paris bennett post idol: I Want to Change My Life Barrie Gunter, 2014-07-24 Competition talent shows have been among the most popular on television in the 21st century. The producers of these shows claim to give ordinary people extraordinary opportunities to change their lives by showcasing a specific skill leading to a new career trajectory. Most participants will claim that they entered to get a big break and to develop a career they have always dreamed of. To what extent do these shows deliver on such promises? Following through what happens to leading contestants in singing, entertainment, modelling, cooking and business entrepreneur competitions, this book shows that few go on to achieve lasting success in their chosen career. Many return to obscurity or to their previous lives. Some enjoy a low level career in the new direction delivered by the competition they entered. Just a few become truly successful. The pop and entertainment themed contests have discovered just a handful of major pop stars and entertainers out of many hundreds who have taken part after the initial auditions. Turning to the cookery or business franchises, there are few who go on to achieve lasting success in their chosen career. In these it is equally likely that the winners go on to enjoy success with media careers rather than as chefs or entrepreneurs. The most successful franchise of all is the fashion model competition (Next Top Model), which has yielded a high hit rate in terms of career success. What the analysis here also reveals is that it isn't only the winners who ultimately benefit the most from their appearances in these shows. Moreover, television picks its own stars by recruiting contestants because they are telegenic or have a good backstory as much as for their relevant talents. In this way, a talent hungry medium has co-opted these franchises to replenish its own needs.

The book encompasses the careers of sixteen actors, including Stanley Baker, Diana Dors, Norman Wisdom, Hattie Jacques, Peter Finch and Peter Sellers. His experiences as an actor, director, playwright, film and television writer, and novelist in both England and Hollywood left him with many amusing anecdotes, opinions about his craft, and impressions of the many famous people he knew. Among other things, Bennett was a decorated WWI hero, an eminent Shakespearean actor, and an Allied spy and propagandist during WWII, but he is best remembered for his commercially and critically acclaimed collaborations with directors Sir Alfred Hitchcock and Cecil B. DeMille. The fruitful partnership with Hitchcock began after the director adapted Bennett's 1929 play *Blackmail* as the first British sound film. Their partnership produced six thrillers: *The Man Who Knew Too Much*, *The 39 Steps*, *Sabotage*, *Secret Agent*, *Young and Innocent*, and *Foreign Correspondent*. In this witty and intriguing book, Bennett discusses how their collaboration created such famous motifs as the "wrong man accused" device and the MacGuffin. He also takes readers behind the scenes with the Master of Suspense, offering his thoughts on the director's work, sense of humor, and personal life. Featuring an introduction and additional biographical material from Bennett's son, editor John Charles Bennett, *Hitchcock's Partner in Suspense* is a richly detailed narrative of a remarkable yet often-overlooked figure in film history.
