Passing this exam is often a prerequisite for attending OSHA's 30-hour or 500-series training courses or for advancing in occupational safety roles.

Exam Format and Structure

The OSHA 510 exam typically consists of 50 multiple-choice questions that must be completed within a specified time limit, usually two hours. The questions focus on various aspects of construction safety and health standards as outlined by OSHA. Candidates must demonstrate a thorough understanding of OSHA standards to achieve a passing score, which is generally set at 70% or higher.
