skull and bones society secrets: Age of the Gentiles and the White God Delusion Timothy Huges, 2012-10-25 The book is a logical Bible study and in-depth examination of Race, Sex, Power, Politics and War. The Author addresses the false doctrine and propaganda that has been fronted for centuries, by Christianity and Judaism, as to their supremacy above other religions and races. He also examines the role these two religions have played in promoting these false doctrines, which literally contradict, the written laws of the Bible. The book further looks at Islam where the Author acknowledges the origin and foundation of its original teachings, as is likened by God's Commandments and as written in the Holy Bible and Holy Qur'an. The Author takes a scalpel to dissect race and religion to its core. The Author separates the gentile dogma of Christianity and Judaism and highlights their contradiction to the Laws of God. Lastly, he dwells on separation of races based on their individual religious philosophies, concluding in the introduction of Lucifer as a Chief Architect of Gentile religious doctrine and practices. Lucifers mission is to maintain the

delusion of the white God and its false power to rule over Black and Semite people. Quotes from Author: I am challenging the worlds Christian religious believers, communities and the general masses to follow the true laws of God. They should stop falling prey to the False Luciferian Doctrine and the delusion of White God. I affirm to the world that, I am a true servant of God who is challenging all religious ministers to debate evidence and facts, referred to in this book through the lesson chapters, so that they may distinguish the truth from the lie. I challenge them to debate about the alleged religious authorities in reference to the Christian and Jewish faith, in order to determine, if truly, their religious practices is of the God of Heaven and Earth. I challenge all ministers to prove that they follow and believe in the commandments, Laws and Statues of God as written in the scriptures. I further challenge all of them to debate the true ethnology and race of Gods chosen people; his first family being the black and Semite (Hebrews), who are identified by their skin pigmentation and coloration; and their true religion to be Abrahamic. This would also prove that True Israelites are cousins to the Ishmaelites. In addition, I challenge all ministers of Jewish Authority, to a debate, as to the true ethnology of True Hebrews of the Land of Palestine and Canaan. It is worth noting that the true Hebrews were removed from the Holy land, and thereafter cursed by God and Scattered unto Gentile nations in all four corners of the earth. And shall remain there, until the second coming of Jesus; as was prophesied in his Revelation war against the Christian, Jewish Armies of Gog (Europe) and Magog (America, Israel), and as foretold in the book of Revelations. I challenge them to deny that it has been 2000 years of Christian Propaganda Crusade by the gentiles and gentile Jews, and Theologians, Philosophers and Historians, to hide the true identity of the true Israelites. Their mission has been to remove parts of, and alter the Holy Scriptures, thereby changing the Laws of God. Their intention is to make everyone follow Luciferian Doctrine. Because of this, God gave Revelation unto Jesus Christ, to bring forth the final Armageddon to all who changed His Laws. This led to his prophecy against the Christians (Nicolaitans) and Jewish doctrine (religion), which He hated, for they are the synagogue (disciples) of Satan.

skull and bones society secrets: The Jarmusch Way Julian Rice, 2012-10-12 Since the early 1980s, Jim Jarmusch has produced a handful of idiosyncratic films that have established him as one of the most imaginatively allusive directors in the history of American cinema. Three of his films—*Dead Man* (1995), *Ghost Dog* (1999), and *The Limits of Control* (2009)—demonstrate the director's unique take on Eastern and Aboriginal spirituality. In particular, they reflect Jarmusch's rejection of Western monotheism's fear-driven separation of life and death. While these films address historical issues of imperialism, colonialism, and genocide, they also demonstrate a uniquely spiritual form of resistance to conditions that political solutions have not resolved. The impact of *Dead Man*, *Ghost Dog*, and *The Limits of Control* cannot be fully felt without considering the multicultural sources from which the writer/director drew. In *The Jarmusch Way*, Julian Rice looks closely at these three films and explores their relation to Eastern philosophy and particular works of Western literature, painting, and cinema. This book also delves deeply into the films' association with Native American culture, a subject upon which Rice has written extensively. Though he has garnered a passionate following in some circles, Jarmusch remains critically underappreciated. Making a case that this director deserves far more serious attention than he has received thus far, *The Jarmusch Way* thoroughly discusses three of his most intriguing films.

skull and bones society secrets: **The Color of Truth** Kai Bird, 2017-01-10 From the Pulitzer Prize-winning coauthor of *American Prometheus*—this biography of the Bundy Brothers inspired the Academy Award-winning film *Oppenheimer*. In this definitive biography of McGeorge Bundy and William Bundy, two of the best and the brightest who advised presidents about peace and war during the most dangerous years of the Cold War, Kai Bird pens a portrait of the fiercely patriotic, brilliant, and brazenly self-confident men who directed a steady escalation of a war they did not believe could be won. Drawing on seven years of research, nearly one hundred interviews, and scores of still-classified top secret documents in a masterful reevaluation of America's actions throughout the Cold War and Vietnam, *The Color of Truth* tells the tale of the anti-communist liberals who, despite their grave doubts about sending Americans to fight in Southeast Asia, became key architects of America's war in Vietnam. Like the bestselling *The Wise Men*, this dual biography is both an inside account of the making of US foreign policy in an era of nuclear weapons and a stunning group portrait of the heirs of the Wise Men—including Robert McNamara, George Ball, and Robert Kennedy—and the presidents they served.
