paradise series age appropriateness: The Bob Hope Films James L. Neibaur, 2005-01-10 Bob Hope got his start in show business when he was in his twenties, remained active past the age of 90, and lived to be 100. His longevity was remarkable, especially when one considers that he was active in vaudeville, radio, motion pictures and television. He excelled in each of these popular forms of entertainment, but his films are the most genuine testaments to his timeless comedy. His smart quips, fast pace, and breezy manner were perfect ingredients for the brand of comedy that was popular during World War II and the years immediately following the war. This book begins with a discussion of Bob Hope's early career and the short films that he starred in, and then covers each of the Hope films beginning with *The Big Broadcast* of 1938. The Hope films, the author says, do not have deep subtexts or clever cinematic innovations, but provide clever, uplifting entertainment that continues to inspire laughter and offer solid examples of the humor that made Americans smile during and after World War II. Cast and credit information is provided for each film.

paradise series age appropriateness: Hollywood Sex Comedies, 1953-1964 Hal Erickson, 2024-07-09 The Hollywood sex comedy--a feature-length film in which sex motivates the storyline and the laughs are triggered by sexual situations--came into its own with the 1953 release of the once-controversial *The Moon Is Blue*. That film received very positive critical and audience response despite being denied a seal of approval from the Production Code Administration and receiving a Condemned rating from the Legion of Decency. (These two formidable watchdog agencies would continue to be challenged--and audiences would continue to be convulsed--by the abundance of sex comedies still to come.) The present informal survey focuses on 25 selected examples of the genre, released between 1953 and 1964. Along with such familiar works as *The Seven Year Itch*, *The Tender Trap*, *Pillow Talk* and *Kiss Me, Stupid*, several lesser-known sex comedies like *I Married a Woman*, *The Tunnel of Love*, *Happy Anniversary* and *Period of Adjustment* are documented, analyzed and placed in context with their times. Some are masterpieces, others mildly amusing and a few downright awful, but all are fascinating artifacts of a bygone era in popular entertainment.

paradise series age appropriateness: Love and Narrative Form in Toni Morrison's Later Novels Jean Wyatt, 2017-03 In *Love and Narrative Form in Toni Morrison's Later Novels*, Jean Wyatt explores the interaction among ideas of love, narrative innovation, and reader response in Toni Morrison's seven later novels. Love comes in a new and surprising shape in each of the later novels; for example, *Love* presents it as the deep friendship between little girls; in *Home* it acts as a disruptive force producing deep changes in subjectivity; and in *Jazz* it becomes something one innovates and recreates each moment—like jazz itself. Each novel's unconventional idea of love requires a new experimental narrative form. Wyatt analyzes the stylistic and structural innovations of each novel, showing how disturbances in narrative chronology, surprise endings, and gaps mirror the dislocated temporality and distorted emotional responses of the novels' troubled characters and demand that the reader situate the present-day problems of the characters in relation to a traumatic African American past. The narrative surprises and gaps require the reader to become an active participant in making meaning. And the texts' complex narrative strategies draw out the reader's convictions about love, about gender, about race—and then prompt the reader to reexamine them, so that reading becomes an active ethical dialogue between text and reader. Wyatt uses psychoanalytic concepts to analyze Morrison's narrative structures and how they work on readers. *Love and Narrative Form* devotes a chapter to each of Morrison's later novels: *Beloved*, *Jazz*, *Paradise*, *Love*, *A Mercy*, *Home*, and *God Help the Child*.

paradise series age appropriateness: **The Aesthetics of Children's Poetry** Katherine Wakely-Mulroney, Louise Joy, 2017-11-01 This collection gives sustained attention to the literary dimensions of children's poetry from the eighteenth century to the present. While reasserting the importance of well-known voices, such as those of Isaac Watts, William Blake, Lewis Carroll, Christina Rossetti, A. A. Milne, and Carol Ann Duffy, the contributors also reflect on the aesthetic significance of landmark works by less frequently celebrated figures such as Richard Johnson, Ann and Jane Taylor, Cecil Frances Alexander and Michael Rosen. Scholarly treatment of children's poetry has tended to focus on its publication history rather than to explore what comprises – and why we delight in – its idiosyncratic pleasures. And yet arguments about how and why poetic language might appeal to the child are embroiled in the history of children's poetry, whether in Isaac Watts emphasising the didactic efficacy of “like sounds,” William Blake and the Taylor sisters revelling in the beauty of semantic ambiguity, or the authors of nonsense verse jettisoning sense to thrill their readers with the sheer music of poetry. Alive to the ways in which recent debates both echo and repudiate those conducted in earlier periods, *The Aesthetics of Children's Poetry* investigates the stylistic and formal means through which children's poetry, in theory and in practice, negotiates the complicated demands we have made of it through the ages.

What happens to us when we die? The book seeks to explore how that question has been answered in American popular culture. It begins with five framing essays that provide historical and intellectual background on ideas about the afterlife in Western culture. These essays are followed by more than 100 entries, each focusing on specific cultural products or authors that feature the afterlife front and center. Entry topics include novels, film, television shows, plays, works of nonfiction, graphic novels, and more, all of which address some aspect of what may await us after our passing. This book is unique in marrying a historical overview of the afterlife with detailed analyses of particular cultural products, such as films and novels. The book provides historical context for contemporary depictions of the afterlife addressed in the entries, which deal specifically with work produced in the 20th and 21st centuries.
