strands answers 22 december: Discontented Miracle Dali L. Yang, 2007 China has been enjoying stellar economic growth for more than a quarter of a century. Yet the rapid growth amid market-oriented reforms has not been an unalloyed blessing. The 'China Miracle' has been accompanied by soaring income inequality and rising social tensions, over-taxing China's resource base and contributing to an environmental crisis. Despite substantial improvement in the standard of living and other social indicators, China's leaders have, in the aftermath of the Tiananmen crackdown, steadfastly held back the opening up of the political system. In this volume, contributors from the disciplines of economics, political science, and sociology examine how existing institutions, broadly defined, might have exacerbated tensions in China's evolving economy, society and polity as well as how institutional developments have been introduced to deal with existing or emerging conflicts and tensions.

strands answers 22 december: *The Last Days of T.E. Lawrence* Paul Marriott, 2021-11-02 It is quiet here now, and I feel as though I were fixed in my cottage for good. It is as I thought ... something is finished with my leaving the RAF. ... It gets worse instead of healing over ... At present the feeling is mere bewilderment. I imagine leaves must feel like this after they have fallen from their tree and until they die. *The Last Days of T.E. Lawrence* is a chronicle of the time from when Lawrence of Arabia left the RAF up to his fateful motorcycle accident on 13 May 1935. Much of the story is told in Lawrence's own words, from diaries and letters. It covers his time at Clouds Hill, the picturesque cottage in Dorset, where Lawrence intended to retire. Influenced by Lawrence's last and unpublished writing project, *Leaves in the Wind*, *A Leaf in the Wind* reveals his state of mind as he prepared to leave the RAF. Travelling on his Brough Superior motorcycle along a narrow Dorset lane, Lawrence collided with two pushbikes. An official witness told of Lawrence travelling fast, and swerving to avoid a black car coming in the opposite direction. This book painstakingly fits together all the evidence to determine the truth of the motorcycle crash that led to the death of Lawrence of Arabia. For the first time a detailed record is set down covering the last six days before the accident. Meticulously researched by Paul Marriott and Yvonne Argent, their painstaking investigations reveal many new insights into Lawrence's life, activities and interests.
