olympia of infidelity plot: *Persecution and Morality* Valerie Oved Giovanini, 2021-04-22 This book shows how persecution is a condition that binds each in an ethical obligation to the other. Persecution is functionally defined here as an impinging, affective relation that is not mediated by reason. It focuses on the works and personal lives of Emmanuel Lévinas—a phenomenological ethicist who understood persecution as an ontological condition for human existence—and Sigmund Freud, the inventor of psychoanalysis who proposed that a demanding superego is a persecuting psychological mechanism that enables one to sadistically enjoy moral injunctions. Scholarship on the work of Freud and Lévinas remains critical about their objectivity, but this book uses the phenomenological method to bracket this concern with objective truth and instead reconstruct their

historical biographies to evaluate their hyperbolically opposing claims. By doing so, it is suggested that moral actions and relations of persecution in their personal lives illuminate the epistemic limits that they argued contribute to the psychological and ontological necessity of persecuting behaviors. Object relations and intersubjective approaches in psychoanalysis successfully incorporate meaningful elements from both of their theoretical works, which is used to develop an intentionality of search that is sensitive to an unknowable, relational, and existentially vulnerable ethical subjectivity. Details from Freud's and Lévinas' works and lives, on the proclivity to use persecution to achieve moral ends, provide significant ethical warnings, and the author uses them as a strategy for developing the reader's intentionality of search, to reflect on when they may use persecuting means for moral ends. The interdisciplinary nature of this research monograph is intended for academics, scholars, and researchers who are interested in psychoanalysis, moral philosophy, and phenomenology. Comparisons between various psychoanalytic frameworks and Lévinas' ethic will also interest scholars who work on the relation between psychoanalysis and The Other. Lévinas scholars will value the convergences between his ethics and Freud's moral skepticism; likewise, readers will be interested in the extension of Lévinas' intentionality of search. The book is useful for undergraduate or graduate courses on literary criticism and critical theories worldwide.

olympia of infidelity plot: Images of Women and Gender Identity in John Marston's Plays Sukanya Behura Senapati, 2023-10-16 Images of Women and Gender Identity in John Marston's Plays contends that, although the Jacobean period was known for its misogyny and John Marston for his quarrels with his fellow poets, Marston's plays deserve reevaluation and critical interrogation through a feminist lens. Arguing that patriarchy and ownership of private property are intimately meshed together, Senapati posits that Marston interrogates the misogyny of the Jacobean period by delimiting two predominant myths that have crippled women through the centuries—the beauty myth and the myth of the weak and sexual female—both constructs of patriarchy. Through the tracing of the history of five prototype images of women in literature—wench, wife, widow, sex worker, and witch—from antiquity to the early modern period, Sukanya Behura Senapati demonstrates Marston's explosions of binary gender categorizations to open space for experimental constructions of fluid and flexible gender identities.

olympia of infidelity plot: Prince Eugène Paul Frischauer, 2017-01-12 First published in 1934, this is a biography of Prince Eugene of Savoy (18 October 1663 - 21 April 1736), one of the most successful military commanders in modern European history. Born in Paris, he grew up around the French court of King Louis XIV. Initially prepared for a career in the church, by the age of 19 Eugene had determined on a military career; however, rejected by Louis XIV for service in the French army, he moved to Austria and transferred his loyalty to the Habsburg Monarchy. Spanning six decades, he served three Holy Roman Emperors: Leopold I, Joseph I, and Charles VI. He first saw action against the Ottoman Turks at the Siege of Vienna in 1683 and the subsequent War of the Holy League, before serving in the Nine Years' War, fighting alongside his cousin, the Duke of Savoy. The Prince's fame was secured with his decisive victory against the Ottomans at the Battle of Zenta in 1697, earning him Europe-wide fame. The Prince enhanced his standing during the War of the Spanish Succession, where his partnership with the Duke of Marlborough secured victories against the French on the fields of Blenheim (1704), Oudenarde (1708), and Malplaquet (1709). He gained further success in the war as Imperial commander in northern Italy, most notably at the Battle of Turin (1706). Renewed hostilities against the Ottomans in the Austro-Turkish War consolidated his reputation, with victories at the battles of Petrovaradin (1716), and the decisive encounter at Belgrade (1717). Throughout the late 1720s, Eugene's influence and skilful diplomacy managed to secure the Emperor powerful allies in his dynastic struggles with the Bourbon powers: he helped to save the Habsburg Empire from French conquest; he broke the westward thrust of the Ottomans, liberating central Europe after a century and a half of Turkish occupation; and he was one of the great patrons of the arts whose building legacy can still be seen in Vienna today.

olympia of infidelity plot: *Austria Made in Hollywood* Jacqueline Vansant, 2019 Considers over sixty Hollywood films set in Austria, examining the film industry, the influence of domestic factors on images of a foreign country, and the persistence of clichés. Maria von Trapp, watching the final scene of *The Sound of Music* for the first time as her family escaped into Switzerland, exclaimed, Don't they know geography in Hollywood? Salzburg does not border on Switzerland! Hadshe thought about the beginning of the film, which transports viewers to Salzburg, Austria in the last Golden Days of the Thirties, when the country was in fact suffering from extreme political and social unrest, she might have asked, Don't they know history either? In *The Sound of Music* as well as in Hollywood's many other Austria films, the projections on the screen resemble reflections in a funhouse mirror. Elements of a real place with areal history inhabited by real people can be found in the fractured distortions, which have both drawn from and contributed to the general public's perceptions of the country and its citizens. *Austria Made in Hollywood* focuses on films set in an identifiable Austria, examining them through the lenses of the historical contexts on both sides of the Atlantic and the prism of the ever-changing domestic film industry. The study chronicles the protean screen images of Austria and Austrians that set them apart both from European projections of Austria and from Hollywood incarnations of other European nations and nationals. It explores explicit and implicit cultural commentaries on domestic and foreign issues inserted in the Austrian stories while considering the many, sometimes conflicting forces that shaped the films.

olympia of infidelity plot: *Ancient Historiography on War and Empire* Timothy Howe, Sabine Müller, Richard Stoneman, 2016-11-30 In the ancient Greek-speaking world, writing about the past meant balancing the reporting of facts with shaping and guiding the political interests and behaviours of the present. *Ancient Historiography on War and Empire* shows the ways in which the literary genre of writing history developed to guide empires through their wars. Taking key events from the Achaemenid Persian, Athenian, Macedonian and Roman 'empires', the 17 essays collected here analyse the way events and the accounts of those events interact. Subjects include: how Greek historians assign nearly divine honours to the Persian King; the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians; warfare and financial innovation in the age of Philip II and his son, Alexander the Great; the murders of Philip II, his last and seventh wife Kleopatra, and her guardian, Attalos; Alexander the Great's combat use of eagle symbolism and divination; Plutarch's juxtaposition of character in the Alexander-Caesar pairing as a commentary on political legitimacy and military prowess, and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority. In some cases, the balance shifts more towards the 'literary' and in others more towards the 'historical', but what all of the essays have in common is both a critical attention to the genre and context of history-writing in the ancient world and its focus on war and empire.

olympia of infidelity plot: Victorian Automata Suzy Anger, Thomas Vranken, 2024-03-20 The relationship between lifelike machines and mechanistic human behaviour provoked both fascination and anxiety in Victorian culture. This collection is the first to examine the widespread cultural interest in automata - both human and mechanical - in the nineteenth century. It was in the Victorian period that industrialization first met information technology, and that theories of physical and mental human automatism became essential to both scientific and popular understandings of thought and action. Bringing together essays by a multidisciplinary group of leading scholars, this volume explores what it means to be human in a scientific and industrial age. It also considers how Victorian inquiry and practices continue to shape current thought on race, creativity, mind, and agency.
