- Scott Galloway's Academic Role at NYU
- Key Courses and Curriculum Contributions
- Galloway's Influence on Business and Marketing Education
- Publications and Media Presence
- Entrepreneurial Ventures and Industry Impact

Scott Galloway's Academic Role at NYU

Scott Galloway serves as a Clinical Professor of Marketing at the New York University Stern School of Business. In this capacity, he delivers courses that focus on brand strategy, digital marketing, and the evolving landscape of the technology sector. His role extends beyond traditional teaching, involving mentorship and active engagement with both students and faculty. Galloway's approach combines academic rigor with real-world applications, making his classes highly sought after by aspiring business leaders. His position at NYU underscores his commitment to preparing students for the challenges of the modern business environment.

Professional Background and Expertise

Before joining NYU, Scott Galloway accumulated extensive experience as an entrepreneur and marketing consultant. His academic credentials include an MBA from the University of California, Berkeley. At NYU, he leverages this blend of practical and academic knowledge to enrich classroom discussions and case studies. His expertise focuses on how technology companies shape consumer behavior and market dynamics, providing students with critical tools to analyze and predict industry trends.

Teaching Philosophy and Methodology

Galloway's teaching methodology emphasizes clarity, critical thinking, and actionable insights. He encourages students to challenge conventional wisdom and develop data-driven strategies. His classes often incorporate contemporary case studies, technology market analysis, and interactive discussions. This engagement fosters a learning environment where students can connect theory with practice, preparing them for strategic roles in marketing and business development.

Key Courses and Curriculum Contributions

At NYU Stern, Scott Galloway is known for delivering several influential courses that attract a wide range of students from various business disciplines. His curriculum is designed to address current trends in marketing and technology, ensuring relevancy and applicability.

Brand Strategy and Digital Marketing

This course explores the fundamentals of building and sustaining powerful brands in the digital age. Galloway covers topics including brand positioning, consumer psychology, and the impact of social media platforms. The course aims to provide students with strategic frameworks to develop compelling brand narratives in competitive markets.

The Business of Technology

Another core offering by Galloway at NYU focuses on the intersection of technology, business models, and market disruption. Students analyze the strategies employed by leading tech giants and emerging startups. The curriculum highlights the role of innovation, data analytics, and platform-based business models.

Curriculum Development and Innovation

Beyond teaching, Scott Galloway has contributed to the evolution of the NYU Stern curriculum by integrating new modules that reflect rapid changes in the business environment. His input ensures that the program remains forward-looking and aligned with industry needs.

Galloway's Influence on Business and Marketing Education

Scott Galloway's impact on business education extends beyond the classroom. His thought leadership and public discourse have influenced how marketing and technology are taught and understood.

Thought Leadership and Industry Insights

Galloway is recognized for his insightful analyses of market trends, especially concerning major technology companies such as Amazon, Apple, Facebook, and Google. His perspectives help shape academic discussions and industry strategies alike.

Engagement with Students and Alumni

At NYU, Galloway actively engages with students through mentorship programs, guest lectures, and networking events. His ability to connect academic concepts with real-world applications inspires many students to pursue careers in digital marketing, entrepreneurship, and tech-driven businesses.

Impact on Marketing Curriculum Standards

Through his innovative teaching and public presence, Galloway has contributed to raising the standards of marketing education. His emphasis on data analytics, brand authenticity, and consumer behavior analysis has been integrated into modern business programs across institutions.

Publications and Media Presence

Scott Galloway has authored several books and maintains a strong media presence, which complements his academic role at NYU and broadens his influence.

Books and Written Works

His prominent books discuss the future of business, technology's impact on society, and strategies for brand success. These publications serve as resources for students, professionals, and academics interested in market trends and corporate strategy.

Podcasts and Public Speaking

Galloway hosts popular podcasts and frequently appears in media outlets to discuss business innovations and economic forecasts. His accessible communication style has helped disseminate complex business concepts to broader audiences.

Social Media and Online Platforms

Active on various social media channels, Galloway shares insights, commentary, and educational content. This presence enhances his role as an educator by reaching audiences beyond NYU and fostering public engagement with business topics.

Entrepreneurial Ventures and Industry Impact

In addition to his academic career, Scott Galloway is an accomplished entrepreneur whose ventures have influenced the marketing and technology fields.

Founding and Leading Companies

Galloway has founded and led several companies focused on brand strategy and digital marketing. These ventures provide practical case studies and firsthand experience that inform his teaching and consulting work.

Consulting and Advisory Roles

He serves as an advisor to numerous startups and established corporations, offering strategic insights on growth, branding, and market positioning. His advisory roles reinforce the connection between academic theory and industry practice.

Recognition and Awards

Galloway's contributions have been recognized by various institutions and industry groups. His blend of academic excellence and entrepreneurial success exemplifies the evolving role of business educators in the 21st century.

- Clinical Professor of Marketing at NYU Stern
- Author of influential business books
- Host of business-focused podcasts
- Entrepreneur and strategic advisor
- Innovator in marketing education and curriculum development

Does Scott Galloway offer any online courses or webinars through NYU?

While Scott Galloway primarily teaches in-person at NYU Stern, he also offers online content and webinars through various platforms and his own website.

How does Scott Galloway integrate real-world business trends into his NYU curriculum?

Scott Galloway uses his experience as an entrepreneur and industry analyst to bring current business trends, market analysis, and case studies into his classroom teaching at NYU.

What impact has Scott Galloway had on students at NYU Stern?

Scott Galloway is known for his engaging teaching style and practical insights, inspiring many NYU

Stern students to pursue careers in marketing, tech, and entrepreneurship.

Where can I follow Scott Galloway's latest insights related to NYU and marketing?

You can follow Scott Galloway on social media platforms like Twitter and LinkedIn, as well as through his website and podcast 'The Prof G Show' for the latest insights on marketing, technology, and his work at NYU.

Additional Resources

1. *The Four: The Hidden DNA of Amazon, Apple, Facebook, and Google*

Scott Galloway explores the dominance of four tech giants—Amazon, Apple, Facebook, and Google—and how they shape the economy, culture, and our daily lives. Drawing from his expertise as a NYU professor and entrepreneur, he explains their strategies and the impact on competition and innovation. The book offers insights into the future of business and technology.

2. *Algebra of Happiness: Notes on the Pursuit of Success, Love, and Meaning*

In this reflective work, Scott Galloway shares personal lessons and wisdom on achieving a balanced life. Combining data, storytelling, and candid advice, he discusses the intersections of career, relationships, and well-being. It's a guide to finding fulfillment beyond financial success.

3. *Post Corona: From Crisis to Opportunity*

Co-authored by Scott Galloway, this book analyzes the lasting effects of the COVID-19 pandemic on business and society. It highlights how certain industries and companies have accelerated growth while others face disruption. Galloway provides a roadmap for navigating the post-pandemic economic landscape.

4. *Scandal: How the Social Network's Dark Side Changed the World*

Drawing on his expertise in digital economics and social media, Galloway examines the controversies surrounding major social platforms like Facebook. The book delves into issues of privacy, misinformation, and the societal consequences of social networks. It serves as a critical look at tech's influence on democracy and culture.

5. *Big Tech and the Future of Business: Insights from NYU's Scott Galloway*

This collection compiles Scott Galloway's analyses and lectures from NYU Stern, focusing on the evolving role of technology giants. It covers trends in e-commerce, advertising, and consumer behavior, offering predictions for the next decade. The book is essential for understanding the modern corporate landscape.

6. *Branding in the Digital Age: Lessons from Scott Galloway*

Galloway shares strategies on building and sustaining powerful brands in an increasingly digital world. Drawing from his academic and professional background, he discusses how companies can leverage technology and culture to connect with consumers. The book is a practical guide for marketers and entrepreneurs.

7. *The New Rules of Retail: Insights from Scott Galloway and NYU*

This book explores the transformation of the retail industry, driven by technology and changing consumer expectations. Galloway offers analysis on the rise of e-commerce, the decline of traditional

stores, and what it takes to succeed in retail today. It provides valuable perspectives for business leaders and students alike.

8. *Leadership and Innovation: Scott Galloway's Guide to Modern Business*

Focusing on leadership principles and innovative thinking, this book distills lessons from Galloway's teaching at NYU and his entrepreneurial ventures. It emphasizes adaptability, vision, and ethical considerations in building successful organizations. Readers gain actionable advice for driving growth and change.

9. *Future of Work: Perspectives from Scott Galloway*

Galloway examines how technology, automation, and societal shifts are reshaping the workplace. He discusses the implications for employees, employers, and education systems, offering strategies to thrive amid change. The book is a forward-looking analysis relevant to business professionals and policymakers.

scott galloway nyu: Post Corona Scott Galloway, 2020-11-24 New York Times bestseller! Few are better positioned to illuminate the vagaries of this transformation than Galloway, a tech entrepreneur, author and professor at New York University's Stern School. In brisk prose and catchy illustrations, he vividly demonstrates how the largest technology companies turned the crisis of the pandemic into the market-share-grabbing opportunity of a lifetime. --The New York Times As good an analysis as you could wish to read. --The Financial Times From bestselling author and NYU Business School professor Scott Galloway comes a keenly insightful, urgent analysis of who stands to win and who's at risk to lose in a post-pandemic world The COVID-19 outbreak has turned bedrooms into offices, pitted young against old, and widened the gaps between rich and poor, red and blue, the mask wearers and the mask haters. Some businesses--like home exercise company Peloton, video conference software maker Zoom, and Amazon--woke up to find themselves crushed under an avalanche of consumer demand. Others--like the restaurant, travel, hospitality, and live entertainment industries--scrambled to escape obliteration. But as New York Times bestselling author Scott Galloway argues, the pandemic has not been a change agent so much as an accelerant of trends already well underway. In *Post Corona*, he outlines the contours of the crisis and the opportunities that lie ahead. Some businesses, like the powerful tech monopolies, will thrive as a result of the disruption. Other industries, like higher education, will struggle to maintain a value proposition that no longer makes sense when we can't stand shoulder to shoulder. And the pandemic has accelerated deeper trends in government and society, exposing a widening gap between our vision of America as a land of opportunity, and the troubling realities of our declining wellbeing. Combining his signature humor and brash style with sharp business insights and the occasional dose of righteous anger, Galloway offers both warning and hope in equal measure. As he writes, Our commonwealth didn't just happen, it was shaped. We chose this path--no trend is permanent and can't be made worse or corrected.

scott galloway nyu: Notes on Being a Man Scott Galloway, 2025-11-04 Bestselling author, NYU professor, and cohost of the Pivot podcast, Scott Galloway offers a path forward for men and parents

of boys. Boys and men are in crisis. Rarely has a cohort fallen further and faster than young men living in Western democracies. Boys are less likely to graduate from high school or college than girls. One in seven men reports having no friends, and men account for three of every four deaths of despair in America. Even worse, the lack of attention to these problems has created a void filled by voices espousing misogyny, the demonization of others, and a toxic vision of masculinity. But this is not just a male issue: women and children can't flourish if men aren't doing well. As we know from spasms of violence, there is nothing more dangerous than a lonely, broke young man. Scott Galloway has been sounding the alarm on this issue for years. In *Notes on Being a Man*, Galloway explores what it means to be a man in modern America. He promotes the importance of healthy masculinity and mental strength. He shares his own story from boyhood to manhood. He explores his parent's difficult divorce, working through his anger and depression issues, trying to make money, and raising two boys. He shares the sometimes funny, often painful, lessons he learned along the way. Some of these lessons include: Being a good dad means being good to their mother. Action absorbs anxiety. Find what you're good at—follow your talent. Get out of the house. Take risk and be willing to feel like an imposter. This is a key to professional success—and masculinity. Acknowledge your blessings—and create opportunities for others. Be of surplus value. Be kind. That's the secret to success in relationships. With unflinching honesty, Scott Galloway maps out an enriching, inspiring operator's manual for being a man today.

scott galloway nyu: *The Algebra of Happiness* Scott Galloway, 2019-05-14 An unconventional book of wisdom and life advice from renowned business school professor and New York Times bestselling author of *The Four* Scott Galloway. Scott Galloway teaches brand strategy at NYU's Stern School of Business, but his most popular lectures deal with life strategy, not business. In the classroom, on his blog, and in YouTube videos garnering millions of views, he regularly offers hard-hitting answers to the big questions: What's the formula for a life well lived? How can you have a meaningful career, not just a lucrative one? Is work/life balance possible? What are the elements of a successful relationship? *The Algebra of Happiness: Notes on the Pursuit of Success, Love, and Meaning* draws on Professor Galloway's mix of anecdotes and no-BS insight to share hard-won wisdom about life's challenges, along with poignant personal stories. Whether it's advice on if you should drop out of school to be an entrepreneur (it might have worked for Steve Jobs, but you're probably not Steve Jobs), ideas on how to position yourself in a crowded job market (do something boring and move to a city; passion is for people who are already rich), discovering what the most important decision in your life is (it's not your job, your car, OR your zip code), or arguing that our relationships to others are ultimately all that matter, Galloway entertains, inspires, and provokes. Brash, funny, and surprisingly moving, *The Algebra of Happiness* represents a refreshing perspective on our need for both professional success and personal fulfillment, and makes the perfect gift for any new graduate, or for anyone who feels adrift.

scott galloway nyu: *Adrift* Scott Galloway, 2022-09-27 From bestselling author, CNN+ host of *No Mercy, No Malice*, and NYU business school professor Scott Galloway comes an urgent examination of the future of our nation – and how we got here. We are only just beginning to reckon with our post-pandemic future. As political extremism intensifies, the great resignation affects businesses everywhere, and supply chain issues crush bottom lines, we're faced with daunting questions – is our democracy under threat? How will Big Tech change our lives? What does job security look like for me? America is on the brink of massive change – change that will disrupt the workings of our economy and drastically impact the financial backbone of our nation: the middle class. In *Adrift*, Galloway looks to the past – from 1945 to present day – to explain just how America arrived at this precipice. Telling the story of our nation through 100 charts, Galloway demonstrates how crises such as Jim Crow, World War II, and the Stock Market Crash of 2008, as well as the escalating power of technology, an entrenched white patriarchy, and the socio-economic effects of the pandemic, created today's perfect storm. *Adrift* attempts to make sense of it all, and offers Galloway's unique take on where we're headed and who we'll become, touching on topics as wide-ranging as online dating to minimum wage to the American dream. Just as in 1945 and 1980,

America is once again a nation at a crossroads. This time, what will it take for our nation to keep up with the fast and violent changes to our new world?

scott galloway nyu: How The New Education Establishment Betrayed The World's Poorest Children Joanna Härmä, 2025-01-23 This book tells the real story of education in low-income countries and shows why ordinary people are making extreme sacrifices to reject free public schools in favor of low quality private schools, both legal and illegal. Based on the author's experience of working in the UN system, for a child rights NGO in New Delhi; and working on aid projects and with private foundations in Africa and South Asia, Joanna Harma reveals how public education systems got to their current state of dysfunction. She argues that the international aid community and United Nations bodies such as UNESCO and UNICEF have facilitated the decline in public education and argues that young children are being let down by education systems and policy from the local to the international. Harma looks at this issue from the perspectives of various stakeholders including international human rights workers, parents, the companies who set up the schools, policy makers and NGO workers. The book includes a preface from Ben Phillips, Director of Communications at The Joint United Nations Programme on HIV/AIDS (UNAIDS).

scott galloway nyu: The Human Imperative Paul Nemitz, 2023-11-25 This important new book is about power in the age of Artificial Intelligence. It looks at what the new technical powers that have accrued over the last decades mean for the freedom of people and for our democracies. AI must not be considered in isolation, but rather in a very specific context; the concentration of economic and digital-technological power that we see today. Analysis of the effects of AI requires that we take a holistic view of the business models of digital technologies, and of the power they exercise. Technology, economic power, and political power are entering into ever closer symbiosis. Digital technologies and their corporate masters now know more than people know about themselves, or governments know about the world. These technologies accumulate more and more decision-making powers. Taken together this leads to a massive asymmetry of knowledge and power in the relationship between man and machine. The classical models of action and decision-making in democratic societies are being gradually undermined by such developments. In a new way, the question of the control of technical power arises. This is the first book to look in detail in a holistic way at the challenges of digital power and Artificial Intelligence to Democracy and Liberties, and to set out what can and needs to be done about these challenges in terms of engineering ethics, and democratic action of policy making and legislation. Key audiences are scholars in media sciences, political sciences, computer sciences and engineering, law and philosophy as well as policy makers, corporate and civil society leaders and the educated public. Adapted and updated from the original German language book "Prinzip Mensch - Macht, Freiheit und Demokratie im Zeitalter der Künstlichen Intelligenz", published 2020 by Verlag J.H.W. Dietz Nachf. GmbH.

scott galloway nyu: The Four Scott Galloway, 2017-10-05 'A fantastic, provocative book about where we are now and where we are going' Phil Simon Huffington Post Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions: - How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? - Why does the stock market forgive them for sins that would destroy other firms? - And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

scott galloway nyu: The Attention Economy and How Media Works Karen Nelson-Field,

2020-01-04 This book offers a considered voice on the advertising chaos that colours our rapidly changing media environment in a world of fake news, fast facts and seriously depleted attention stamina. Rather than simply herald disruption, Karen Nelson-Field starts an intelligent conversation on what it will take for businesses to win in an attention economy, the advertising myths we need to leave behind and the scientific evidence we can use to navigate a complex advertising and media ecosystem. This book makes sense of viewability standards, coverage and clutter; it talks about the real quality behind a qCPM and takes a deep dive into the relationship between attention and sales. It explains the stark reality of human attention processing in advertising. Readers will learn how to maximise a viewer's divided attention by leveraging specific media attributes and using attention-grabbing creative triggers. Nelson-Field asks you to pay attention to a disrupted advertising future without panic, but rather with a keen eye on the things that brand owners can learn to control.

scott galloway nyu: *Data for All* John K. Thompson, 2023-08-08 Do you know what happens to your personal data when you are browsing, buying, or using apps? Discover how your data is harvested and exploited, and what you can do to access, delete, and monetize it. *Data for All* empowers everyone—from tech experts to the general public—to control how third parties use personal data. Read this eye-opening book to learn: The types of data you generate with every action, every day Where your data is stored, who controls it, and how much money they make from it How you can manage access and monetization of your own data Restricting data access to only companies and organizations you want to support The history of how we think about data, and why that is changing The new data ecosystem being built right now for your benefit The data you generate every day is the lifeblood of many large companies—and they make billions of dollars using it. In *Data for All*, bestselling author John K. Thompson outlines how this one-sided data economy is about to undergo a dramatic change. Thompson pulls back the curtain to reveal the true nature of data ownership, and how you can turn your data from a revenue stream for companies into a financial asset for your benefit. Foreword by Thomas H. Davenport. About the Technology Do you know what happens to your personal data when you're browsing and buying? New global laws are turning the tide on companies who make billions from your clicks, searches, and likes. This eye-opening book provides an inspiring vision of how you can take back control of the data you generate every day. About the Book *Data for All* gives you a step-by-step plan to transform your relationship with data and start earning a "data dividend"—hundreds or thousands of dollars paid out simply for your online activities. You'll learn how to oversee who accesses your data, how much different types of data are worth, and how to keep private details private. What's Inside The types of data you generate with every action, every day How you can manage access and monetization of your own data The history of how we think about data, and why that is changing The new data ecosystem being built right now for your benefit About the Reader For anyone who is curious or concerned about how their data is used. No technical knowledge required. About the Author John K. Thompson is an international technology executive with over 37 years of experience in the fields of data, advanced analytics, and artificial intelligence. Table of Contents 1 A history of data 2 How data works today 3 You and your data 4 Trust 5 Privacy 6 Moving from Open Data to Our Data 7 Derived data, synthetic data, and analytics 8 Looking forward: What's next for our data?

scott galloway nyu: *The AI Playbook* Eric Siegel, 2024-02-06 In his bestselling first book, Eric Siegel explained how machine learning works. Now, in *The AI Playbook*, he shows how to capitalize on it. "Eric Siegel delivers a robust primer on machine learning, the key mechanism in AI. A forward-looking, practical book and a must-read for anyone in the information economy." —Scott Galloway, NYU Stern Professor of Marketing; bestselling author of *The Four* "An antidote to today's relentless AI hype—why some AI initiatives thrive while others fail and what it takes for companies and people to succeed." —Charles Duhigg, author of bestsellers *The Power of Habit* and *Smarter Faster Better* The greatest tool is the hardest to use. Machine learning is the world's most important general-purpose technology—but it's notoriously difficult to launch. Outside Big Tech and a handful of other leading companies, machine learning initiatives routinely fail to deploy, never realizing

value. What's missing? A specialized business practice suitable for wide adoption. In *The AI Playbook*, bestselling author Eric Siegel presents the gold-standard, six-step practice for ushering machine learning projects, aka predictive AI projects, from conception to deployment. He illustrates the practice with stories of success and of failure, including revealing case studies from UPS, FICO, and prominent dot-coms. This disciplined approach serves both sides: It empowers business professionals, and it establishes a sorely needed strategic framework for data professionals. Beyond detailing the practice, this book also upskills business professionals—painlessly. It delivers a vital yet friendly dose of semi-technical background knowledge that all stakeholders need to lead or participate in machine learning projects, end to end. This puts business and data professionals on the same page so that they can collaborate deeply, jointly establishing precisely what machine learning is called upon to predict, how well it predicts, and how its predictions are acted upon to improve operations. These essentials make or break each initiative—getting them right paves the way for machine learning's value-driven deployment. A note from the author: The buzzword AI can mean many things, but this book is about the most vital use cases of machine learning, those designed to improve large-scale business operations—aka predictive AI or predictive analytics.

scott galloway nyu: *The Professional* Tony Frost, 2025-04-23 Build a successful career and navigate the future of work What does it take to be a professional today? Do you know what you need to do to succeed and grow at work? *The Professional* is essential reading for anyone entering the professional world and looking to gain a competitive edge early in their career. From ever-changing client and employer expectations to the rise of artificial intelligence, it's never been more important to futureproof your professional skills. *The Professional* offers the tools and advice you need to navigate challenges and thrive in your chosen profession. Learn how to: Discover what gets you out of bed in the morning: Stay motivated in your career and find purpose, meaning and self-determination in your work. Embrace learning: Understand the importance of curiosity and embrace lifelong development to stay ahead in your field. Do what a machine can't: Develop the key skills that will make you indispensable in the age of AI. Fit your own oxygen mask first: Boost your performance and avoid burnout with self-care. Supercharge your career growth: Discover the seven accelerants that will help you achieve your goals. Step by step, you'll discover how to grow your career through planning, personal branding, mentorship, feedback, emotional intelligence and more. *The Professional* is a must-have resource for those looking to stay ahead and thrive in law, accounting, finance, consulting, engineering, architecture or any professional field.

scott galloway nyu: *The End of Reality* Jonathan Taplin, 2023-09-05 An instant bestseller! A brilliant takedown and exposé of the great con job of the twenty-first century—the metaverse, crypto, space travel, transhumanism—being sold by four billionaires (Peter Thiel, Mark Zuckerberg, Marc Andreessen, Elon Musk), leading to the degeneration and bankruptcy of our society. At a time when the crises of income inequality, climate, and democracy are compounding to create epic wealth disparity and the prospect of a second American civil war, four billionaires are hyping schemes that are designed to divert our attention away from issues that really matter. Each scheme—the metaverse, cryptocurrency, space travel, and transhumanism—is an existential threat in moral, political, and economic terms. In *The End of Reality*, Jonathan Taplin provides perceptive insight into the personal backgrounds and cultural power of these billionaires—Peter Thiel, Elon Musk, Mark Zuckerberg, and Marc Andreessen (“The Four”) —and shows how their tech monopolies have brought middle-class wage stagnation, the hollowing out of many American towns, a radical

increase in income inequality, and unbounded public acrimony. Meanwhile, the enormous amount of taxpayer money to be funneled into the dystopian ventures of The Four, the benefits of which will accrue to billionaires, exacerbate these disturbing trends. The End of Reality is both scathing critique and reform agenda that replaces the warped worldview of The Four with a vision of regenerative economics that seeks to build a sustainable society with healthy growth and full employment.

scott galloway nyu: *The Cult of We* Eliot Brown, Maureen Farrell, 2022-03-15 WALL STREET JOURNAL BESTSELLER • A FINANCIAL TIMES, FORTUNE, AND NPR BEST BOOK OF THE YEAR • “The riveting, definitive account of WeWork, one of the wildest business stories of our time.”—Matt Levine, Money Stuff columnist, Bloomberg Opinion The definitive story of the rise and fall of WeWork (also depicted in the upcoming Apple TV+ series WeCrashed, starring Jared Leto and Anne Hathaway), by the real-life journalists whose Wall Street Journal reporting rocked the company and exposed a financial system drunk on the elixir of Silicon Valley innovation. LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD WeWork would be worth \$10 trillion, more than any other company in the world. It wasn’t just an office space provider. It was a tech company—an AI startup, even. Its WeGrow schools and WeLive residences would revolutionize education and housing. One day, mused founder Adam Neumann, a Middle East peace accord would be signed in a WeWork. The company might help colonize Mars. And Neumann would become the world’s first trillionaire. This was the vision of Neumann and his primary cheerleader, SoftBank’s Masayoshi Son. In hindsight, their ambition for the company, whose primary business was subletting desks in slickly designed offices, seems like madness. Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion—on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country’s most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart. Nearly \$40 billion of value vaporized in one of corporate America’s most spectacular meltdowns. Peppered with eye-popping, never-before-reported details, *The Cult of We* is the gripping story of careless and often absurd people—and the financial system they have made.

scott galloway nyu: *The Money Trap* Alok Sama, 2024-09-17 A gripping and entertaining memoir that shines a rare light on an industry that is disrupting our lives. Veteran Morgan Stanley banker Alok Sama thought he’d seen it all. Then he found himself chief dealmaker at the most influential technology investor in the world—SoftBank, the backer of Arm Holdings, Yahoo, Nvidia, TikTok, Uber, T-Mobile, Alibaba and WeWork. *The Money Trap* is Sama’s thrilling, stranger-than-fiction personal odyssey featuring his experiences alongside SoftBank’s iconic founder, Masayoshi Son, a visionary maverick who wants to be remembered as “the crazy guy who bet on the future” and whose mission is “happiness for everyone.” Sama takes the reader on a wild journey as he consorts with A-list CEOs and heads of state, and negotiates mega-deals on a Gulfstream jet, Son’s sanctuary with its exquisite Japanese garden, and a waterside restaurant in the Turkish Riviera—all while contending with a mysterious dark-arts smear campaign that takes a toll on his private life. This fascinating and humorous saga provides a unique insider perspective on the insanity of high finance and venture investing. Written with self-deprecating wit, unflinching honesty and searing introspection, *The Money Trap* is ultimately a morality tale: in life, as in technology investing, more money isn’t always the answer.

scott galloway nyu: *What’s Public about Public Higher Ed?* Stephen M. Gavazzi, E. Gordon Gee, 2021-10-19 This book uses survey data to examine public sentiment regarding higher

education, focusing on such critical issues as how universities spend taxpayer money, the pursuit of national rankings, student financial aid, and the interplay of international activities versus efforts to create closer to home impact. Building on their previous book *Land-Grant Universities for the Future*, the coauthors unflinchingly present a no-holds-barred exploration of what citizens really think about their public universities--

scott galloway nyu: *Accepted!* Jamie Beaton, 2022-02-23 Now a USA Today and Publishers Weekly bestseller! How do you REALLY get accepted to Harvard, Yale, and the Ivy League? Told from the fresh and personal perspective of 26-year-old Crimson Education CEO and Harvard, Stanford, and Oxford graduate Jamie Beaton, *Accepted!* is an honest and practical guide on beating the odds and getting into Ivy League and other elite schools - the smart way. Beaton takes you behind the doors of the world's top college admissions offices, revealing the highly strategic selection processes applied by institutions whose reputations depend on the number of students they admit, or more pointedly, the tens of thousands that they don't. In *Accepted!*, Beaton delivers the ultimate insider how to and disrupts cliched admissions advice with savvy strategies like: Moneyballing the university rankings and increasing your chances of admission Class spamming your way to academic supremacy and acceptance Playing the early application dating game and understanding how institutions are using it to their reputational advantage Packed with real-life examples from the thousands of students Beaton has helped land a spot at Harvard, Stanford, and other esteemed universities, *Accepted!* is a never-before assembled culmination of secrets, insights, and application strategies guaranteed to maximize your chances of getting in to the school of your choice. From ambitious students and their supportive parents to academic advisors and admissions professionals, *Accepted!* is the must-read guide to demystifying the often-convoluted and increasingly competitive world of elite college admissions.

scott galloway nyu: *Summary of Burn Book by Kara Swisher: A Tech Love Story* Justin Reese, 2024-03-05 **DISCLAIMER** This book does not in any capacity mean to replace the original book but to serve as a vast summary of the original book. *Summary of Burn Book by Kara Swisher: A Tech Love Story* IN THIS SUMMARIZED BOOK, YOU WILL GET: Chapter provides an astute outline of the main contents. Fast & simple understanding of the content analysis. Exceptionally summarized content that you may skip in the original book *Burn Book* is a memoir by award-winning journalist Kara Swisher, detailing the evolution of the digital world and the tech industry's founders who wanted to change the world but broke it instead. Swisher has interviewed tech titans like Steve Jobs, Jeff Bezos, Elon Musk, Bill Gates, Sheryl Sandberg, Bob Iger, Larry Page, Sergey Brin, Meg Whitman, Peter Thiel, Sam Altman, and Mark Zuckerberg over three decades. Despite the damage she chronicles, Swisher remains optimistic about tech's potential to help solve problems and calls for better, more thoughtful choices. The book is a love story to, for, and about tech from someone who knows it better than anyone.

scott galloway nyu: *Brand Elevation* Wolfgang Schaefer, JP Kuehlwein, 2021-01-03 How can a brand become one of those peerless 'Ueber-Brands' we all admire and are willing to pay a premium for? Is there a proven process? Where should we start? *Brand Elevation* explains the main drivers behind brands becoming peerless and priceless and how to harness these principles to develop a winning brand strategy. Written for marketers and brand managers of all levels of experience, and for both those working in start-ups and established players, it proposes a six-step, easy-to-follow program to elevate your brand. *Brand Elevation* explores challenges such as creating a distinct and brand-guiding mission, mediating between exclusivity and inclusion and mastering the art of seduction. Featuring case studies and expert accounts from organizations including Airbnb, Acqua di Parma, Burt's Bees, Lakrids, Starbucks, TerraCycle, and YouTube, Wolfgang Schaefer and JP Kuehlwein skilfully explain how any brand - regardless of sector and industry - can become a modern prestige brand.

scott galloway nyu: *The Techlash and Tech Crisis Communication* Nirit Weiss-Blatt, 2021-03-24 *The Techlash and Tech Crisis Communication* provides an in-depth analysis of the evolution of tech journalism. The emerging tech-backlash is a story of pendulum swings: we are currently in

tech-dystopianism after a long period spent in tech-utopianism.

scott galloway nyu: *Disrupt* Luke Williams, 2011 This requires a revolution in thinking: a steady stream of disruptive strategies and unexpected solutions. In *Disrupt*, Luke Williams shows exactly how to generate those strategies and deliver those solutions.
