Overview of the Jakarta Method Book

The jakarta method book provides a comprehensive examination of the anti-communist purge in Indonesia in 1965-1966, a pivotal event that led to the deaths of hundreds of thousands of people. It uncovers the mechanisms of political repression and the international dimensions of the violence. The book sheds light on how the military and intelligence agencies orchestrated mass killings under the guise of eradicating communism, contributing to a broader understanding of Cold War-era repression. Readers are introduced to the complex social and political fabric of Indonesia that allowed such a systematic extermination to unfold.

Content Summary

The book details the sequence of events starting from the attempted coup in 1965, followed by the military crackdown on the Indonesian Communist Party (PKI) and its alleged sympathizers. It discusses the role of propaganda, the collaboration between local militias and the army, and the aftermath of the killings. Additionally, it explores Western involvement, particularly the United States and the United Kingdom, in supporting the anti-communist regime. The narrative combines survivor testimonies, declassified documents, and historical analysis to present a vivid account of this period.

Purpose and Objectives

The primary objective of the jakarta method book is to bring to light a suppressed chapter of history that has received little attention in mainstream discourse. It aims to document the human rights violations and challenge prevailing narratives that have justified or ignored the mass violence. By doing so, the book contributes to global conversations about state violence, impunity, and the importance of historical memory.

Historical Context of the Indonesian Mass Killings

Understanding the historical backdrop of the events covered in the jakarta method book is crucial for grasping the full scope of the tragedy. The mid-20th century was marked by intense ideological conflict between communist and anti-communist forces, especially in the wake of decolonization and the Cold War. Indonesia's strategic importance and internal political struggles set the stage for a violent confrontation.

Political Climate in Indonesia Before 1965

Indonesia, led by President Sukarno, was navigating a delicate balance between nationalist forces and the growing influence of the Indonesian Communist Party (PKI). The country experienced political instability, economic difficulties, and tensions among military factions. The PKI was one of the largest communist parties in the world outside the Soviet Union and China, which alarmed both domestic opponents and Western governments.

International Influences and Cold War Dynamics

The Cold War context heavily influenced the events leading to the mass killings. Western powers, fearing the spread of communism in Southeast Asia, covertly supported anti-communist elements in Indonesia. Intelligence agencies engaged in propaganda and provided assistance to the military, which played a significant role in the violence. The jakarta method book explains how these international interventions shaped the local political landscape.

Key Themes and Analysis

The jakarta method book explores several critical themes that deepen the reader's understanding of the Indonesian mass killings and their broader implications. These themes illuminate the mechanisms of repression and the consequences for Indonesian society and global politics.

State-Sponsored Violence and Political Repression

The book analyzes how state institutions, particularly the military, orchestrated the systematic elimination of alleged communists. It discusses the use of propaganda, torture, and extrajudicial killings as tools for consolidating power. This theme highlights the brutal nature of the purge and the complicity of various actors in facilitating mass violence.

Role of Propaganda and Media

Propaganda played a pivotal role in shaping public perception and justifying the killings. The Jakarta Method book details how the military and allied forces used media to demonize the PKI and legitimize their actions. This manipulation of information contributed to widespread support or passive acceptance of the atrocities.

International Complicity

An important aspect of the book is its investigation into international complicity. It reveals how foreign governments not only condoned but actively supported the anti-communist purge through intelligence sharing, training, and diplomatic backing. This theme challenges narratives that present the violence as solely an internal Indonesian affair.

Long-Term Consequences

The book discusses the lasting impact of the killings on Indonesian society, politics, and memory. It examines the culture of silence and denial surrounding the events, the effects on survivors and families, and the continued political repression under Suharto's New Order regime. The Jakarta Method book argues for the importance of reckoning with this past to understand contemporary Indonesia.

Author and Research Approach

The Jakarta Method book is the result of extensive research by an expert historian specializing in Cold War Southeast Asia. The author combines archival research, interviews with survivors and witnesses, and analysis of declassified intelligence documents to construct a detailed and authoritative account.

Research Methodology

The author employs a multidisciplinary approach, utilizing primary sources such as government archives, personal testimonies, and contemporary media reports. This comprehensive methodology ensures a balanced and factual narrative that exposes previously hidden aspects of the Indonesian mass killings.

Author's Background and Expertise

The author's background in political history and expertise in Cold War-era studies provide a solid foundation for the book's analysis. Their academic rigor and commitment to uncovering historical truths contribute to the book's credibility and depth.

Impact and Reception

Since its publication, the jakarta method book has influenced academic circles, human rights discussions, and public awareness about Indonesia's past. It has sparked renewed interest in Cold War history and the need for historical justice.

Academic and Critical Reception

Scholars have praised the book for its thorough research, nuanced analysis, and contribution to Southeast Asian studies. It is frequently cited in discussions about state violence, genocide studies, and Cold War geopolitics. Critics acknowledge its role in challenging dominant historical narratives and encouraging transparency.

Influence on Human Rights and Memory

The book has also been instrumental in promoting dialogue about human rights abuses and the importance of historical memory in Indonesia. It supports advocacy efforts for justice and reconciliation for victims of the 1965-1966 killings.

Public Awareness and Education

Beyond academia, the jakarta method book has reached a broader audience, raising awareness about a suppressed chapter of history. It has been used in educational settings to teach about political violence and the complexities of Cold War-era interventions.

Significance in Modern Historical Discourse

The jakarta method book occupies a significant place in modern historical discourse by filling gaps in the understanding of Cold War violence and its global ramifications. It challenges revisionist histories and underscores the necessity of confronting uncomfortable truths.

Contribution to Cold War Studies

The book enriches Cold War studies by highlighting Southeast Asia as a critical theater of ideological conflict and state violence. It provides a case study of how anti-communist campaigns were implemented and supported internationally.

Lessons on State Violence and Impunity

By documenting the mechanisms and impact of the Indonesian mass killings, the jakarta method book offers valuable lessons on the dangers of unchecked state power and the consequences of impunity. It serves as a warning and a call for accountability in similar contexts worldwide.

Encouragement for Historical Reconciliation

The book's exploration of memory and denial encourages efforts toward reconciliation and justice in Indonesia. It stresses the importance of acknowledging past atrocities for building a more just and informed society.

the jakarta method book: The Jakarta Method Vincent Bevins, 2020-05-19 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR, THE FINANCIAL TIMES, AND GQ “A radical new history of the United States abroad” (Wall Street Journal) which uncovers U.S. complicity in the mass-killings of left-wing activists in Indonesia, Latin America and around the world In 1965, the US government helped the Indonesian military kill approximately one million innocent civilians—eliminating the largest Communist Party outside China and the Soviet Union and inspiring other copycat terror programs. In this bold and comprehensive new history, Vincent Bevins draws from recently declassified documents, archival research, and eyewitness testimony to reveal a shocking legacy that spans the globe. For decades, it’s been believed that the developing world passed peacefully into the US-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a fundamental part of Washington’s final triumph in the Cold War.

the jakarta method book: Political Choreographies, Decolonial Theories, Trans Bodies Marina Gržinić, Jovita Pristovšek, 2023-04-12 This book opens a discussion on bodies, gender, and decolonial horizons, subjects that are increasingly becoming a political front in the search for justice. It offers an in-depth look at the positions and current developments in decolonial theory, Black Marxism, trans* studies, and contemporary performance research and practice. The focus is on decolonial theory and trans* bodies, bringing forth a discussion of otherness shaped by race, class, and trans*. What kind of body, movement, and politics can be conceived to attack the neoliberal current with its accelerated digital changes and seemingly dispersed, but in reality hyper-flexible, bureaucratic controls?

the jakarta method book: Vulture Capitalism Grace Blakeley, 2025-01-14 This timely manifesto from an acclaimed journalist illustrates how corporate and political elites have used planned capitalism to advance their own interests at the expense of the rest of us--and how we can take back our economy for all. It's easy to look at the state of the world around us and feel hopeless. We live in an era marked by war, climate crisis, political polarization, and acute inequality--and yet many of us feel powerless to do anything about these profound issues. Tracing over a century of neoliberal planning and backdoor bailouts, Blakeley takes us on a deeply reported tour of the corporate crimes, political manoeuvring, and economic manipulation that elites have used to enshrine a global system of 'vulture capitalism'--planned capitalist economies that benefit corporations and the uber-wealthy at the expense of the rest of us--at every level, from states to empires. Blakeley exposes the cracks already emerging within capitalism, lighting a path forward for how we can democratize our economy, not just our politics, to ensure true freedom for all. --

the jakarta method book: Decolonizing Knowledge Radha D'Souza, Sunera Thobani, 2025-04-24 Interdisciplinary scholars rethink strategies for moving contemporary decolonization politics forward by revisiting the writings of the mid-20th century anti-colonial movements' leading intellectuals. Decolonizing Knowledge draws on intellectual histories of anti-colonial thinkers who developed their ideas of decolonization through practical engagement with struggles for freedom from colonialism. Reading works by J.P.S. Uberoi, Frantz Fanon, Aimé Césaire, C.L.R. James and Andaiye, among others, interdisciplinary activist scholars reflect on the meaning of decolonization that emerged from anti-colonial struggles of the past and its relevance today. Each chapter in the volume reflects on one or more texts from anti-colonial thinkers of the past to draw out the meaning of decolonization as conceptualized by earlier generations, providing key insights from their thinking and examining their relevance for contemporary struggles for racial, gender and class justice. With authors writing from multiple disciplines, these essays straddle a range of themes from theory and practice, art and literature, gender and violence, and political economy, to address a subject that is preoccupying academia and activists in the 21st century. Decolonizing Knowledge is an intervention into contemporary debates on decolonizing curricula and universities, arguing that these calls need to be firmly engaged in wider social practices for justice, and that they can learn much from those who wrote on the topic amid the 20th century's many struggles for freedom.

the jakarta method book: Reconsidering Reparations Olúfẹmí O. Táíwò, 2025-04-01 A

pathbreaking book about world history, global justice, and the climate crisis—featuring a new preface by the author. “Coursing with moral urgency and propelled by brilliant prose, this is more than argument. It's how we build the power needed to win.” —Naomi Klein A clear, new case for reparations as a “constructive,” future-oriented project that responds to the weight of history’s injustices with the equitable distribution of benefits and burdens. Centuries ago, Táíwò explains, European powers engineered the systems through which advantages and disadvantages still flow. Colonialism and transatlantic slavery forged schemes of injustice on an unprecedented scale, a world order he calls “global racial empire.” The project of justice must meet the same scope. Táíwò’s analysis not only discourages despair, it demands global resistance. Reconsidering Reparations suggests policies, goals, and organizing strategies. And it leaves readers with clear and powerful advice: act like an ancestor. Do what we can to shape the world we want our moral descendants to inherit, and have faith that they will continue the long struggle for justice. This understanding, Táíwò shows, has deep roots in the thought of Black political thinkers such as James Baldwin, Martin Luther King, Jr., Cedric Robinson, and Nkechi Taifa. Reconsidering Reparations is a book with profound implications for our views of justice, racism, the legacies of slavery and colonialism, and climate change policy.

the jakarta method book: If We Burn Vincent Bevins, 2023-10-03 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW REPUBLIC, VERSO, AND THE JOURNAL OF DEMOCRACY | AN N+1 MAGAZINE 2023 RECOMMENDED BOOK The story of the recent uprisings that sought to change the world - and what comes next From 2010 to 2020, more people participated in protests than at any other point in human history. Yet we are not living in more just and democratic societies as a result. Acclaimed journalist Vincent Bevins carried out hundreds of interviews around the world, guided by a single, puzzling question: How did so many mass protests lead to the opposite of what they asked for? The result is a stirring work of history that connects events in a dozen countries and reveals that conventional wisdom on revolutionary change is gravely misguided. From the so-called Arab Spring to Gezi Park in Turkey, from Ukraine’s Euromaidan to student rebellions in Chile and Hong Kong, Bevins provides a blow-by-blow account of street movements and their consequences, recounted in gripping detail. In this groundbreaking study of an extraordinary chain of events, protesters and major actors look back on successes and defeats, offering urgent lessons for the future.

the jakarta method book: Wreckonomics Ruben Andersson, David Keen, 2023-11-03 In Wreckonomics, Ruben Andersson and David Keen analyze why policies continue to live on when it has become apparent that they do not work. They show how the perverse outcomes we see in the fight against terror, migration, and drugs are part of the proliferation of pseudo-wars that have become a dangerous political habit and an endless source of profit. Covering a range of cases around the world, the authors expose and interrogate the incentive systems that allow destructive and failed policies to remain in effect. They also develop strategies to collectively dismantle the addiction to waging war on everything.

the jakarta method book: Decolonizing Development and Religion Joerg Rieger, Sanjana Das, 2025-05-30 Discourses of development have been part of the modern world, for good or for ill. In the past, various colonialisms have been justified by the notion of development, but so have efforts to provide alternatives to colonization. In this volume, present-day development and decolonial discourses are engaged together from a plurality of perspectives from various continents around the globe. In the chapters that follow, the work of junior and senior scholars enters into conversation around specific communities that exist in the tensions of traditional and capitalist economies and religions, providing models of flourishing that produce alternatives to the prevalent neoliberal models of development that are wedded to neocolonial economic, political, and religious structures. Part of a new series of volumes co-published with the Council for World Mission’s DARE (Discernment And Radical Engagement) programme.

the jakarta method book: What's Left Malcolm Harris, 2025-04-15 A vital guide for collective political action against the climate apocalypse, from bestselling progressive intellectual Malcolm

Harris—"a brilliant thinker and writer capable of making the intricacies of economic conditions supremely readable" (Vulture). Climate change is the unifying crisis of our time. But the scale of the problem can be paralyzing, especially when corporations are actively staving off changes that could save the planet but which might threaten their bottom lines. To quote Greta Thunberg, despite very clear science and very real devastation, the adults at the table are still saying "blah blah blah." Something has to change—but what, and how? In *What's Left*, Malcolm Harris cuts through the noise and gets real about our remaining options for saving the world. Just as humans have caused climate change, we hold the power to avert a climate apocalypse, but that will only happen through collective political action. Harris outlines the three strategies—progressive, socialist, and revolutionary—that have any chance of succeeding, while also revealing that none of them can succeed on their own. *What's Left* shows how we must combine them into a single pathway: a meta-strategy, one that will ensure we can move forward together rather than squabbling over potential solutions while the world burns. Vital and transformative, *What's Left* confirms Malcolm Harris as next-generation David Graeber or Mike Davis—a historian-activist who shows us where we stand and how we got here, while also blazing a path toward a brighter future.

the jakarta method book: Solidarity Leah Hunt-Hendrix, Astra Taylor, 2025-08-26 A VULTURE BEST BOOK • From renowned organizers and activists Leah Hunt-Hendrix and Astra Taylor, comes the first in-depth examination of Solidarity—not just as a rallying cry, but as potent political movement with potential to effect lasting change. A DAYTON LITERARY PEACE PRIZE FINALIST "A window into what is possible when we reject the politics of division, trade individualism for interconnectedness and prioritize coming together for the greater good."—Heather McGhee, author of *The Sum of Us: What Racism Costs Everyone* Reads at once like a moral treatise and a rallying manifesto, a call to reflect and lock arms."—The Washington Post Solidarity is often invoked, but it is rarely analyzed and poorly understood. Here, two leading activists and thinkers survey the past, present, and future of the concept across borders of nation, identity, and class to ask: how can we build solidarity in an era of staggering inequality, polarization, violence, and ecological catastrophe? Offering a lively and lucid history of the idea—from Ancient Rome through the first European and American socialists and labor organizers, to twenty-first century social movements like Occupy Wall Street and Black Lives Matter—Hunt-Hendrix and Taylor trace the philosophical debates and political struggles that have shaped the modern world. Looking forward, they argue that a clear understanding of how solidarity is built and sustained, and an awareness of how it has been suppressed, is essential to warding off the many crises of our present: right-wing backlash, irreversible climate damage, widespread alienation, loneliness, and despair. Hunt-Hendrix and Taylor insist that solidarity is both a principle and a practice, one that must be cultivated and institutionalized, so that care for the common good becomes the central aim of politics and social life.

the jakarta method book: Red Threads Henry Bell, 2024-09-20 'I loved this book ... this is a history we can all connect with and be inspired by' Josie Long, comedian 'The epic story of this universal symbol, told with passion and erudition' Liz Lochhead, poet 'Intense and gripping. Tells a grand history of the people and movements who flew and still fly the red flag' Ewan Gibbs, author of *Coal Country* 'An internationalist tour de force and a source of inspiration' Hannah Proctor, historian and author of *Burnout* The red flag: There is no symbol, perhaps other than the crucifix and the crescent moon, for which so many people have lived and died. A standard of hope and resistance to millions and of terror and tyranny to many. But why is the flag red? How did it come to represent the workers against the bourgeoisie? And how did it travel the world? Henry Bell takes us around the globe and back in time, tracing the lineage of the red flag. From its beginnings as a sign of battle and piracy to the raising of a blood-stained flag at the Merthyr Rising and the arrival of the red flag at the Paris Commune, from the jungles of north-eastern India to the factories of Cuba, *Red Threads* explores how this symbol of working-class power first came to be held aloft in the hands of revolutionaries; who raises it today; and its meaning for the future. HENRY BELL is a historian and award-winning poet based in Glasgow. He is the author of *John Maclean: Hero of Red Clydeside*,

described as 'compelling and brilliantly written' by Jackie Kay, Scottish Poet Laureate. He brings people's history to life through running Radical Glasgow Tours and is a committee member of the Red Sunday School, a socialist school for young people. He has written for National Geographic, Open Democracy and Jacobin.

the jakarta method book: *Meanjin Vol 80, No 2* Meanjin Quarterly, 2021-06-15 'The world knows that the Australian immigration process is very tough.' In the magazine's cover feature Still Lives, five people now resident in Australia and New Zealand tell in vivid first-hand accounts the stories of lives stilled by statelessness or detention, and lives settled in a new home and a sense of belonging. Their stories are matched with luscious images by artist Sarah Walker. Anna Spargo-Ryan looks at recent cases of sexual harassment and violence in and around the national parliament and concludes 'This government cannot deliver action on sexual violence. They have told us to our faces: they simply do not understand how.' Mark Pesce considers the recent battles between the Australian Government and the world's major players in social media and the online world, an epoch-defining clash, he argues, between state sovereignty and technological monopoly. Historian James Curran has a long conversation with that legend of well-chosen Australian letters, Don Watson. In the first of two pieces looking at allegations of war crimes made against Australian soldiers in Afghanistan, Bobuq Sayed argues that 'The war crimes detailed by the Brereton Report are endemic to a growing culture of white supremacy in Australia that has also clearly taken root in the ADF.' Caroline Graham looks at the very long history of 'regrettable incidents' involving Australian soldiers, a story of 'warriors, bad apples and blood lust'. Plus: Clementine Ford on women's anger, Tom Griffiths on the great environmentalist and walker John Blay, Sara Saleh considers Australia in Three Books, Dennis Altman and Alistair Kitchen give two perspectives on 'cancel culture', and Kenneth Hayne writes on our troubled institutions. New fiction from Bri Lee, Bella Li, Shannon Burns and Jocelyn Richardson. New poetry from pO, Rebecca Jessen, John Kinsella, Graham Akhurst, Jennifer Maiden, Helene Pantis, Cailin Maling, Liam Ferney, Aidan Coleman, Jane Downing, Geoff Page, Tracy Ryan and Derek Chan. the jakarta method book: *Anglo-American Stage and Screen Drama* Mike Ingham, 2023-11-27 *Anglo-American Stage and Screen Drama* analyses and discusses the contemporary role of stage and screen drama as a critical forum for progressive thinking in an increasingly polarised geopolitical world. The book addresses the cultural politics of socially engaged 21st century stage plays and films, and makes the case for drama as a sociopolitical forum, in which the complex and contentious issues that confront society can be explored and debated. It conceives of Anglophone political drama as a significant intervention in today's culture wars, representing the latter as a convenient distraction from the ongoing depredations of neoliberalism. In the main part of the book selected case-study plays and films from each of the first two decades illustrate drama's capacity to influence critical debate on social justice issues. All of the case-study texts under discussion express a powerful aesthetics of resistance to right-wing ideology, and promote inclusive and enlightened values. This broader orientation underlines drama's role as a channel for critical agency in today's putative post-socialist, post-democratic climate.

the jakarta method book: President's Kill List Luca Trenta, 2024-05-31 From Fidel Castro to Qassem Soleimani, the US government has been involved in an array of assassinations and assassination attempts against foreign leaders and officials. The President's Kill List reveals how the US government has relied on a variety of methods, from the use of poison to the delivery of sniper rifles, and from employing hitmen to simply laying the groundwork for local actors to do the deed themselves. It shows not only how policymakers decided on assassination but also the level of Presidential control over these decisions. Tracing the history of the US government's approach to assassination, the book analyses the evolution of assassination policies and, for the first time, reveals how successive administrations - through private justifications and public legitimations - ensured assassination remained an available tool.

the jakarta method book: Post Green Murali Sivaramakrishnan, Animesh Roy, 2023-12-15

The idea in *Post Green: Literature, Culture, and the Environment* is not to create another binary like East/West, but rather a call for a shift in the order of perception. The contributors signal a movement from the conventional understanding of green thinking—acknowledging human-centered limitations of the green approaches and recognising the immense possibilities and holistic perspectives that a symbiotic human-nature perspective offers. This book proposes to move beyond the monoculture of the mind toward a celebration of diversity and plurality. While the movement from red to green was a politics of difference, as essays in this book emphasize, the shift toward post green is based on an all-inclusive and holistic vision that contains within itself both difference and multiplicity, something that is quintessential for the stability of our ecosystem. Such affirmative bio-politics toward an alternative symbiosis challenges intellectual theorising, without minimizing the need for radical questioning. It urges the need to do away with disciplinary boundaries drawing hopes for a new spiritual geography of the mind to surface.

the jakarta method book: *Genocide* Adam Jones, 2023-12-12 *Genocide: A Comprehensive Introduction* is the most wide-ranging textbook on genocide yet published. Designed as a text for undergraduate and graduate students from a range of disciplines, it will also appeal to non-specialists and general readers. Fully updated to reflect the latest thinking in this rapidly developing field, this unique book: Provides an introduction to genocide as both a historical phenomenon and an analytical-legal concept, including the concept of genocidal intent and the dynamism and contingency of genocidal processes. Discusses the role of state-building, imperialism, war, and social revolution in fueling genocide. Supplies a wide range of full-length case studies of genocides worldwide, each with a supplementary study. Explores perspectives on genocide from the social sciences, including psychology, sociology, anthropology, political science/international relations, and gender studies. Considers the future of genocide, with attention to historical memory and genocide denial; initiatives for truth, justice, and redress; and strategies of intervention and prevention. Highlights of the new edition include: New case studies of the Uyghur genocide in the People's Republic of China, the Rohingya Muslims of Myanmar, and Muslims in India. The historical and archaeological legacy of genocide. New and vivid testimonies of survivors and witnesses to genocide. This significantly revised fourth edition will remain an indispensable text for new generations of genocide study and scholarship. An accompanying website (www.genocidetext.net) features a selection of supplementary materials, teaching aids, and Internet resources.

the jakarta method book: *History Below the Global* Lorenzo Kamel, 2024-04-02 *History Below the Global* aims to foster an entangled knowledge of global history, and to place others at the centre stage, to better understand the fluid world which we inhabit. Relying on primary sources in seven languages and books written by hundreds of African, Asian, Middle Eastern and South American scholars, Lorenzo Kamel examines the coloniality of power in historical research and sheds light on the largely neglected roles of the others and their modernities in history. The book provides three elements combined. Firstly, a thorough analysis of the process of accumulation ("knowledge piece by piece") which underpins some of the major achievements in human history. Secondly, a view on pre-colonial perspectives and the process through which the latter have been swallowed up by Eurocentric and solipsistic perceptions. Lastly, a study of the roots and outcomes of colonialisms and their echoes in our present. These three elements are addressed by combining multiple methodologies and approaches, in the awareness that the history analysed, as well as the historiographical trajectories that underlie it, are ultimately inter-penetrable, as well as themselves the result of a process of accumulation. *History Below the Global* challenges the view that, first and foremost, the "West", for bad and for good, is and was the centre: the proactive actor which did and undid. This volume will be of value to all those interested in global history, the history of colonialism, post-colonial studies, modern and contemporary history.

the jakarta method book: *Religion and Cooperative Economics* Jamin Andreas Hübner, 2025-07-09 This volume looks at the intersection between religion and cooperative economics through the lens of economic justice. It covers world religious traditions and gives particular focus to cooperative organization, the social and economic problems of capitalism, and the earliest

Christian tradition of the Jesus movement. It also examines religious and theological discourse in contemporary defenses of neoliberal capitalism and contemporary advocates of cooperatives. The book serves to unfold both how and why cooperative economics can and should supplant traditional employer-employee relationships (a pillar of modern capitalism) and revive interest in cooperation, worker solidarity, and significant social and political reforms.
