hundreds of years of daily interaction, cross-breeding, and training, facilitated the development and spread of many breeds across the ancient world. This book takes as its chronological focus the Greco-Persian world of the second and first millennia BC. This time period was selected for examination as it was during these two millennia that the vital role which the horse was to play in human history became fully apparent. The second millennium BC saw the development of the vast chariot forces which were to form an important part of the armed forces of numerous lands, from Mycenaean Greece in the West to India and China in the far East, while the following millennium saw the gradual replacement of chariots with cavalry forces, which continued to play a vital role in military warfare right up until the beginnings of the twentieth century AD. Part One traces the history of the horse from its evolution to the development and spread of chariot and cavalry forces. Parts Two and Three examine the famous horse-breeding regions of the ancient world and, through an analysis of archaeological, iconographical, and literary evidence, attempts to determine why these regions were famed for horse breeding and what were the physical characteristics and given attributes of the various breeds.

persian dating sites: The Iranian Languages Gernot Windfuhr, 2013-05-13 The Iranian languages form the major eastern branch of the Indo-European group of languages, itself part of the larger Indo-Iranian family. Estimated to have between 150 and 200 million native speakers, the Iranian languages constitute one of the world's major language families. This comprehensive volume offers a detailed overview of the principle languages which make up this group: Old Iranian, Middle Iranian, and New Iranian. The Iranian Languages is divided into fifteen chapters. The introductory chapters by the editor present a general overview and a detailed discussion of the linguistic typology of Iranian. The individual chapters which follow are written by leading experts in the field. These provide the reader with concise, non-technical descriptions of a range of Iranian languages. Each chapter follows the same pattern and sequence of topics, taking the reader through the significant features not only of phonology and morphology but also of syntax; from phrase level to complex sentences and pragmatics. Ample examples on all levels are provided with detailed annotation for the non-specialist reader. In addition, each chapter covers lexis, sociolinguistic and typological issues, and concludes with annotated sample texts. This unique resource is the ideal companion for undergraduate and postgraduate students of linguistics and language. It will also be of interest to researchers or anyone with an interest in historical linguistics, linguistics anthropology and language development. Gernot Windfuhr is Professor of Iranian Studies at the University of Michigan; he has published widely on Persian and Iranian languages and linguistics and related languages, as well as on other aspects of Iranian culture including Persian literature and Pre-Islamic Iranian religions.

persian dating sites: *The Archaeology of Byzantine Anatolia* Philipp Niewöhner, 2017 This book accounts for the tumultuous period of the fifth to eleventh centuries from the Fall of Rome and the collapse of the Western Roman Empire through the breakup of the Eastern Roman Empire and loss of pan-Mediterranean rule, until the Turks arrived and seized Anatolia. The volume is divided into a dozen syntheses that each addresses an issue of intrigue for the archaeology of Anatolia, and two dozen case studies on single sites that exemplify its richness. Anatolia was the only major part of

the Roman Empire that did not fall in late antiquity; it remained steadfast under Roman rule through the eleventh century. Its personal history stands to elucidate both the emphatic impact of Roman administration in the wake of pan-Mediterranean collapse. Thanks to Byzantine archaeology, we now know that urban decline did not set in before the fifth century, after Anatolia had already be thoroughly Christianized in the course of the fourth century; we know now that urban decline, as it occurred from the fifth century onwards, was paired with rural prosperity, and an increase in the number, size, and quality of rural settlements and in rural population; that this ruralization was halted during the seventh to ninth centuries, when Anatolia was invaded first by the Persians, and then by the Arabs---and the population appears to have sought shelter behind new urban fortifications and in large cathedrals. Further, it elucidates that once the Arab threat had ended in the ninth century, this ruralization set in once more, and most cities seem to have been abandoned or reduced to villages during the ensuing time of seeming tranquility, whilst the countryside experienced renewed prosperity; that this trend was reversed yet again, when the Seljuk Turks appeared on the scene in the eleventh century, devastated the countryside and led to a revival and refortification of the former cities. This dynamic historical thread, traced across its extremes through the lens of Byzantine archaeology, speaks not only to the torrid narrative of Byzantine Anatolia, but to the enigmatic medievalization.

persian dating sites: *Sasanian and Islamic Settlement and Ceramics in Southern Iran (4th to 17th Century AD)* Seth M. N. Priestman, Derek Kennet, 2023-10-31 This monograph comprises the final publication of a study supported by the British Institute of Persian Studies and undertaken by Seth Priestman and Derek Kennet at the University of Durham. The work presents and analyses an assemblage of just under 17,000 sherds of pottery and associated paper archives resulting from one of the largest and most comprehensive surveys ever undertaken on the historic archaeology of southern Iran. The survey was undertaken by Andrew George Williamson (1945–1975), a doctoral student at Oxford University between 1968 and 1971, at a time of great progress and rapid advance in the archaeological exploration of Iran. The monograph provides new archaeological evidence on the long-term development of settlement in Southern Iran, in particular the coastal region, from the Sasanian period to around the 17th century. The work provides new insights into regional settlement patterns and changing ceramic distribution, trade and use. A large amount of primary data is presented covering an extensive area from Minab to Bushehr along the coast and inland as far as Sirjan. This includes information on a number of previously undocumented archaeological sites, as well as a detailed description and analysis of the ceramic finds, which underpin the settlement evidence and provide a wider source of reference. By collecting carefully controlled archaeological evidence related to the size, distribution and period of occupation of urban and rural settlements distributed across southern Iran, Williamson aimed to reconstruct the broader historical development of the region. Due to his early death the work was never completed. The key aims of the authors of this volume were to do justice to Williamson's remarkable vision and efforts on the one hand, and at the same time to bring this important new evidence to ongoing discussions about the development of southern Iran through the Sasanian and Islamic periods.

persian dating sites: Dakhleh Oasis and the Western Desert of Egypt under the Ptolemies James C. R. Gill, 2016-07-08 Through an analysis of recently discovered Ptolemaic pottery from Mut al-Kharab, as well as a reexamination of pottery collected by the Dakhleh Oasis Project during the survey of the oasis from 1978–1987, this book challenges the common perception that Dakhleh Oasis experienced a sudden increase in agricultural exploitation and a dramatic rise in population during the Roman Period. It argues that such changes had already begun to take place during the Ptolemaic Period, likely as the result of a deliberate strategy directed toward this region by the Ptolemies. This book focuses on the ceramic remains in order to determine the extent of Ptolemaic settlement in the oases and to offer new insights into the nature of this settlement. It presents a corpus of Ptolemaic pottery and a catalogue of Ptolemaic sites from Dakhleh Oasis. It also presents a survey of Ptolemaic evidence from the oases of Kharga, Farafra, Bahariya and Siwa. It thus represents the first major synthesis of Ptolemaic Period activity in the Egyptian Western Desert.

persian dating sites: *Journal for the Evangelical Study of the Old Testament*, 4.1 Stephen J. Andrews, 2015-09-15 *Journal for the Evangelical Study of the Old Testament* (JESOT) is a peer-reviewed journal devoted to the academic and evangelical study of the Old Testament. The journal seeks to fill a need in academia by providing a venue for high-level scholarship on the Old Testament from an evangelical standpoint. The journal is not affiliated with any particular academic institution, and with an international editorial board, open access format, and multi-language submissions, JESOT cultivates and promotes Old Testament scholarship in the evangelical global community. The journal differs from many evangelical journals in that it seeks to publish current academic research in the areas of ancient Near Eastern backgrounds, Dead Sea Scrolls, Rabbinics, Linguistics, Septuagint, Research Methodology, Literary Analysis, Exegesis, Text Criticism, and Theology as they pertain only to the Old Testament. JESOT also includes up-to-date book reviews on various academic studies of the Old Testament.

persian dating sites: *Between Evidence and Ideology* Bob E.J.H. Becking, Lester Grabbe, 2010-11-11 The historiography of Ancient Israel is much debated. The various approaches are never void of ideology and some reckon more with the available evidence than others. This volume consists of a set of case-studies that reveal the difficulties that arise when trying to write a history as honestly as possible. This implies that both the archaeology of Ancient Palestine - the finds and their interrogation - as well as the Philosophy of History - their models and their implications - are discussed. The outcome is a variety of approaches that inform the reader of current views on the history of Ancient Israel.

persian dating sites: *Engaging and Transforming Global Communication through Cultural Discourse Analysis* Trudy Milburn, Michelle Scollo, 2018-11-13 Global communication can be difficult in the best of circumstances. The contributors in this book take seriously the premise that one can examine communication within specific global settings and scenes with the goal of ensuring that the meanings made among those within specific communities is more clearly understood. This includes recognizing that we often communicate based on specific assumptions and act in ways that have normative bases that are shared with those within communities, but are often difficult to discern or navigate by those who are not members of them. Situated within the Ethnography of Communication research program, the contributors in this volume use Cultural Discourse Analysis to examine such practices, a theory and methodology developed by Donal Carbaugh over the past thirty years. The book is a celebration of his work and career, in which forty-four prominent Communication scholars and practitioners come together to use this framework to examine pressing communication issues across the globe. The book includes a preface by Gerry Philipsen that is an academic history of Carbaugh's career, an introduction outlining the history and current practice of Cultural Discourse Analysis, sixteen data based chapters using the framework to examine a broad range of inter/cultural communication practices across the globe, and an epilogue by Carbaugh reviewing this research and its future trajectory. The book is a handbook of Cultural Discourse Analysis for examining the latest in Cultural Discourse Analysis research and learning how to do

such work that will be useful to advanced undergraduate and graduate students in a broad range of fields, inter/cultural communication scholars, and all those who seek to better understand and communicate in the global world today.

persian dating sites: Dictionary of Languages Andrew Dalby, 2015-10-28 Covering the political, social and historical background of each language, Dictionary of Languages offers a unique insight into human culture and communication. Every language with official status is included, as well as all those that have a written literature and 175 'minor' languages with special historical or anthropological interest. We see how, with the rapidly increasing uniformity of our culture as media's influence spreads, more languages have become extinct or are under threat of extinction. The text is highlighted by maps and charts of scripts, while proverbs, anecdotes and quotations reveal the features that make a language unique.

persian dating sites: Handbook of Orthography and Literacy R. Malatesha Joshi, P.G. Aaron, 2013-05-13 Until about two decades ago, the study of writing systems and their relationship to literacy acquisition was sparse and generally modeled after studies of English language learners. This situation is now changing. As the worldwide demand for literacy continues to grow, researchers from different countries with different language backgrounds have begun examining the connection between their writing systems and literacy acquisition. This text, which derives from a NATO sponsored conference on orthography and literacy, brings together the research of 70 scholars from across the world--the largest assemblage of such experts to date. Their findings are grouped into three parts, as follows: Part I, Literacy Acquisition in Different Writing Systems, describes the relationship between orthography and literacy in twenty-five orthographic systems. This section serves as a handy reference source for understanding the orthographies of languages as diverse as Arabic, Chinese, English, Icelandic, Kannada, and Kishwahili. Part II, Literacy Acquisition From a Cross-Linguistic Perspective, makes direct comparisons of literacy acquisition in English and other orthographic systems. The overall conclusion that emerges from these eight chapters is that the depth of an orthographic system does influence literacy acquisition primarily by slowing down the acquisition of reading skills. Even so, studies show that dyslexic readers can be found across all orthographic systems whether shallow or deep, which shows that dyslexia also has internal cognitive and biological components. Part III, Literacy Acquisition: Instructional Perspectives, explores literacy acquisition from developmental and instructional perspectives and ends with a look into the future of literacy research. This Handbook is appropriate for scholars, researchers, and graduate students in such diverse fields as cognitive psychology, psycholinguistics, literacy education, English as a second language, and communication disorders.

persian dating sites: Empire, Power and Indigenous Elites Anne Fitzpatrick-McKinley, 2015-03-10 Ancient Near Eastern empires, including Assyria, Babylon and Persia, frequently permitted local rulers to remain in power. The roles of the indigenous elites reflected in the Nehemiah Memoir can be compared to those encountered elsewhere. Nehemiah was an imperial appointee, likely of a military/administrative background, whose mission was to establish a birta in Jerusalem, thereby limiting the power of local elites. As a loyal servant of Persia, Nehemiah brought to his mission a certain amount of ethnic/cultic colouring seen in certain aspects of his activities in Jerusalem, in particular in his use of Mosaic authority (but not of specific Mosaic laws). Nehemiah appealed to ancient Jerusalemite traditions in order to eliminate opposition to him from powerful local elite networks.

persian dating sites: The Judeo-Persian Poet 'Emrānī and his "Book of Treasure" David Yeroushalmi, 2021-10-11 In the course of their long history on Iranian soil the Jews of Iran have produced a large body of literature which has been little studied and published. This volume deals with one of the most prominent Jewish poets of Iran, known as 'Emrānī (1454-1536 C.E.). The book consists of three parts. The first part studies 'Emrānī's time, life and work and analyzes in depth the

poet's last major work entitled *Ganj-nāme* (The Book of Treasure). *Ganj-nāme*, which is closely modeled after compositions of classical Persian literature, is 'Emrānī's versified commentary of the ethical tractate of the Mishnah commonly known as *Pirquey Abot* ("The Chapters of the Fathers"). The second part of the book offers the English translation, annotation and source study of *Ganj-nāme*. The third and last part of the book provides a critical edition of *Ganj-nāme*.
